

LAFAYETTE MONUMENT AT FALL RIVER UNVEILED

Left to right, standing, are: Mr. Bonsall, Secretary of State Lansing, Eliseo Arredondo, Mexican ambassador designate, and Doctor Rowe. Left to right, seated: Dr. John R. Mott, Judge George Gray, Secretary of the Interior Lane, Luis Cabrera, Ignacio Bonillas and Alberto J. Paul. The men seated are the commissioners.

LOOKS DEADLY, AND IT IS

On this French reconnoitering aeroplane two machine guns joined together are mounted behind the pilot. The skull and crossbones indicate the feeling of the aviators.

Gums and Health.

Two drops of camphor on your toothbrush will give your mouth the freshest, cleanest feeling imaginable, will make your gums rosy and absolutely prevent anything like cold sores or affections of the tongue. The gums, by the way, are barometers of your condition. If they are clear, bright red, you are in good health, while if your blood is thin and wanting in the mysterious red corpuscles that make one healthy, the gums will be pale pink, or if you are in a very bad way, indeed, and much in need of a course of dialyzed iron, they will be almost white.—Leonard Keene Hirschberg.

The Office a Home.

A young fashionable was graduated from Yale in June. His father is setting him up in business. This father asked us if we would not aid in the selecting of the office furnishing for the young man. The father said: "Spend whatever you like. Not because I have money, but because when a man works in a place for so many hours it should be made as comfortable as possible. Many men spend more casual hours in their offices than they do in their homes. Their offices should therefore be as attractive as their homes. That is my theory, and I am going to practice it for my son."

GENERAL SMUTS TAKING AN OBSERVATION

General Smuts, commander of the British forces in East Africa, making observations from the top of an armored car. It has been officially reported that General Smuts has occupied Dar-es-Salaam, the chief town of German East Africa, and a principal seaport.

Sentiment Voiced at Last.

It must be a great comfort to have Josh at home for his summer vacation.

"Yep," replied Farmer Cornstossel. "I dunno when I've been more comforted than I was to hear Josh tell one of the summer boarders that us folks set the best table in the township an' that anybody who didn't like it could git out. It's what me an' mother often wanted to say to Josh hisself, but we didn't have the nerve."

A Conservative.

"What sort of view does Dubwaite take of life?"

"The sort that is not incompatible with an easy chair in a club window, something to drink at his elbow and a good cigar in his mouth."

"In other words?"

"While granting that there may be room for improvement on this world, it does not come within the range of his immediate observation."

Old-Time Grain Reappears.

A grain called "guanuli" or "huautli" is mentioned in old Mexican chronicles as among the articles of tribute paid by the Mexican pueblos to Montezuma. The identity of the grain has long been a mystery. In recent years wild and cultivated varieties of a grain, apparently the ancient guanuli, have been found in Sinaloa and other states of Mexico, where the natives use it for food when maize is scarce. Species that are similar if not quite the same are cultivated for food in Peru and Bolivia as well as in Tibet and the mountainous regions of India.

A Hard Turn.

Redd—In a new automobile signal for following vehicles hands are illuminated to indicate the direction that a car is going to turn as the driver presses buttons on the steering wheel.

Greene—Well, now, about what would the signal look like to indicate the car was about to turn turtle?

COLLIE SAVED CHILD'S LIFE

Dog Pulled Little Girl From Track as Car Was Running Her Down.

Buster, a handsome collie, known to the friends of his mistress, Miss Lillian Mattee, as a dog of unusual sagacity, is a neighborhood hero, says the Boston Post. Especially is he a hero in the eyes of Mrs. Lizzie Cockburn, mother of eight-year-old Jennie Cockburn, whom he saved from death when he pulled her away from a track just as an electric car was running her down.

Miss Mattee is a friend of the Cockburns and a frequent visitor at their home. Buster often accompanies her and is well acquainted with little Jennie. When Jennie saw Miss Mattee and Buster approaching the Cockburn house, she ran across the road to meet them, stepping directly into the path of a trolley car.

Then, when she realized her danger, Jennie became confused and stood still on the track. As the white-faced motor-man started to apply the brakes, Buster darted forward and seized the little girl by her dress, pulling her to safety.

Unsuspected Efficiency.

The bureau of plant industry is endeavoring to improve tobacco by scientific study of the different brands. To eliminate the personal equation in smoking and to secure uniformity of conditions, the bureau has a carefully regulated apparatus for testing the burning quality of cigars. The "pull" on the cigar is secured by means of an aspirator, which is filled by a continuous inflow of water and emptied at regular intervals by a siphon. The "pull" occurs at intervals of 30 seconds and lasts for a period of ten seconds. The apparatus smokes four cigars of the perfect type in about 30 minutes.—Tobacco.

Not Perfect.

"How are you making out with your new motor boat? Learned to run it yet?"

"Oh, yes. That boat takes me anywhere I want to go."

"That's fine."

"The only trouble is it won't bring me back."

A man says "I may" and a woman "I will."

Fine Expression. In a review of a novel we come across this suggestive sentence: "Here, too, characters that transmute common things into gold by the alchemy of the spirit." The finest thought of the day is expressed by that modest sentence. The great problem in religion, education, business, politics, and society concerns itself with that transmutation. It suggests a finer life than one gets out of the materialism of the age, with its luxury, pleasure, selfishness, ill will, spite, and overreaching. The evolution of the day is toward the sanctification of every day experience and infusing heroism into common life. That is what must eventually happen if humanity ever gets to be what it should be. It is a long way to that end, longer, perhaps, than from the mound to man, as Emerson expresses it, but thither the evolution proceeds.

Help to Indians.

Bacon—I see Choctaws and Creeks living in Texas have scarcely anything traditional left except their speech, and many of them can't speak English. Egbert—Well, I know a lot of women who can tell 'em where they can get more paint and feathers.

OH! MY BACK

A stubborn backache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, that almost takes the breath away. Soon there may be other symptoms; scanty, painful or too frequent urination, headache, dizziness, or rheumatic pains. Don't wait for these troubles to become serious—use Doan's Kidney Pills at once. You'll find no better-recommended remedy.

A Nebraska Case

Mrs. Harriet "Terry" Plummer, M. Linn & Co. tells a City, Neb., says: "Five years I suffered terribly from disordered kidneys. I had pains in my back and sides and the trouble kept getting worse. My limbs and joints were swollen, too. Doan's Kidney Pills cured me and the troubles have never bothered me since."

Loading Guns With Air.

Jack Tar knows what it means to tote heavy shells around ship, but Jack Tar will not need to worry about this duty longer, according to the Popular Science Monthly. Ammunition is now loaded by pneumatic tube straight from the magazine to the firing turret. An intricate mechanism prevents the shells from entering the breeches of the guns at great speed and also prevents any mistake in firing.
