VICTOR'S FLORENTINE BAND COMING

No lack of versatility, artistic ability or musical knowledge with this band! This year they will appear on the last day of the season which will make a fine climax for a great program. This band played 238 concerts in seventeen weeks at the Hammerstein Theatre in New York City, and the Metropolitan press uniformly accorded these performances most flattering praise. The brass sextette and the orchestral section of the band will be featured to which we will look forward with pleasure, and in fact the soloists are so uniformly good and the band so well balanced that the whole is not only interesting and delightfully refreshing, but it makes it hard to single out any one feature as being better than the rest. We say again that we are glad the Florentine Band is coming back.

SIG. GUARINI Director.

THE ONLY DEMOCRATIC PAPER IN WEBSTER COUNTY

In a businesslike, calm and temperate way, Keith Neville is waging a splendid campaign for the governorship. He is not appealing to prejudice, but to the good judgment of the tax payers. As a dispenser of "hot air" Mr. Neville may not shine resplendently, but as a sample of the successful business man and exemplary citizen he is making a decidedly good impression wherever he goes.

Seven of the nine republican candidates for state office reside in Douglas or Lancaster counties. Not one of the democratic candidates live in either of these counties. Neville is from Lincoln county, Howard is from Platte, Reed is from Madison, Hall is from Franklin, Smith is from Seward, Pool is from Grant, Clemmons is from Dodge, Shumway is from Scotts Bluff, Wilson is from Polk. For the first time in the state's history the western half is adequately represented on a state ticket, and it remained for the democratic party to make it possible.

The Sewer Problem.

A special election has been called for August 29th, which will give the citizens of Red Cloud an opportunity to decide whether or not the city shall have sewerage system. Plans and specifications have been prepared by a company of construction engineers and presented to the city council for inspection. These plans have been inspected thoroughly by this body and approved by them.

Several weeks ago a delegation of business men and citizens made a trip to Superior, to inspect the system in use in that city and reported that the system in use there was a success in every way and that the citizens of that town were entirely satisfied with the same.

This proposition was once before submitted to our citizens, but was not favorably looked upon by the majority, owing to the fact that it was not thoroughly understood by many, while others offered the argument, that what was good enough for Red Cloud during the past thirty years, was good enough for Red Cloud of today--this, however, is not practical, as Red Cloud has, in every other way, advanced, our business section has been remodeled, our residence district improved, a modern school building and court house erected, in fact everything possible has been done to make our citizens feel proud to call Red Cloud their home.

Everybody is advocating "a bigger and better Red Cloud." To enable it to advance, we must reach out for more manufacturing and mercantile establishments. To secure these establishments, we must provide for them. Before we can induce manufacturers or promoters of other industries to locate in our city, we must furnish some means for disposing of the waste water, refuse, etc, which accumulates in such places. As it is our steam laundry is hampered by lack of means of disposal of its waste water. A creamery would meet the same fate. Canning and preserving factories would require a sewer to dispose of their refuse. In fact about the first thing any prospective manufacturer would do would be to look into the matter of sewerage before locating here.

Another fact to be considered, is the health of our citizens--perfect sanitary conditions cannot exist while cess pools are in use, as no one can have a cess pool and a well on the same lot and be assured of pure water.

If you wish to see our city continue to thrive, and are interested in the welfare and health of yourself and family, now is the opportune time to do your part, not only by casting your vote in favor of this proposition, but also by assisting your neighbor in securing a thorough understanding of the matter. Do not leave it to the "other fellow"--take an interest in it and boost for it, for by so doing, you assist in placing Red Cloud in the foremost ranks of any city of its size in all this Good Old Land of the Free.

Here's hoping for a "bigger and better Red Cloud."

Three More Made Happy.

The business men of Red Cloud on last Saturday, staged another one of their weekly cash drawings. It was held one hour later, in order to accommodate all those wishing to attend the Chautauqua, and also the drawing. A large crowd was in attendance and breathlessly awaited the announcement of the winners, which were as follows: Robert McCall, \$5; Mrs. Almira Slaby, \$3; L. M. McMurray, \$2. Attorney B. W. Stewart was master of ceremonies.

The drawing on Saturday of this week will again be held at 5 p. m., and the prizes will be, first, \$5; second, \$3; third, \$2.

MORE LOCAL ITEMS

Jim Barkley of Minden is visiting with his brother, John Barkley.

Mrs. Ella Patrick and children of Omaha arrived Saturday to visit with her father, Dr. Henry Cook.

Mr. and Mrs. Oris Fearn of Hastings are spending a few days with his parents, Mr. and Mrs. Ed Fearn.

Prof. J. E. Betz, who is leading the band and orchestra of Terry's Uncle Tom Cabin Co., and who are showing in Iowa, arrived Sunday from Sioux City to visit with his wife for a week. "Dick", as he is known here, has an excellent musical organization with the Terry show.

Rupture Expert Here

Secley, Who Has Supplied U. S. Army and Navy, Called to Superior

F. H. Secley of Chicago and Philadelphia, the noted truss expert, will be at the Union Hotel and will remain in Superior this Tuesday, only, Aug. 1st. Mr. Secley says: "The Spermatic Shield as supplied to the United States Government will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. Mr. Secley has documents from the United States Government, Washington, D. C. for inspection. All charity cases without charge, or if any interested call, he will be glad to show same without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this advertisement has been verified before the Federal and State Courts.—F. H. Secley.

Red Cloud CHIEF \$1.50 The Year "Quality" Printing

AN ADVERTISING STATEMENT reduced to printer's ink comes before the eye of a large number of people. Among these people there's invariably a portion of them who are doubting, another portion who are critical, and still another portion who are knowing.

The statement then, must be truthful. It must be made in a convincing manner and must be honest in appearance.

We have the faculty of arranging type in a straightforward manner for all kinds of advertising. We plan newspaper ads as well as all classes of job printing.

Bring your printing wants to the 'quality' shop
