The Standard Bred and Registered Trotting Stallion

Allercyone McGregor

RECORD 2:09 1/4

ALLERCYONE MCGREGOR, No. 3080, the subject of this sketch, has a record of 2:09 1/4 on a half mile track in 1910. He is one of the stoutest, rugged-made, game race horses, and is from a race horse family on both sides of the house, being sired by Allercyone, he by the great Allerton, 2:09 1/4, his dam being the great brood mare, All McGregor, by Ben McGregor. His second dam is Maude McGregor, dam of Nut McGregor 2:17 3/4, also the dam of Miss Delmar, the greatest race mare that ever raced over a half-mile track. Also the dam of many others with standard records. His third dam is the dam of six from 2:11 to 2:23, and with the fourth dam is a producer on his sire's side. Allercyone McGregor comes from the great Allerton family being by Allercyone the best son of the great Allerton, who in his time held the world's dam's side the first three dams were McGregor mares, which family gave us the mighty Cresus, who held the stallion record 2:02 1/4, for several years, and a family that has been considered the gamiest race horse family in existence. Allercyone McGregor is a fine individual and a game race horse, having started 21 times and being first or second every time but twice. He was bred by E. R. Knell, Carthage, Mo. In a race at Toledo, Ohio, Sept. 14, 1910, he bested high class a field of 212 pacers as ever started over a half-mile track. The first heat being 2:09 1/4, equaling the track record made by Mattie Chimes the year before. He won the heat pulled to a jog in the stretch, and it was said by all the horsemen present that he could have paced the heat in 2:08 or better. His record is no limit to his speed, as he has paced a half-mile on a half-mile track in 1:02 1/4, a quarter in 0:28, and an eighth in 0:13 1/4. While Allercyone McGregor is a pacer himself, he is strictly trotting bred, and what few colts he has are all trotters and show lots of speed, and he should be as great a sire as his grand sire, if given an opportunity.

Will stand for season of 1915, Monday, Tuesday and Wednesday at F. E. Payne's farm; Thursday, Friday and Saturday at Red Cloud Tie Barn.

TERMS:—\$12.50 for the season. \$15 to insure colt to be ten days old.

Children Write Of
Their Lincoln Trip

Below we publish a couple of letters written by two Webster county school children, who were among those in company with Miss Gertrude L. Coon, our able county superintendent, attending the Short Course in Lincoln, last week. The letters are interesting and speak for themselves:

After arriving in Lincoln and looking around the farms our first trip was to St. Paul's church and we heard the pipe organ and some very nice singing. On Monday we went to the capitol and we went up in the dome and saw some war relics. Then to the museum and saw some bones of animals and people, then to the public library where we saw lots of books. Then we went to the state farm. They took us around the farm. We had a party in the evening with 23 boys and 18 girls from 17 counties, and there were seven boys and one girl from Webster county.

Tuesday morning we had class judging pigs. In the afternoon we had a talk on vegetable growing, fruit growing, flower culture and landscape gardening. We had pictures of a boy when he started to school and when he graduated, and we judged beef cattle, also we had a lecture on manure spreaders.

Thursday we judged dairy cattle. We had a lecture on butter, also a lecture on gasoline engines and we had our pictures taken. Thursday evening we saw pictures on horses, chickens and irrigation, and we had a class on wheat and oats. In the afternoon we went to the Beatrice creamery. From there we went to the ice plant. On Friday we took important points about a horse. In the afternoon we went on an excursion and we went through the telephone office. From there we went to a big laundry, then to a printing office where they print the Lincoln Daily News. In the evening we went to the university where we saw them melting iron in the foundry.

Saturday we went down town and left for home at 12:30 and arrived at home on the 8:15 train.

JOHN A. COON.

Our first visit in Lincoln was on Sunday to St. Paul's Methodist church, where we heard a pipe organ and also a fine oratorio, besides the regular sermon.

Monday morning we were taken to the Agricultural hall and registered. After this we started on our first excursion, visiting the Capital building, the Museum, the Public Library and the Library hall. We then returned to the state farm and ate a hearty dinner. After dinner Mr. Skinner showed us all over the farm. We visited the Machinery building, the Judging pavilion, the Veterinary building, the cattle and horse barn, the Dairy building and the Model farm.

After supper we were given a reception by the faculty. We enjoyed the evening very much.

Tuesday morning after breakfast we were shown through the cooking laboratory, where we became acquainted with the different utensils. Then we had a cooking lesson on cereals.

After dinner we went to the Agricultural Hall and heard a lecture by Miss

Brown on "Sewing," followed by another lecture on "Nature Study" by Miss Bullock.

We spent Tuesday evening toasting marshmallows in the woods. Wednesday morning after breakfast, we had a lecture on "Cooking," and then we were taken to the dairy building, where we were given a lecture on "Butter Making." We then went back to the cooking laboratory and had our cooking lesson on "Potatoes."

Wednesday, after dinner, we went to the Agricultural Hall, where we had another lecture by Miss Brown on "Sewing," followed by one on "Home Decorations," by Miss Ort. Then the boys' and girls' picture were taken, after which Miss Peterson gave a talk on "Club Work."

Wednesday evening we went to the Agricultural Hall, where moving pictures were shown, showing a boy going through the School of Agriculture, were shown. This was followed by a talk by Miss Coon.

Thursday morning a lecture on "Sewing" was given. The cooking lesson then followed this. We then served dinner, having Miss Coon and Miss Peterson as guests.

After dinner we took another excursion going to the Rudge & Guenzel store to study furniture, and to the Beatrice Creamery, Co. Station.

After supper we had another illustrated lecture showing horses, hens and some state fair pictures.

Friday morning we had another lecture on "Cooking," followed by the canning of fruit.

Friday afternoon we took another excursion, visiting the Automatic Telephone office, the Evans Laundry, and the Lincoln Daily News printing office.

Friday evening we saw the engineering display, in which iron was melted and molded, wood was carved and several other things carried on.

Saturday morning we prepared to go home. We left Lincoln about 12:30, having a fine trip and reaching Red Cloud about 8:15.

There were twenty-two girls and twenty-three boys attending the Short Course. There were twenty counties represented. Of these Webster county had the largest delegation.

We left Lincoln feeling that we had enjoyed a fine time and learned as much as if we had been in school during the week.

IRENE PEGG.

Weather and Crop Conditions

Lincoln, Neb., May 4.—The week was warm, the temperature averaging 4 degrees above the normal. The temperature was low Tuesday morning, with heavy frost in the extreme western counties. Showers occurred in nearly all parts of the State. The rainfall was less than half an inch in many counties, but ranged from threefourths to somewhat more than an inch in others. The rainfall generally was heaviest in the western counties. The past week has been excellent for the growth of vegetation and for the progress of work. Apple trees are in full bloom. Wheat, oats, and grass have grown fast. Alfalfa is 12 to 24 inches high. Corn planting has begun in the southern counties and seeding of small grain is well advanced in the northern.

Imported French Percheron Stallion
DAMIER, No. 40282

DAMIER is well known in this vicinity as a great draft stallion. His colts always show his breeding, and have sold at much higher prices on the market than colts from any horse ever stood in Campbell. Lyman Eastman raised some fine colts from him; one at 3 years weighed 1985 pounds. He sold him for \$400, and the man that bought him sold him for \$600. Joseph Brunke raised 2 that at 3 years weighed 1700 and 1600, and he sold them for \$450. His colts always bring big money on the market. I have a pair I have been offered \$480 for. He is the horse that you want to raise colts from that you can be proud of. Come and look at the fine string of colts I have of his.

Will stand for season of 1915 at F. E. Payne's barn, section 34-3-12.

TERMS—\$12.50 for the season; \$15.00 to insure colt to be ten days old.

Should owner of mare part with same, or remove from county, service fee becomes due at once. Care will be taken to prevent accidents, but will not be responsible should any occur.

F. E. PAYNE, Owner

A MAN IS AS GOOD

AS THE FOOD HE FEEDS ON

The better the food the healthier the man. Every man, if he values himself, insists on pure, good, sweet butter and on really fresh eggs. Our reputation for selling fine butter and eggs is perfectly well established in this community. Our groceries are the best in town for the money.
