Neal of the Navy, Monday
Nov. 1

A great deal of interest was shown Wednesday afternoon in a foot ball game between the eighth and ninth grade. The "makins" of some good men later on was exhibited. The score was 19 to 21 for the Freshmen.

S. C. Ellis cashier for the C. B. & Q. at this place, is enjoying a vacation this week, and devoting the time in an effort to more thoroughly acquaint himself with the operation of the Ellis Shoe store of which he is the "silent" partner.

According to the Department of Agricultural Engineering, University Farm, the farmers of Nebraska own fifty million dollars worth of farm machinery. A yearly saving of two and one-half million dollars could be made by housing and better care.

Sheriff O. D. Hedge taken Chas. Pugsley, a hermit, who for years has lived in a hut on the bank of the river, near Inavale, into custody last Friday, and on Monday, he was found by the insanity board to be insane. Sheriff Hedge taken him to Engleside the first of the week.

Pictures possessing more than the usual entertaining qualities have been shown at the Tepee this week. The Maid of the West on Monday and Tuesday was fine. The Spender which was shown last evening, and will be again tonight, is one you can not afford to miss. It possessed characters who were deep enough for the deepest and shallow enough for the shallowest, and the scene showing the burning of the large McCabe factory, was alone worth the price of admission.

Free vaccine for blackleg and directions for its use may be obtained from the Department of Animal Pathology of the College of Agriculture, Lincoln, upon application. The vaccination against blackleg is particularly advisable at this time owing to the fact that the fall months represent one of the periods of greatest infection. Vaccination when properly done is a reliable safeguard. Calves when taken from the pasture in the fall should be vaccinated. If this is repeated the next spring and fall, there should be very little danger from this disease.

BAPTIST CHURCH

Next Lord's Day will be regular services at the Baptist church. In the morning will be a report of the State Dry Convention and the state Ministers Conference.

In the evening will be "Billy Sunday—The Man and His Message." A welcome to all.

C. H. Miner Serum Co. Enlarging Their Plant

The C. H. Miner Serum plant south west of this city, is rapidly developing into a factor of considerable size and importance. At this writing, a number of workmen are engaged in the erection of an addition to the hog houses, and the construction of a large cement cellar in which to store the product of the plant. While this enterprise is only about a year old, yet it contains all the paraphernalia necessary to operate it in a handy manner, and bears evidence on every hand of being under very capable management. The plant is operated under very strict government regulations. Government Inspector Dr. E. E. Lollar and his assistant, Dr. A. C. Crawford, now having their headquarters in this city, where they personally oversee the operation of this plant, as well as the ones at Franklin and Shelton.

The Chief hopes to be able in the near future to give a thorough write up of the C. H. Miner serum plant and its operations, which we are confident will prove interesting reading, as well as acquaint any number of our readers of what can be accomplished by a man who possesses the energy and business enterprise as does C. H. Miner.
