**Omaha's Cement Show Outrank's Other Events**

Omaha's Cement Show will easily outrank any of those held in the middle west this year. More interest is being shown in the show this year more firms are reserving space, and more dealers have written they will be in attendance. Heavy registrations are assured from Nebraska, western Iowa and South Dakota. With the failure of the Kansas City and Chicago shows to measure up to the promises held out, cement people are looking to the Omaha event which has always made good. The National Highway Day is attracting unusual attention. With representatives assured from the four big trans-continental highways which cross at Omaha, Good Roads Day is going to be an unusual feature.
