Manager Cassil has installed a ventilating system in the Orpheum. A large opening has been made through the ceiling and roof of the building and a box-like structure constructed on the roof, high enough to create a draft, and this arrangement in conjunction with the electric fans will remove all the foul air from the theater and make it the coolest place in the city. The interior of the theater has also been redecorated and presents a very creditable appearance to the eye.

THE ALARM OF FIRE

is a dreadful thing for the man without insurance. Every time he sees the engines racing along his heart comes up in his throat if the fire is anywhere near his place. What folly, what mistaken economy.

THE COST OF INSURANCE is so small that it need hardly be considered. The freedom from worry alone is worth it many times over. Have us insure you to-day.

O. C. TEEL,
Reliable Insurance.
