

NAMING NEW ROADS

COMMISSION MUST PASS UPON AND SANCTION MARKINGS.

WANTS A PROPERTY MAN

Items of General Interest Gathered from Reliable Sources Around the State House.

Western Newspaper Union News Service.

The state advisory highway commission is now receiving a large number of requests from officers of different highways asking that the insignia and routes be accepted. Quite a number of these highways prior to the creation of the commission, have not been passed upon. It is therefore important that all of these routes be considered as soon as possible. The purpose is to standardize the insignia used, including the color scheme, method of marking, etc., and that the different auto routes be passed upon officially by the commission. Those who apply first and receive the favorable decision of the commission will be at an advantage.

It is not generally known that no individual or group of individuals has the authority to lay out an auto route in the state and to mark the same. All these must be passed upon and receive the sanction of the state highway commission. Once decided upon the insignia and the route are protected under the law of the state.

The members of the state highway commission stand ready to go over the routes in which there is any dispute and to examine the showing made, including maps made by the highway associations. Dr. G. E. Condra of the conservation and soil survey is chairman of the commission and State Engineer Johnson is secretary. All communications relating to the duties of this organization should be addressed to the secretary or chairman.

Government Wants Property Man.

Governor Morehead, as commander-in-chief of the Nebraska national guard, has been asked by the federal war department to nominate some commissioned officer of the state troops to act as property and disbursing officer of the war department. The appointment will be made by the secretary of war, upon the governor's recommendation. The salary to be paid is \$700, with additional allowance for expenses.

It will not require a man's entire time to perform the duties. Adjutant General Hall, who has heretofore been acting in that capacity, thinks that not more than three to five months' time in a year will be necessary. Whoever gets the place will do the work at the national guard headquarters in Lincoln, but will not necessarily live here. Some lively competition for the place is expected.

President Pool of the Nebraska Academy of Sciences has made the following appointments as vice presidents of the different sections of the academy for the coming year:

Earth sciences, Prof. N. A. Bengtson, Lincoln.

Physical sciences and mathematics, Prof. J. C. Jensen, University Place.

Biological sciences and medical section, Prof. C. C. Carlson, Crete.

Ethnology and folk lore, Dr. Louise Pound, Lincoln.

Engineering, Prof. J. D. Hoffman, Lincoln.

State Superintendent Thomas and other members of a committee appointed to plan for a rural school conference in Lincoln during state fair week have asked county superintendents to see that delegates are appointed to represent school districts who failed to choose delegates at the annual meeting.

The contract has been let for the interior furnishings and plumbing of the university dairy husbandry building at the state farm, and calls for all tables, cases and special plumbing to be installed in 120 working days. Enough of the equipment will be placed by the first week in September so that the new building can be used for class work from the start of next semester. The dairy husbandry building thus becomes the first of the new university buildings to be used for scholastic work.

Secretary of State Pool is now ready to furnish county clerks and other persons with the complete vote of Nebraska, by counties, in the state primary election of April 18. He has had the figures printed in pamphlet form, making a book of 80 pages, besides the cover. This is the first time that the primary election vote has ever been officially published by the state.

Tabulations given in the pamphlet show that since the first state primary election in 1907 the total vote has increased by 156 per cent. The democratic vote alone in 1916 was a little larger than the vote cast by all parties in 1907. The total vote in 1907 was 79,273, and this year it was 122,033.

Railway Commissioner Hall, accompanied by U. G. Powell and Mr. Boyer of the commission's accounting department, has gone to Falls City to inspect records of the Missouri Pacific road for information to be used in defending the state two-cent fare law which the Missouri Pacific and the Rock Island railroads have attacked in the federal court.

ISSUES A WARNING.

Percentage of Alcohol in "Near Beer" Must Be Stated.

State Food Commissioner C. E. Harman finds that manufacturers of beer and near beer are placing their product on sale in many Nebraska towns, especially in towns that recently went dry. He intends to enforce the state food laws which require the percentage of alcohol, no matter how small it may be, to be branded plainly on the label. After dealers in drinks comply with this law they run the risk of being prosecuted under the Stocum law of Nebraska or being taken in hand by federal authorities for selling intoxicating liquors without a government "license." If their goods contain more than 2 per cent alcohol, they must obtain a permit or license tax from the government. If they sell drinks containing alcohol they are likely to be prosecuted by watchful local people interested in enforcing the state law against the illegal use of intoxicants.

Officers' School at State Farm.

The officers of the Nebraska national guard, according to announcement of Adjutant General Hall, will attend an officers' school to be held on the athletic grounds at the state university farm June 21 to June 29. Last year the school was at the state fair grounds. Two years ago the university farm was chosen and the officers "mess" at the university department of home economics. They will do the same this year. It was with difficulty that General Hall obtained the services of regular army officers as instructors this year on account of the demand for officers in the regular service in Mexico. He has been assured of the services of Captain William B. Wallace, Lieutenant P. G. Wrightson and Lieutenant S. M. Parker, all of the regular army.

Lays Cornerstone for New Building.

Prof. Benton Dales, head of the Chemistry department of the state university, laid the cornerstone of the new chemistry building Thursday afternoon. Dean Lyman, of the college of pharmacy, Prof. R. J. Pool, head of the Botany department, and a number of instructors and students were all who witnessed the laying of the cornerstone. Copies of city newspapers, the Daily Nebraskan, the 1916 Cornhusker, university catalog, and a number of photographs were placed in the box placed within the cornerstone. Included in the photographs were pictures of Chancellor Avery, Prof. H. H. Nicholson, first head of the chemistry department, Prof. Rachel Lloyd, the second head, and photographs of the chemistry societies. A number of chemicals were also placed in the stone.

Death of State Historian Paine.

C. S. Paine, secretary of the State Historical society since 1907, died at his home in Lincoln Wednesday morning. He was 48 years old. Death was caused by pneumonia. Mr. Paine had been troubled with rheumatism and had not been in good health for some time, but the fatal illness was of only five days' duration. Friends of Mr. Paine were aware that he had not been in the best of health for some time. While in attendance at the convention of the Mississippi Valley Historical association at Nashville some months ago Mr. Paine was taken sick and was confined to his room at the hotel. He was later brought home and recovered sufficiently to be about his work.

To Compel a Charter.

A writ of mandamus to compel the state banking board to issue a charter to the Nebraska State bank of Sidney is asked for in a petition filed in district court by E. M. Woolridge, H. V. Woolridge and the bank. The board has refused a charter on the grounds that a new bank is not needed in that region, but the plaintiffs claim there is plenty of room for another institution.

Gone on Historical Survey.

Director A. E. Sheldon started Saturday for two months' field work upon the historical and technological survey of Nebraska. Mr. Sheldon is chairman of the ethnological survey of Nebraska, conducted by the Academy of Science, and director of the Nebraska history seminar of the state university. The plan for this summer's work includes visiting most of the important historical sites in the state and securing photographs and motion picture films of them for future historical work.

Heavy Remittances Increase Funds.

Heavy remittances from county treasurers coming into the state treasury since June 1, have added \$150,000 to the general fund balance, which amounts at the present time to \$432,638. This is within \$36,000 of the high point reached in 1915, and as remittances are still coming, the record of that year may be overtopped. Treasurer W. G. Ure, of Douglas county, who has been sending his payments each month since the supreme court finally decided that he must do so, contributes \$101,000.

Convict Will Be Returned.

James Clark, a convict from the Nebraska penitentiary, who escaped from St. Thomas orphanage several months ago, after being permitted by Warden Fenton to work outside the prison, has been located at Redfield, S. D., and will be brought back from there on a requisition issued by Governor Morehead. Clark was sentenced from Douglas county to serve one to ten years for breaking and entering. After escaping, he went to Redfield and was lately given a jail sentence there for receiving stolen property.

MUST TAKE THE OATH

NEW PLEDGE IS REQUIRED OF GUARDSMEN BY ARMY RE-ORGANIZATION BILL.

SEE TOO MUCH SPECULATION

Berlin Bourse Adopts a Plan of Restriction—European War Will Help the Women.

Western Newspaper Union News Service. Washington.—A letter addressed to Adjutant General Phil Hall of Nebraska by Gen. A. L. Mills, head of the militia division of the war department, calls attention to the fact that all officers and men in the national guard must take or refuse to take the oath for federal service provided in the army reorganization bill. General Hall is given discretion in fixing the places and dates for taking oaths. Federal recognition and support will be denied militiamen who decline to subscribe to oath involving federal service.

Says War Will Help Women.

Rome.—"It won't be necessary for women to smash windows and go to jail to get their rights when this war is over," said Miss Chrostobel Pankhurst during her visit here for the purpose of forming a closer organization of the women of Italy with those of France and England.

"This war is helping the cause of women wonderfully," she continued. "We are helping the men with all our might, with all our strength, and I am sure they will appreciate this fact when the war is over. Besides, Europe then will be mentally and spiritually fifty years ahead of where it was before the war started. There has been an exaggeration, for instance, of the amount of physical destruction caused by it, but one cannot exaggerate the mental awakening it has brought, and this means a broader outlook on the position of woman."

SEE TOO MUCH SPECULATION

Plan of Restriction Adopted by the Berlin Bourse.

Berlin.—The managing committee of the Berlin bourse has adopted the outlines of a plan to restrict speculation, which, although without official sanction of the bourse, has grown remarkably active in recent months. The committee ordered that all transactions shall be on a strictly cash basis and with the date of delivery strictly prescribed. Option and time trading will be prohibited, as will also the circulation privately of price lists. The action taken by the bourse coincides with the wishes of the government and the leading banks, which regard it as inopportune that wild speculations should disturb the money market during the war. It was designed to obviate still more rigorous measures contemplated by the government itself.

Argentine Elects President.

Buenos Ayres.—Hipolito Irigoyen has been chosen president of the Argentine republic by the electoral college, being the first radical ever to reach the Argentine presidency. Pelagia Luna was chosen as vice president. The election of Irigoyen follows the bitterest struggle in the political history of Argentina.

Washington.—The department of agriculture, at the request of Congressman Shallenberger, has authorized a soil survey of Hall county. K. O. Veach has been detailed to the work, which will be carried on with Grand Island as headquarters in conjunction with officials of the state university.

Discussing Military Training Bill.

Washington.—Details of a new universal military training and service bill to be presented to congress soon is being widely discussed here. It provides that all male citizens shall enlist for six months military camp training during the calendar year in which they become eighteen years of age and thereafter shall be discharged into the reserve. In time of war these trained men might be called into active service by classes of years, the youngest first.

The Hague.—The international socialists' bureau announces that the socialist peace conference, previously fixed for June 26, has been postponed until July 31. Morris Hillquit of New York, international secretary of the socialist party of the United States, is one of the delegates.

Petrograd.—The capture of an additional 100 officers and 14,000 men is announced by the war office. The Russian successes in the offensive along the southern front are continuing, the statement declares.

American Hatred Increases.

El Paso, Tex.—Newspapers brought to El Paso from several cities in the interior of Mexico show an increasing animosity for Americans. Editorials in most of them referred to Carranza's recent note as a "slap in the face for Uncle Sam," while stories of volunteer corps organizing for duty in case of "international trouble" were frequent. That some Carranza officials are behind the sudden outbreak of anti-American feeling in the republic is the assertion made by a widely informed and reputable Mexican.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. SELLERS, Acting Director of the Sunday School Course in the Moody Bible Institute of Chicago.)
(Copyright by Western Newspaper Union.)

LESSON FOR JUNE 25

REVIEW, SECOND QUARTER.

READING LESSON—Philippians 1:1-11.

GOLDEN TEXT—Finally, brethren, whatsoever things are honorable, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things.—Phil. 4:8.

The lessons for the past three months extend over a period of perhaps fifteen years, from A. D. 37 or 40 to A. D. 52 or 55. It is the history of an ever expanding church and the ever widening influence of the work which Jesus began and continued to do after his resurrection, through the Holy Spirit. No adequate or proper review can be conducted without the aid of a map. If none is available, take a large sheet of manila paper and let some of the scholars make an outline map showing the strategic centers, Jerusalem, Damascus, Antioch and as far west as Philippi, also the country involved, the coast line of the "Great Sea," etc. It is a good idea not to locate the chief cities, but have pupils attach to the map small, round, red and white stickers on which might be printed the name of each city. Then other pupils might trace on the map the course of Paul's journeys. If all of this work is done in the presence of the entire school it will aid greatly in holding attention as well as placing before the scholars a visible delineation of the lands involved in this portion of sacred history. The most outstanding incidents which have been studied during the past quarter, such as the conversion of Saul, the healing of Aeneas, the raising of Dorcas, Peter's visit to Cornelius, etc., could also be located geographically by means of thumb tacks with tags attached. A most interesting review would be to organize in the school a number of travel clubs. Let each club come prepared to give a "travelogue," or travel talk, describing some of the chief events, such as the Damascus journey, a journey to Joppa, to Cyprus, to Iconium, from Antioch to Jerusalem, etc. Let the pupils write out their accounts and as each is written have some scholar indicate on the map the places involved, and others hang up in plain sight of the entire school a piece of cardboard bearing a single sentence indicative of the leading lesson of the event described. This latter will mean to use a sentence or parts of sentences as: "We are men of like passions as you." The element of contest could be employed by having all the pupils in a given department bring such sentences relating to the lessons on cards, and let that scholar who can bring the greatest number of sentences be declared the winner. The teacher must of course help materially in such a contest by direct suggestion and by encouraging the pupils to undertake the task before them.

For the adult and older 'teen age classes it might be well to assign to different scholars a number of great problems which have been treated in the lessons of the quarter, and let each come to the class prepared to read a brief essay or to discuss the subject assigned, relating it of course to the work of the review. (Lesson I.) "How the Holy Spirit converts men today." (Lesson V) "How can the church be aroused to the great work of missions." (Lesson VIII) "The Perils of Popularity." (Lesson XI) "The conditions of salvation" and so on. Another interesting plan would be to have different members of the class prepare at home a brief synopsis of the chief characters of the quarter's lessons. Such a use of charts is valuable in that it appeals to the eye, is a real test of knowledge and helps to systematize our information for future use.

The facts of the quarter are about as follows:
Lesson I. The Risen Christ by his overwhelming glory conquers his bitter enemy, Saul.
Lesson II. Men are healed and the dead raised by the power of the Risen Christ.
Lesson III. Peter, the Jew, is prepared and Cornelius, the Gentile, is called to a momentous conference.
Lesson IV. Jew and Gentile alike receive the gospel and are sealed by the Holy Spirit.
Lesson V. The Risen Christ by his angel delivers his servant, Peter.
Lesson VI. The Holy Spirit calls Barnabas and Saul to a world ministry.
Lesson VII. The preaching of Christ causes separation.
Lesson VIII. The Power of the Risen Christ heals the lame and revives Paul.
Lesson IX. Christ, who fulfilled the Jewish law, removes its burden.
Lesson X. Lydia's open-hearted response to the gospel.
Lesson XI. The temperance lesson shows our relations to others in the Kingdom.
Lesson XII. The Ever Present Christ delivers his servants and convicts and saves the sin-hardened jailer.

HAD TO TAKE SELF TO JAIL

Constable Wanted to Whitewash Fence, So Prisoner Locks Himself Up.

After John Davis had been discharged by his employer he met Constable O'Rourke on the street and surrendered, saying he demanded to be arrested on a charge of intoxication. The constable took him before Judge Castine, where Davis made out a complaint accusing himself of intoxication. He then testified against himself and Judge Castine said the evidence was conclusive, and sentenced him to jail for ten days.

"I ain't got time to take him to jail," said the constable; "I got to whitewash a fence."

"Give me the keys and I'll take myself to jail," said Davis.

The constable did so, and Davis went to the village lockup, let himself in, locked the door and tossed the keys out through the bars of a window.

"It's the only way," said Davis.—Swartwood (N. J.) Dispatch to N. Y. Herald.

IF YOU OR ANY FRIEND

Suffer with Rheumatism or Neuritis, acute or chronic, write for my FREE BOOK on Rheumatism. Its Cause and Cure. Most wonderful book ever written. It's absolutely FREE. Jesse A. Case, Dept. C. W., Brockton, Mass.—Adv.

Solitude.

"Of course, you admire the dove of peace."

"Very much. But I don't know whether I care to see it flourishing around under present perilous conditions and running the risk of becoming extinct."

Business.

"What's in a name?"

"There's money in it. Any man who can think up a good name for a breakfast food can buy sawdust in carload lots and sell it in pound packages at a handsome profit."

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Fletcher* in Use for Over 30 Years.

Children Cry for Fletcher's Castoria

Hippopotami Can Run.

In spite of its clumsy build, the hippopotamus can trot fast. That is why he was given the name of river horse. The hippo's feet are kept far apart by the wide body and make paths with a ridge down the middle, so as to be recognizable at once. They swim well, but go at their greatest speed when they can gallop along the bottom in shallow water. They can stay under water a long time, and when they come to the surface they send little jets of spray from their nostrils. The young one stands on her back as the mother swims.

FRECKLES

Now Is the Time to Get Rid of These

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove these homely spots. Simply get an ounce of ointment—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength ointment, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

Profitable.

"I don't see how the railroads can afford to give such low rates to commuters."

"That's easy. They make their money on the servants who are continually coming and going."

Self-important.

"Isn't Bliggins rather self-important?"

"I should say so. He thinks he's doing a fish a favor to catch it and let it occupy the same boat with him."

Force of Habit.

Judge—Discharged!

Bridget—Without a reference?—Judge.

Relief for the Country.

"Give your vacation to your country."

And thereby give a little unexpected relief to your country relatives.

Bumper Grain Crops

Good Markets—High Prices

Prizes Awarded to Western Canada for Wheat, Oats, Barley, Alfalfa and Grasses

The winnings of Western Canada at the Soil Products Exposition at Denver were easily made. The list comprised Wheat, Oats, Barley and Grasses, the most important being the prizes for Wheat and Oats and sweep stake on Alfalfa.

No less important than the splendid quality of Western Canada's wheat and other grains, is the excellence of the cattle fed and fattened on the grasses of that country. A recent shipment of cattle to Chicago topped the market in that city for quality and price.

Western Canada produced in 1915 one-third as much wheat as all of the United States, or over 300,000,000 bushels.

Canada in proportion to population has a greater exportable surplus of wheat than any country in the world, and at present prices you can figure out the revenue for the producer. In Western Canada you will find good markets, splendid schools, exceptional social conditions, perfect climate and other great attractions. There

is no war tax on land and no conscription.

Hunting Trouble.

When a man just naturally wants trouble it is mighty easy to find an excuse for making it. O'Brien was having an argument of their own at Breckinridge street and Barrett avenue. It had progressed to the extent that each had forgotten what it was about originally and they were wholly oblivious of the gathering crowd until an urbane and genteel person in a frock coat put in.

"Come, come, my man," he said, gently plucking Casey by the sleeve. "You don't want to fight; I can tell it by your looks. Your face is too benign."

"Two be nine! Two be nine, is it, ye scut?" bellowed Casey. "Me face is two be nine is it?"

And there was where the real trouble began.—Louisville Times.

WONDERFUL HOW RESINOL STOPS SKIN TORMENTS

The soothing, healing medication in resinol ointment and resinol soap soothes and cools the irritated skin, and usually stops itching at once. The resinol treatment speedily heals eczema, ringworm, and similar eruptions, and clears away disfiguring pimples even when other treatments have been almost useless.

Resinol is not an experiment. It is a doctor's prescription which proved so wonderfully successful for skin troubles that it has been used by other doctors all over the country for twenty years. Every druggist sells resinol ointment and resinol soap.—Adv.

Judging by Conditions.

"Sin, my dear pupils," said Deacon Barnes to his Sunday school class, "is the legacy of Adam."

And the bright boy in the class remarked that that was probably the first case on record where a will was not broken.

"Yes," said the deacon, "but it should be remembered that there was enough to go around. I don't remember hearing of anybody who didn't receive his share of the inheritance."

At the beginning of the nineteenth century more than 200 offenses were punishable with death in England.
