LAST SIGNERS OF IRISH REPUB-LIC PROCLAMATION HAVE BEEN EXECUTED.

Commander of the Rebel Force; Pays Penalty-Two Others Slain-Premier Asquith of England Views Ruins at Dublin.

Dublin, May 15,-It was officially announced on Friday that all the signers of the Irish republic proclamation have been executed.

The last three, shot yesterday, were: James Connolly, commander of rebel army; S. MacDiarmad (McDermott); C. Ceannt.

Those previously shot:

Peter Pearse, president of Irish republic; Thomas Clarke, Joseph Plunkett. Thomas MacDonagh.

The official statement spoke only of the shooting of Connolly and Mac-Diarmad, but the announcement that all the signers were dead indicates that Ceannt was a third victim of the firing squad. Connolly was wounded in the fighting and after the rebels' surrender was taken to a hospital. As soon as he had recovered he was courtmartialed.

The report of yesterday's executions caused great bitterness, as it was believed that the arrival of Premier Asquith in Dublin would halt all killings. Apparently the shootings were with his consent, as he would be the ranking governmental officer immediately upon his stepping onto Irish soil.

morning to investigate for himself conditions in Ireland following the recent revolt. As a result of his visit it is expected that martial law will soon be ended and civil administration restored.

The premier drove through several streets lined by wrecked buildings and also viewed the damage done to the viceregal lodge.

At a long conference with General Maxwell, commander of the military forces in Ireland, the premier received complete official report on the course that the rebellion had taken and the present situation.

#### General Fund Runs Low.

State Treasurer Hall has paid out in general fund warrants during April some \$88,000 more than he took in for that fund. As a result, the balance has declined from \$161,000 to \$73,000. New real estate taxes are now being paid, which will bring increased receipts for the general fund during the next month or two. It will be another tight squeeze this year, but Treasurer Hall hopes to get through without registering any warrants.

The total amount on hand in all funds at the close of business for April was \$1,303,018. Of this sum. \$1,-096,033 is represented by cash deposited in banks, \$105,791 by state university warrants and \$98,670 by normal school warrants. These warrants are for expenditures made in advance of the money coming in. Besides the state treasurer holds a Johnson county warrant for \$2,500 on which the state is drawing 7 per cent interest.

The temporary school fund, from which an apportionment will be made in June or July, now contains \$273,-934. The special university building fund has \$320,756, and institution cash funds total \$225,274. There is 062,874 in the state aid bridge fund. but most of this will be paid out on bridges for which contracts have already been signed.

Educational trust fund investments total \$9.665,563. During April the state treasurer purchased bonds for these funds amounting to \$78,500.

## Auditor's Monthly Report.

The monthly report of State Auditor W. H. Smith shows that his office issued state warrants amounting to \$278,977.06 in April, making a total of \$1.698.658.22 spent by the state in four months. County Treasurer William Ure, of Douglas, has remitted the sum of \$11,-316 to the state treasury, but no mention was made of the penalty which Treasurer Hall attached, because of the failure to remit when he ordered it. The state officials are perplexed over what kind of a suit to begin for collection of this penalty.

Range Finders for National Guards. Two of the latest model range find ers for military purposes have been received from the war department by Adjutant General Hall and will be assigned to the two regiments of the Nebraska national guard. The instruments are reflecting telescopes mounted on tripods and delicately adjusted so that distances of remote buildings or topographical points can be calculated by applying the principles of triangulation. Range finders of this type have been in constant use in the European war.

Members of the board of examiners for pharmaceutical certificates in Nebraska will again divide up the big amount of money which they collect every year in the form of fees from registered pharmacists and persons who take the examination in order to get into that class. The state board of pharmacy, consisting of the state auditor, treasurer, attorney general, secretary of state and land commissioner, have voted to let the examiners draw this money when they have filed vouchers showing how much time they have put in.
