1916 A National Park Summer
 This is going to be a gala season for Rocky Mountain Parks.—Glacier, Yellowstone and Estes Parks—all on the Burlington's through-service lines. These Parks, with their wealth of scenery, their magnificent "out-of-doors," have gotten their grip on Eastern people.
 They have nearby, the Black Hills with their forests and Hot Springs, the Big Horn Mountains about Sheridan, with their picturesque old ranches given over to modern tourists, also the ranch resorts beyond Cody in the Absarokas. The whole Rocky Mountain country has so many vacation spots to offer, and the Burlington has so many attractive circuit mountain tours, that it is impossible here to describe them in detail.
 Send for booklet of the locality and the tour you have in mind. Shall it be Yellowstone, with its ninety-mile auto scenic tour via the Cody Gateway? Shall it be Glacier Park, the climax of the scenic grandeur of the Rockies?
The Burlington is Essentially the Circuit Tour Route of all Rocky Mountain Park Travel. Let the May Show You.

Kansas City Market
 Kansas City Stock Yards, May 22, 1916.—Cattle prices advanced around 25 cents last week, and closed firm. The supply today is 10,000 head, same as on last Monday, and strong conditions are again effective. In addition sellers got a heavy fill on everything, trade was active and cattle went over the scales carrying the whole fill. The feature today was a train of 20 cars of cattle and hogs from Broken Bow, Nebraska, which made the 370 mile run in 22 hours, and contained steers at \$9.65 and \$9.85 the latter price top for the day. Colorado pulp fed steers were not as numerous as on recent Mondays, most of them at \$9.50 and \$9.60, a few at \$9.25. Bulk of the beef steers range from \$8.75 to \$9.50, there being no longer anything that can be called cheap. Idaho pulp fed steers brought \$9.40 today, a record price, and Montana barley fed steers brought \$9.20, highest price on record for Montanas by 45 cents. Quarantine receipts amount to scarcely anything, North Texas feeders observing with pleasure the trend of the market with reference to their own cattle, ready in June, South Texas shippers with very few cattle suitable for market, and Oklahoma grassers not yet ready. Stockers and feeders held up strong last week, and are firm today, and if there is to be a seasonable break in prices this month there are no signs of it yet. Sales range from \$7.50 to \$8.75 in most cases. Hogs closed last week with almost a complete recovery from the break early in the week, but a good run at leading markets today sent prices down again, supply here 15,000. However, order buyers bought some hogs here early at steady prices, top, \$9.90, but bulk of sales at \$9.60 to \$9.80, ranges 5 to 10 lower. The supply last week was 15,000 head more than previous week, but packers acted like it was a boon and not a hardship, which points to the extraordinary capacity of consumptive channels, and incidentally offers encouragement as regards future markets. Sheep and lambs sold stronger every day last week, and are firm today, some sales higher, fat goats a quarter higher. No fancy woolled lambs are offered today, but same are worth around \$12.50. Clipped West-erns weighing 88 lbs. brought \$10.75, a new high record, and native spring lambs, medium class, sold at \$12.25. Texas wethers of second grade bro't \$8.50, choice ones worth \$8.75 or more. Arizona clipped yearlings today at \$9.10, 88 lb. average.

Purchase New Engine.
 Last week the city council held a special meeting, the purpose of which was to reach a decision on the matter of purchasing a new engine, to be used to develop power for the pumps and electric generator in the municipal power plant. The Pneumatic Tool Co. had their representative present at the meeting, and he gave a detailed explanation of the workings of the engine, and sold it to them under a guarantee that it would save the city \$200 a month or more, in fuel. It being the first engine of this class in this section, very liberal terms were secured. It is to be operated in connection with the steam engine now used in the plant, and will furnish power during eighteen hours of the day or may be used in conjunction with the steam engine during the hours in which they have the heavy load. It will be housed in an addition to the present building. A fifteen thousand gallon concrete fuel oil tank will also be constructed. Supt. Ziegler is of the opinion that the engine will be installed and in operation not later than July first.

FARM LOANS
 Don't monkey with Loan Companies that are not ready at any and all times to close your loan without delay. I have some private money to loan and an unlimited amount of eastern money. I have the lowest rate in the state with your choice of five different plans for making loans.
 I can make any loan that can be made by any Company, and I can make loans that no other Company will make.

FIRE

THE ALARM OF FIRE is a dreadful thing for the man without insurance. Every time he sees the engines racing along his heart comes up in his throat if the fire is anywhere near his place. What folly, what mistaken economy.
THE COST OF INSURANCE need hardly be considered. The freedom from worry alone is worth it many times over. Have us insure you to-day.
