Will Change Railroad System. Tokio.—Japan will probably decide to change her main railroad system from a narrow to a broad gauge. The present gauge of three feet and six inches was adopted when the first line was built in Japan, but experience has demonstrated the wisdom of widening it to the standard broad gauge such as obtains in the United States.

France Awards Many War Crosses. Paris.—The French government has awarded 120,000 war crosses since the creation of the decoration. Of these, 16,000 have been given in the course of the present war. Now the chamber of deputies has decided to create a distinctive sign to be worn by those who have won the cross while facing death. The fact that thousands of non-combatants have received the coveted bit of metal and ribbon is considered unfair to the others.

According to the Bureau of Census at Washington, there are 274,597 men available for military service from Nebraska. This figure includes males between the ages of 18 and 45 years. By the same estimate, just made, Iowa has 489,829 and South Dakota, 143,395, while Kansas has 379,739. The smallest contribution would be from Nevada, which could furnish 39,189. Rhode Island, which is the smallest state, can offer 129,131. The total on the official figures would be about 21,000,000 for all the states. The largest contribution from any one state would be 2,223,633 from New York, with Pennsylvania second, at 1,842,266.

Federal District Attorney T. S. Allen is in Bridgeport to bring proceedings against Postmaster Porter who was dismissed from the service some weeks ago, but refused to relinquish the office. Instead he enjoined the federal government in a state court from taking possession of the office. Postmaster Porter's dismissal followed the writing of what was declared an unbecoming letter to the department. He was appointed during the Wilson administration.

The world's best riders, ropers, steer throwers and other western champions, are to take part in the frontier days celebration in Omaha July 20, 21, 22 and 23, to be held under the auspices of the Ak-Sar-Ben. Money raised through the exhibition is to be used to finance the big historical parade to be held in the Metropolis this fall.

Patriotic organizations in North Platte are raising a fund for a "mess fund" for members of Company E, Fifth regiment, Nebraska national guard. The boys are anxious to obtain dainties not included in the government menu and it is believed that at least \$200 will be forthcoming from North Platte for the fund.

Secretary V. R. Johnson of the Beatrice Commercial club has established a bureau in the city for the benefit of farmers and men looking for employment. Many farmers at the present time are handicapped for harvest hands and Mr. Johnson will assist them in every way possible if they notify him of their wants. J. J. Gunthorpe of Denver has purchased the Plainview News from V. E. Schoenauer, to whom he sold the paper seven years ago. Glen O. Peterson, one of the most popular young men of Morse Bluff, was drowned a few days ago in a pond near that place. Mayor Kohn of Beaver City held a stop watch and Marshal Meyers took the names of nineteen auto speeders returning from a ball game at Stamford recently and they were all arrested on a charge of exceeding the speed limit and were fined \$6.35 each. Members of the North Bend town board have requested that the contract for supplying electric current to North Bend, from the Fremont municipal plant, be revised. North Bend wants more current to meet a heavy demand. Fire of unknown origin destroyed the Lock storage building at North Platte. The loss was \$6,500 on the building and contents. Firemen saved \$5,900 dollars in automobiles and accessories. Several baby stations, where infants with stomach and bowel trouble resulting from the heat will be given attention, have been established in Omaha. R. C. Markle of Wymora, who recently finished harvesting his crop of alfalfa, secured the enormous yield of 197 tons from fortythree acres.

The estimated total value of all the property of the University of Nebraska, not including endowment funds and lands, is \$2,700,000, of which \$1,850,000 is lands and buildings and \$850,000 is general movable equipment. The board of regents at their last meeting, directed that a system of control be devised so that the central office would know at all times what the university owns, where every item is and the present value of every item is. A. O. Johnson, the university efficiency expert, has just installed such a system.

L. R. Barr, of Harrison, lost two calves in a very peculiar manner a short time ago. He had purchased a calf, and in order to make it run with a cow and another calf, he tied the two calves together with a short rope. All went well for a while, but one day after the cow had lain down the calves went up to her, one on either side. When the cow got up the calves were hung one on each side of her, and were dead when found.

GONE TO THE SOUTH

NEBRASKA SENDS FIRST DETACHMENT TO MEXICO

URGENT SUBMARINE WARFARE

Sentiment in Germany Favors Its Immediate Resumption.—Paving Way to Agreement.

Western Newspaper Union News Service. Lincoln, Neb.—Nebraska's first quota of troops given to Uncle Sam for service in the Mexican crisis left here Friday for the south.

Troops who went included the Fourth regiment under command of Colonel George A. Eberly of Stanton, the Wisner supply company under command of Captain W. E. Kelson, the Fremont signal corps under command of Captain Henry Jess, and the Fremont sanitary detachment under command of Captain Smith.

The first train carrying the Wayne, Blair, Stanton and Madison companies left shortly before 10 o'clock. With it was the regimental staff and the Wisner supply company.

The second train carrying the Gordon, Oaccola and David City, Kearney and York companies left at 11 o'clock and the third and last train carrying the Omaha battalion under command of Major Henning Elsassar left at 11:40 a. m.

The men were glad to get away. They sang and frolicked after they had entrained and through the open windows of the cars shouted good-naturedly to their comrades who were left. Cheers were given with much vigor by the latter, too, and the Fifth regiment band was out doing full duty by playing patriotic and other airs while the Fourth was waiting the signal to go.

Relations Assuming Normal Shape. Washington.—Inception of the diplomatic conversations which it is hoped will result in a settlement of differences between the United States and the de facto government of Mexico awaits a suggestion from General Carranza as to how they should proceed. State department officials believe more can be accomplished through informal conferences between Eliseo Arredondo, Mexican ambassador-designate, and Frank L. Polk, acting secretary of state, than by a more formal exchange of views. They are willing to accede, however, to some other plan should the de facto government propose it.

WAGE SUBMARINE WARFARE. Energetic Campaign in Germany for Its Resumption. Berlin.—The campaign in favor of the resumption of a full fledged submarine warfare goes energetically forward. It is expected that with the adjournment of the Reichstag and the dispersal of politicians to their home for the summer this agitation by the navy league, publicists, conservatives and part of the national liberals would gradually lose its intensity. On the contrary, reports from all sections of the country indicate that the agitation is continuing with undiminished vigor.

Yosemite Valley, Cal.—A bandit, single-handed, held up four stages at Wawona, just outside of the Yosemite Valley National park, and from twenty-eight people collected \$100 in cash and an assortment of jewelry.

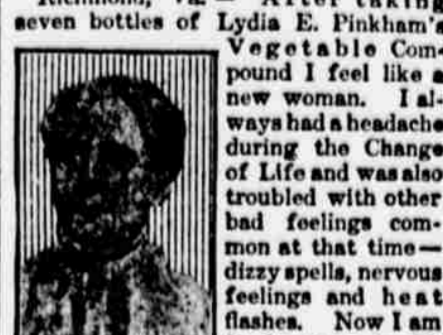

Nebraska Swells Income Tax. Washington.—Nebraska corporations paid to the treasury the sum of \$332,705.63 and individuals contributed \$160,206.31, under the income tax law for the fiscal year ending June 30, 1916, according to figures made public by Secretary McAdoo.

Rome.—More than 100 miners have been buried in three sulphur mines near Caltanissetta, Sicily. The disaster seems to have been due to a telluric cause. The work of rescue is being hurriedly organized.

Food Riots in Mexican Cities. Columbus, N. M.—Starving Mexican women have stormed the governor's palace at San Luis Potosi, according to reports received by General J. J. Pershing and have shouted, "Viva gringos! viva gringos!" Food riots, the reports to the American commander said, are occurring in all the larger Mexican cities. At San Luis Potosi, the government's supply of ground corn for distribution has been exhausted and the demands of women and children for more have been refused.

SEEDS W. N. U., LINCOLN, N. O. 29-1916. WHERE WOMEN SELECT MATE

In New Guinea it is considered beneath the Dignity of Men to Take Time to Court. So far as proposals of marriage are concerned, in New Guinea it is always leap-year, for in that island the men consider it beneath their dignity to notice women, much less to make overtures of marriage. Consequently, the proposing is left to the women to do.

When the ebony belle falls in love with a man she sends a piece of string to his sister, or, if he has no sister, to his mother, or another of his lady relatives. Then the lady who receives the string tells the dusky brute that the particular damsel is in love with him. No courting follows, however, for it is considered beneath a New Guinea gentleman's dignity to waste time in such a pursuit.

If the man thinks he would like to wed the lady, he meets her alone, and they decide straight away whether to marry or drop the idea. In the former case the betrothal is announced. The man is then branded on the back with charcoal, while a mark is cut into the woman's skin.

No breach-of-promise actions are possible in New Guinea, though if the lady is jilted her friends may hunt her lover up and "go" for him. On the other hand, if the dark damsel proves faithless, she is liable to be eaten by her betrothed if he catches her.
