Working Man Couldn't See Where There Were Any Bones to Be Left From His Sunday Joint.

For half an hour the working-class audience had listened patiently to the talented lady who was speaking to them about economical and nourishing cookery. She had talked about eggless puddings and butterless cakes, and now said, with a smile:

"I will now tell you about a splendid soup which can be made for next to nothing. Take the bones left over from your Sunday joint-"

At that a man in the middle of the hall rose to his feet with a disgusted look on his face, and said to his mate:

"'Ere, Bill, let's get out o' this." "What's wrong?" asked the other, in surprise. "Don't you like soup?"

"Aye, I like soup well enough," was the grumbler's reply; "but how many bones does she think there are in a half a pound o' liver?"-London Tit-

NEW RECORD FOR STATE FAIR

Conspiracay.

Western Newspaper Union News Service. Washington.-Copies of three brief dispatches made public by the state department reveal another case of sinister German diplomacy, this time directed against Argentina and involving the Swedish foreign office in an apparent grave breach of neutrality and diplomatic propriety. They were messages to Berlin from Count Luxburg, the German charge at Buenos Aires, forwarded by the Swedish legation ther? as its own communications Besides advising that no concessions be granted Argentina in the submarine controversy, they suggested that the South American country's ships be sunk "without leaaving any trace," and gave information as to the sailing and positions of various vessels.

The department's announcement was sent to the Argentine embassy and the Swedish legation here at the same time it was given to the public. There was no explanation as to how the messages cafe into the hands of the United States, nor discussion as te what may be the result.

Buenos Aires .-- The Swedish minister to Argentina, Baron Lowen, denies that dispatches in cipher had been sent to Berlin by the German charge through the Swedish legation at Buenos Aires.

Evidence of Gigantic Plot.

Washington-Numerous indictments for conspiracy to thwart the government's war plans appear to be in prospect as a result of last week's nationwide raid of industrial workers of the world offices by department of justice agents. Evidence is said to be fast accumulating to support the belief that a gigantic conspiracy has existed for some time to cripple the government in carrying on the war; that its ramifications have extended into virtually every staate and that numerous anti-war aactivities which appeared to emanate from many sources in reality had their fountain head in a single group of conspirators.

Anti-draft demonstrations, crippling of war industries by so-called labor disturbances, burning of crops and continuous preachment of anti-ally sentiment, intended to embarrass the government and retard the exercise of its full strength in prosecuting the war, appear, from recent disclosures, to have been included within the scope of the alleged conspiracy.

Riga Taken by Germans.

Riga has fallen, the kaiser rejoices and the war-to-victory party in Germany has a new argument. But this, like the Galician affair, is rather a cheap victory over a disorganized army, and was expected. The Russians have retired beyond the River Aa, fighting fairly well as they went, and the flerce bravery of the Battalion of Death enabled them to prepare a new line of resistance.

The taking of Riga gives Germany complete command of the Baltic and the way lies open for an advance on Petrograd by land, but it is not at all certain the kaiser will go on to the Russian capital. The route is long and through difficult country, and the advantages of possessing Petrograd might be offset by such an extension of his lines just as winter is at hand. At the time of writing, it appears likely that the German Baltic fleet will meet the Russian sea forces in battle in the Gulf of Finland. It is believed the fortified island of Osel at the head of the Gulf of Riga and the port of Reval, which guards the entrance to the Gulf of Finland, cannot hold out long, and the Russian fleet thus is likely to be cooped up under the guns of Kronstadt, the great fortress that protects the port of Petrograd.

From 'an American port" comes an exciting story of a concerted attack by seven German submarines on a fleet of 22 allied merchantmen westbound. Four of the largest of the steamships were sunk by torpedoes, but the guns of the others destroyed three of the U-boats. The battle took place 30 miles off the coast of Ireland

Organized Labor Loyal.

Organized labor in the United States, determined to assert its loyalty, met last week in Minneapolis, together with many radicals and Socialists, and formed the American Alliance for Labor and Democracy. Under the leadership of Samuel Gompers, Frank P. Walsh, John Spargo and others, the delegates declared the new organization firmly back of the armed forces of the government in their fight for "a victory which will mean the coming of the greatest world democracy ever dreamed of." Definite reports have been circulated that laborites are planning to cripple various industries by strikes, especially the fuel industry. These reports, Mr. Gompers declares, do not relate to the American Federation of Labor. They are, however, too well substantiated to be ignored.

The British trades union congress by a vote of 2,894,000 to 91,000 declared itself opposed to participation in the Stockholm congress, and this, taken with the refusal of many countries to grant passports to delegates, probably will result in the entire abandonment ithering in the Swedish city. 'Its war industries hampered, its dignity outraged and its patience exhausted, the government of the United States arose in its might last week and began the process of squashing the disreputable and disloyal Industrial Workers of the World. In more than a score of cities, mostly in the middle and far West, their headquarters and printing offices were raided and great quantities of material seized. The department of justice prepared for this action secretly and carried it out swiftly and skillfully, and is now ready to have the leaders of the organization indicted if the documents taken warrant this. In some cities many arrests were made. Prosecutions may be

started under the new espionage law, any one of several other laws Two of the things that caused Uncle Sam to get after the I. W. W. were the preaching of sabotage-the wilfull destruction of property-and the use of "stickerettes" designed to obstruct enlisting, which were plastered all over the country. They are also accused of misusing the mails to send out matter advocating treason, insurrection and forcible resistance to the laws concerning the carrying on of the war.

WOMEN! IT IS MAGIC! LIFT OUT ANY CORN

Apply a few drops then lift corns or calluses off with fingers-no pain.

Just think! You can lift off any corn or callus without pain or soreness. A Cincinnati man discovered this ether compound and named it freezone. Any druggist will sell a tiny bottle of freezone, like here shown, for very little cost. You apply a few drops directly upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off. Freezone is wonderful. It dries instantly. It doesn't eat away the corn or callus, but shrivels it up without even irritating the sur-

rounding skin. Hard, soft or corns between the toes, as well as painful calluses, lift right off. There is no pain be-

fore or afterwards. If your druggist hasn't freezone, tell him to order a small bottle for you from his wholesale drug house .- adv.

Time to Get Ready.

The other day a man telephoned to the draft selection board for Marion county outside of Indianapolis and asked whether it is necessary to have the wife's signature on an affidavit for an exemption claim. He was told it is necessary if he is claiming exemption on the ground that his wife is dependent on him.

"Won't anyone else do?" the inquirer asked. "My wife says she won't sign

The board member told the man that the best thing he could do was to "get ready to go."

Thousands came in automobiles, the total admissions of machines for the week being 14,178. Thousands of machines were not counted, being parked down town. Forty-seven hundred machines entered the fair ground gates in one day, Wednesday. More than two thousand machines entered the last day.

Makes New War Prediction.

the conservative leader whose ill fortune with an earlier prophecy that the submarines would crush England within two months and end the war fresh in mind, has again ventured a forecast This time he predicts that the war will not last thru the winter and probably will be ended by the new year. The documents seized show that the I. W. W. was planning a nation-wide strike which, it hoped, would the up munition plants, railroads and lumber mills, and the sabotage advocated was

to be practiced in connection with this strike.

There is a well grounded belief that the leaders of the I. W. W. are constantly supplied with funds from German sources, but the great mass of its members no doubt are merely ignorant and misled creatures.

The national headquarters of the Socialist party in Chicago also were raided and books and papers seized.

"Big Bill" in Eclipse.

Another "prominent" opponent of the government-William Hale Thompson, the mayor of Chicago-came a cropper last week. In defiance of the orders of Governor Lowden, he compelled the police of Chicago to give protection to a meeting of the pacifists who had been barred from Wisconsin, Minnesota and other states. Thereupon the governor sent troops to the city to prevent repetition of the offense, the city council of Chicago formally rebuked the mayor, the agents of the department of justice began inquiries into his conduct with a view to his indictment, the press and people of the country denounced him, and his infantile boom for the Illinois senatorship collapsed utterly. He did not go to the Kankakee fair, where that boom was slated to be started. It is difficult

to write of Thompson, Mason and other still more prominent foes of their country in printable language. Those who combat the government's war efforts "give ald and comfort to the enemy" and exasperated loyalty wonders why they are not subjected to the penalties prescribed by the law against

Great Victory for Italians.

When the Italian armies on Tuesday stormed and captured Monte San Gabriele they took the last mountain fortress barring their way toward Laibach and an advance that would separate the northern and southern Austrian armies. Such a movement probably will compel the Austrians to evacuate Trieste, which has been under shell fire from the water for days, and also is likely to result in the taking of Tol-

een sighted at the entrance to the Gulf of Finland.

Germany's offensive against Russia appears to have been timed to coincide with an expected counter-revolution planned to restore autocracy in Russia. The plot, however, was uncovered and many arrests of grand dukes and others have been made.

General Alexieff, former commander in chief, and General Vassilkovski, commander of the Petrograd garrison, agreed Thursday that the fall of Riga did not threaten Petrograd and was of moral but not strategic importance.

On the Western Front.

In France and Flanders the week brought little change in the positions of the opposing armies, though the fighting was uninterrupted. The British deluged the German lines in Belgium with shell fire that indicated another drive, and there were reports that Crown Prince Ruprecht was preparing to execute another "strategic retreat" to the Courtral-Thourout line and thus give up a strip of territory east of Ypres from ten to twenty miles deep. This would help the allies on their way toward the German submarine bases at Zeebrugge and other ports on the Belgian coast.

The Germans made several air raids on England, killing a number of persons, especially at Chatham, and one of their U-boats shelled Scarborough. The British press exhibits some uneasiness lest the Germans have "got the jump" on the allies in the matter of increased air forces. The United States, however, is coming fast in this respect, building machines as rapidly as possible and training a big army of aviators, here and abroad.

Again on Thursday night the German aviators devoted their attention to the French hospitals behind the Verdun lines, bombarding them for six and a half hours and killing 19 soldiers who already were severely wounded.

If a cablegram from Shanghai is to be believed. China is about to enter into active participation in the war. The Twenty-fourth army corps, composed of 15,000 picked troops from the northern provinces, is said to be mobilized for immediate departure for Europe, probably through Siberia to the eastern front to assist the Russians and Roumanians. The corps includes several companies of engineers officered by Chinese graduates of American colleges, and an aviation corps trained by American and French airmen. These troops would be the first Mongolians to fight in Europe since the time of Genghis Khan, 800 years ago.

Not wholly discouraged by the failure of his peace note, Pope Benedict is preparing a second proposal for the ending of the war. Premier Ribot. speaking on the Marne battlefield, declared that a requisite in any peace treaty acceptable to France was the restoration of Alsace-Lorraine.

The German press continues to heap abuse and ridicule on President Wilson for his reply to the pope's note, declaiming loudly against his demands that the government of Germany be democratized before peace can be made with it. But the reichstag majority is insistently demanding just about the reforms the president considers' essential.

Dispatches from Switzerland say the central powers have determined on the partition of Poland. According to the plan, Germany is to take about one-tenth of Russian Poland to rectify her frontier, and Austria will anner the remainder, unite it to Galicia and proclaim the territory the united kingdom of Poland, with Emperor Charles as its king. It is to have its own parliament, but its foreign policy, finances and army are to be controlled by Austria. This plan does not please Hungary, because that country thinks its influence will be lessened if the empire becomes a triple kingdom.

Led by President Wilson and members of the senate and house, and escorted by thousands of soldiers and sailors, the young men of the District of Columbia selected for service in the National army paraded the streets of Washington on Tuesday, and similar parades took place in hundreds of cities and towns. Next day these men of the National army began streaming from all points of the compass into, the 16 cantonment camps built for their training and instruction. They are the first 5 per cent of the 687,000 men selected by the draft.

The long wrangle in the senate over war profits taxation ended in the defeat of the high tax group and the adoption of the finance committee's provisions for a total levy of \$1,286,-000,000, or about a third of this year's war and normal excess profits. This would make the bill total \$2,522,000,-000.
