THE ONLY DEMOCRATIC PAPER IN WEBSTER COUNTY

Out of 5000 Mormon colonists who located in Mexico and were driven out by the revolution an exchange states that only 500 will return. Simply a case of 4500 using good horse sense.

Beginning with September 19th Germany will float their seventh war loan. We are of the opinion that with such security as that country has to offer at present that the bonds would be but "mere scraps of paper".

Right on the trail of the glad tidings that there will be a reduction in coal prices comes the disquieting report that before snow flies the country may be up against a coal famine, due to the inability of the mine operators to secure laborers and cars.

According to the historical summary of frost occurrences in various sections, just issued by the U.S. weather bureau the first killing frost occurs on an average of one year in two, as far south as southern Nebraska, during the first few days in October. Perhaps this is the year, therefore the tiller of the soil should govern himself accordingly.

The St. Francis, Kansas, Herald in its last issue announces to its readers that their fondest dream has now been realized to the extent that they have installed a \$3200 model Linotype and extend an invitation to all their friends and others, to call and inspect this wonderful piece of machinery. We are pleased to note the prosperity of that office, in view of the fact that the Kansas pessimist continues to shout that the 1917 crop has been almost entirely destroyed by drought.

Twenty two laborers were discharged by the town council of Buhl, Minnesota because they refused to comply with the order to take out citizenship papers. If more cities and employers would follow the example set by their Minnesota neighbors, in such matters, our true American citizens would then have the opportunity to secure the employment which rightfully belongs to them. If you can't sign up with Uncle Sam you can't expect him to furnish you with the means with which to obtain the necessities of life. Quit the fatherland or get off the job.

Mass Meeting Tomorrow

The registration of the patriotic women of the county which was to have been held on September 12th has been postponed, the date of which will be announced later. A mass meeting of women is called for tomorrow afternoon at 8 o'clock and all women are requested to be at the court house at that time Mrs. Nesbit who is a member of the State Council of Defence will address the meeting taking for her subject "Registration of Women".

Let us print your sale bills.

They Have Come And Gone

Mr. Wm. F. Lewis and his excellent company of theatrical artists have closed their annual week's engagement in our city. They played under canvas on South Webster street and as heretofore were greeted by a large and appreciative audience each evening.

This season they are traveling by auto, four huge Reo trucks being used to transport their theatre and paraphernalia from one town to another.

The opening play, "The Shoplifters" drew a capacity house, it being one of their strongest dramas.

Tuesday night they presented "An Editor's Romance," a play that commanded the undivided attention of the audience from the time of the raising of the curtain, for the first act, until the editor realized that his fondest dream really came true. On this evening Mr. Lewis displayed his true generous and patriotic spirit by admitting free all of the boys who registered on June 5th.

The bill on Wednesday night, "By Order of the Court," was one that met with the approval of everyone present. Tragedy and comedy were intermingled to such a fine degree that one was fairly rushed out of a peal of laughter into a vale of tears.

Thursday night Mr. Lewis presented "Passion's Slaves." In this strong play, part of the time the villain held the upper hand but in the end love and justice triumphed over evil.

Friday night the feature bill of the entire week was given. "The Net," a story of the manipulation of the Chicago stock market. Special scenery was used for this play and on this evening the citizens of this community witnessed a real metropolitan performance.

Saturday matinee, "Snooky Ookums" was played for the special benefit of those who enjoyed real comedy and a good laugh.

The closing number of the week, Saturday night, "The Maid of the Mystic Mine," was a play that will be remembered by everyone present. It was a refined three act western drama and not of the blood-chilling variety usually given.

There were no long weary moments of waiting while the stage was being cleared for the next act, as brand new specialties were introduced between acts, on each evening, and that they were well received by the audience was evidenced by the long and loud applause.

During the many seasons that Mr. Lewis and his company have played in our city they have given us attractions far superior to those usually witnessed under canvas, or even in an opera house and when printer's ink and paper conveys to us the tidings that "Lewis is Coming" every one looks forward to a week of real high class entertainment.

The only regrets that we have heard expressed regarding this company is that they could not remain with us another week.

Their scene of action for this week is Guide Rock, and without a doubt the company will make as pleasing and lasting impression there as they have in this city.

Street Car Again in Operation

The builders of the railroad that united the east with the west may have experienced their own difficulties in battling with the Red Skins and the elements but considering the amount of territory they covered they did not have anything on our city rail magnate who on last Sunday reconstructed our street railway system, nevertheless the task was completed ere the clock in the tower of the Union Station proclaimed the midnight hour.

As we were not present at either the driving of the golden spike at Promontory Point, May 10, 1869, on the former, or when the finishing touches were put to the latter, on last Sunday night, we cannot, with due respect for truth, state which of the two was the most solemn ceremony.

At any rate it caused many heated arguments among our citizens, one of which became so interesting that two of our most prominent citizens cast their dignity to the four winds and engaged in battle, however friends of the two interfered before it had resulted in any personal damage, aside from ruffled dispositions.

Will Furnish Electricity

Consulting engineer Sturtevant of Holdrege, employed by the Riverton Electric Light and Power Company was in this city Monday afternoon and met with the members of the council to take up the matter of the municipal plant furnishing current for this company. Owing to the fact that some of the members were absent from the city no definite plans were drawn up.

An offer was made to furnish the current for 5 cents a k. w., measured at the plant, payable on or before the tenth of each month, and the city to be in no way responsible for the maintenance of the transmission lines. All matters discussed were looked upon favorably by those present, but until a meeting is held, with all members present no contract will be entered into.

The results of this meeting will be published in the Chief in its next issue.

Porch Furniture

While the evenings are hot why not spend your evenings on your porch?

We have the Porch Swings, Settees and Porch Chairs to make you comfortable. We also have a good stock of Folding Canvas Cots, Steel Cots and Sanitary Couches. Come in and let us show them to you. **THE PRICES ARE RIGHT.**

RED CLOUD'S LEADING HARDWARE DEALER

Buy Land

Located in the Most Prosperous, Most Productive Most Beautiful and Most Intensively Cultivated Section of Northern Colorado

The Chicago Title & Trust Co., as Trustee for the sale of the 50,000 acres of irrigated land, under the Farmers' Reservoir and Irrigation Co. system, has authorized us to offer this land in any size tracts to suit the purchaser, with assurance of plenty of water for irrigation, on terms of ONE-TENTH DOWN, with ten annual payments, without any payments required for the first four years except Two-Fifths of the crop and taxes.

Any balance left unpaid after applying Two-Fifths of the crop will be extended over to the tenth and last payment, so purchaser cannot possibly become delinquent before the end of the fifth year.

This 50,000 acres of land is second to none in the State of Colorado. It lays north of Denver, and east and west of Brighton, Fort Lupton and Platteville. 40,000 are under irrigation canals that are completed, but only from 6,000 to 8,000 acres are under cultivation.

This leaves 32,000 acres ready for the plow today. Farmers who want more land or renters who want a place of their own, with good land and plenty of water for irrigation, close to market, schools, churches and all modern conveniences, where they can grow Alfalfa, Wheat, Oats, Barley, Sugar Beets, Potatoes, all kinds of Garden Truck and Fruit, where the dairy business pays, at from \$85 to \$110 per acre, including both land and water, can take advantage of this liberal offer now while the price of land is low and the payments are arranged so the farmer can practically pay for the land from the crops before the second payment is due.

Come to our office, get some literature on this tract, study it over, and make arrangements to join us on one of our trips to see this land. The expense is small, for after we get to Denver, the Company will take us free of charge in automobiles to see this land, which is only about from one to two hours drive from Denver, and in case it suits you, and you buy, the Company will refund your R. R. fare. Reports of this year's crop of wheat went from 25 to 40 bushels to the acre. Come and make a trip with us and see if this is so.

By permission we refer you to H. E. Grice, of the H. E. Grice Drug Co., of Red Cloud, who has been in touch with this proposition for a number of years, in fact, since before the water was on the land. He owns several 80 acre tracts of this land and it is not for sale. He has just recently returned from a trip over this land, inspecting his holdings, and collecting rent. Have a talk with him about the crops and general conditions of this land, then make arrangements with us to go and see for yourself.
