Frank Perry, who is now laboring in the capacity of deputy food inspector, during these prosperous Democratic times, came home the first of the week to visit his family and incidentally attend the meeting of the city council which was held on Tuesday evening. Frank shows evidence of the fact that life out in the open agrees with him better than the close confinement incident to keeping store, and while he says he has not yet discovered a hotel where they serve real chauticleer gravy, like he can obtain at home, yet he likes his new line of work real well.

The Chief is in receipt of a letter from John Wesley Boehr, former agricultural instructor in the high school here, and now holding a similar position at Hastings. Besides enclosing the "necessary," for which we have credited his subscription to a future date, the esteemed Professor says that while he likes his work at that place, yet he finds himself often thinking of the good people of Red Cloud, and at times experiences a yearning to be here again.

On Wednesday "Yankee Robinson's Circus," arrived in this city about 7 a. m. from Norton, Kansas. Owing to the bad roads in the first ward, the circus was late in getting their tents pitched on Koontz's field. The parade took place at 1 o'clock, and was witnessed by a large crowd. While the circus is not a large affair, yet the horses, wagons, etc., bore evidence of being well cared for, and the aggregation in general appeared to be above the average class. The circus, itself, was pronounced by a majority of those who attended as being very good. A large crowd was disappointed in the evening owing to the performance being called off. The management stated that the horses and help in general had been worn out with their morning's effort in getting their wagons and paraphernalia from the cars to the circus grounds, and that rather than to give the evening performance and experience the difficulty of hauling their equipment back to the cars after night, over such roads as those found in the south ward, they would rather lose the money.

Cowles Boy Sold To New York Yankees

The following taken from the Sunday State Journal concerning "Dazzy" Vance, whose home is at Cowles, and who has any number of friends in this city, will be read with interest: "Jack Holland last night announced the sale of the release of Pitcher "Dazzy" Vance to the New York Yankees. Several days ago the news came out of St. Joseph that Vance's release had been sold to the White Sox. Holland did not care to correct the report for the reason that Vance had not signed an American league contract. The necessary papers were in Lincoln, awaiting Holland's arrival and Vance attached his signature last night. The contract is for the remainder of the present American league season, following the termination of the Western league campaign on Labor day, and also for the season of 1914. This is Vance's second year in the Western league. He was marketed to the Pittsburgh Pirates last fall and then sent back to the O'Neil loop without a fair tryout. Vance has the best smokeball of all the hurlers in the O'Neil loop, and Holland is confident that "Dazzy" will win a steady job on the pitching staff of the Yankees. The deal for his sale was completed by George Davis, a New York scout, who saw Vance pitch a losing game against Lincoln two weeks ago, but was favorably impressed by the pitcher's style and speed that he recommended a purchase."

The TEPEE A Romance of the Navy

Monday Tuesday August 9 and 10

A Special Three Reel Feature

A fine story of gallantry and patriotism set in superb surroundings.

A virile, beautiful and patriotic photo play.

No army or navy story ever had truer or more beautiful and correct surroundings.

Charming scenes are shown of the Naval Academy at Annapolis, of Newport with its training school and war college, of the navy in action, the Blue Jackets at exercise and maneuvers.

All three scenes fit snugly into the story which never lags in interest, but abounds in exciting incidents, and is rich in its appeals to patriotism.

Patronizing catalogue houses so freely has resulted in making cosmopolitan citizens out of some of our people. A man now gets up to the alarm of a Connecticut clock, buttons his Chicago suspenders to Detroit overall, washes his face with Cincinnati soap in a Pennsylvania wash pan, sits down to a Grand Rapids table and eats Chicago meats and Sioux City flour cooked with Omaha lard on a St. Louis stove, puts a New York bridle on a Missouri mule, plows corn raised from Iowa seed, on a farm covered by an Ohio mortgage with an Illinois plow. When bedtime comes he reads a chapter from a Bible printed in Boston, says a prayer written in Jerusalem and draws under a blanket only to be kept awake by a Nebraska mosquito. "A Safe Place To Trade"

We picked out two good ads. recently that featured that phrase. It is a mighty good phrase to feature provided it is the truth. Otherwise—But we are not presuming there is an "otherwise."

One of these ads was a quarter page for Hamilton's in the Ord, Neb. Quiz It announced some attractive reductions in prices, and the line, "A Safe Place to Trade" ought to give added weight to those reductions.

The other ad was a full page for The Miner Bros. Co. in the Red Cloud, Neb. Chief. That was different type of ad just as good, however, and with the same line "A Safe Place to Trade" featured even more strongly.

It means a lot to a customer to be sure that your store is a safe place to trade, and it means a lot to you to have all your advertising bear out that boast.—Omaha Trade Exhibit.

Minutes of previous meeting read and approved.

The following bills were allowed and warrants ordered drawn for same: Tress Harwood.....\$1 80 Frank Smelser.....1 70

Committee on Grounds and Building made report and Mr. Gilham was instructed to dispose of the old lumber from Court House by advertising in city papers and sell same at one sale if possible.

In the matter of collecting disputed bill of \$25.00 from the County Superintendent for the rent of High School Building for Institute purpose 1914; Secretary was instructed to present bill to County Commissioners and collect full amount due.

The following resolution was introduced by Mr. Coon, who moved its adoption:

WHEREAS it appears that the assessed valuation of the taxable property in the School District of Red Cloud City in the County of Webster, for the year 1915, is the sum of \$499,670.00 and that a new High School building is badly needed by said School district, therefore be it

RESOLVED that there be submitted to the qualified voters of said school district at an election to be called and held therein, between the usual hours at the Fireman's Hall in city of Red Cloud on September 8, 1915, the proposition to issue the bonds of said district in the sum of Thirtyfive Thousand Dollars in denominations of from \$100 to \$500 each, bearing five (5) per cent annual interest, payable at the office of the State Treasurer of Nebraska, to be dated and issued November 1st, 1915, and to mature in twenty years from said date, but with the option to said school district to pay and discharge the same at any interest payment date after five years.

That the said bonds, when authorized and issued shall be offered in the open market and sold to the highest bidder for not less than par value, with accrued interest, and may be offered in separate amounts or lots; and the proceeds thereof shall be deposited with the treasurer of said School District, to be paid out only upon due order and warrant authorized by the Board of Education for the sole purpose of erecting, furnishing and finishing a High School Building for said school district upon the block of ground now occupied by, and to take the place of, the present high school building, known as the "Washington School."

Also the proposition to vote a tax annually upon all the taxable property of said school district sufficient to pay the interest accruing on said bonds, and a sinking fund for the payment of the same at maturity.

Chautauqua Program The Best One Ever

Continued from first page) with their novel chimes, entertained the audience with many selections. Most of their selections in the evening were of a sacred character.

The Gamble Concert Company met with the approval of all. This company rendered nothing but classical music, but they were masters and consequently they pleased. They showed that all will like the high class music if it is properly interpreted. The lecture by Dr. Medbury on "Forty Millions of Young People" was given respectful hearing. He gave some startling information as to the vocations of many of our young Americans. On the whole this lecture was meant for the city and contained little that was of interest to a farming community.

The boys' musical entertainers, fitted nicely in the program. They sang and played popular airs that the entire program considered was very pleasing. They repeated the way for heavier things and they were much appreciated. Edmund Vance Cooke was a great pleasure for the children. The children are entitled to a great deal on the program and this was a real children's day. At the same time Mr. Cooke was pleasing the children he was delighting the older ones. We heard several of our best thinkers say that they would not have missed this number for the price of the ticket.
