The Truth in Advertising

You've heard about the nation-wide movement against misrepresenting goods for sale. Here's our viewpoint: we are in business to increase sales from year to year. To do this requires the confidence of the people. And to get this confidence truth is an essential. We believe that every article we sell, whether it be a collar button or a suit of clothes, is worth every cent we ask for it—sometimes more. We want you to feel the same way after you buy a thing. If you should not feel that way, the greatest favor you can do yourself and us is to bring it back and give us your reasons. We're open to argument and want you to be, too. Will you come in and pass judgment on our Spring stock of men's wear?
