THE ONLY DEMOCRATIC PAPER IN WEBSTER COUNTY

How much do you love your country—measured by Liberty Bonds?

In a Liberty Bond your money works for the Nation—you get it back when its work is done—plus four per cent.

Reports from various points indicate that the sale of the Liberty Bonds have been increasing the past few days. This is encouraging, for in order to win in this great struggle a great amount of money is needed. We must take our choice between investing in these bonds and receiving interest on our investment or having Uncle Sam tax us in order to raise the necessary amount with which to carry on the war.

Germany is now floating its seventh loan with which to carry on its prose-

duction of all who do not bow to the will of the Kaiser. The sum is said to be the same as the one that Uncle Sam now has before the American people. If Germany, after three years of war can successfully launch loan number seven, it appears to us as though there should be no difficulty experienced in reaching the goal with our second Liberty Loan. Remember there is only two more days to buy a Liberty Bond. Do not wait until it is too late. Lend Uncle Sam your surplus cash. It is not only a good investment but a duty you owe to him.

Complaints that young calves are being slaughtered and that the killing is on the increase, has been made to Food Administrator Wattles by R. W. McGinnis, secretary of the Nebraska Dairymen's Association.

Mr. McGinnis also requests that some action be taken to prevent slaughtering of young stuff and suggests that restaurants and hotels refuse to serve it.

Mr. Wattles has taken the situation under advisement, and after consultation with the Live Stock Committee of the Department will take definite action to correct this most shameful loss.

Mrs. Lydia Hoffman spent Friday with friends at Blue Hill.

## Service Please

Red Cloud now boasts of paved streets, two magnificent school buildings, a beautiful library, a modern \$50,000 sewer system, a municipal power plant; we have a Chamber of Commerce, composed of our enterprising business men and citizens; and many other civil improvements are contemplated.

But, during the many years spent in beautifying our little city and endeavoring to make it the leading trade center in the valley we have overlooked one of the most essential points—a telegraph service, complete in all its branches—and we speak whereof we know.

On Saturday, last, the writer was called upon to wire a sum of money to a point in Missouri, some 200 miles distant. The necessary amount of cash was presented to the agent in charge of the Western Union Telegraph Company's office—after being compelled to travel a distance of about a mile to reach said office—with a request to have him telegraph the sum to its destination. I was then informed that it would be necessary for me to have one of the local banks wire the amount to a bank in the Missouri town. It was then found that the wire would not reach there until after banking hours.

and the check could not be cashed until Monday morning—a delay of 42 hours.

The only possible way to obliterate this delay was to hire an auto and drive to Superior—a town that enjoys real telegraphic service—at the expense of five or six dollars and the loss of several hours valuable time. The cashier of the local bank will gladly substantiate these statements, he having been placed in the same predicament some time ago.

Perhaps the day is not far distant dear reader, when you may experience the same difficulty.

How long is Red Cloud going to put up with this class of service?

If we are going to have a real, lively city in many ways, why not in all ways?

We are for a complete Western Union telegraph service, including office within city limits.

Are you with us, now, or are you going to wait until you are compelled to experience the same difficulty as has the writer?

Your personal attention is required. Do not put it off until next week or next month, now is the opportune time. What say you, gentlemen, of the esteemable body, known as the Chamber of Commerce?

## BLADEN

N. J. Thomas of Cowles was up Sunday.

Dorothy Koon visited Cowles relatives Saturday.

## MOTHER

—that boy "down at camp" or possibly "somewhere on the Atlantic" would appreciate a "dandy likeness of mother" now, as never before.

Then, too, "Christmas is coming" and you can have your Christmas pictures made from the same negatives and have plenty of time to get them ready.

STEVENS BROS., of course, is the name on the finished work that distinguishes good pictures from the ordinary.

# Buy Land

Located in the Most Prosperous, Most Productive Most Beautiful and Most Intensively Cultivated Section of Northern Colorado

The Chicago Title & Trust Co., as Trustee for the sale of the 50,000 acres of irrigated land, under the Farmers' Reservoir and Irrigation Co. system, has authorized us to offer this land in any size tracts to suit the purchaser, with assurance of plenty of water for irrigation, on terms of ONE-TENTH DOWN, with ten annual payments, without any payments required for the first four years except Two-Fifths of the crop and taxes.

Any balance left unpaid after applying Two-Fifths of the crop will be extended over to the tenth and last payment, so purchaser cannot possibly become delinquent before the end of the fifth year.

This 50,000 acres of land is second to none in the State of Colorado. It lays north of Denver, and east and west of Brighton, Fort Lupton and Platteville. 40,000 are under irrigation canals that are completed, but only from 6,000 to 8,000 acres are under cultivation.

This leaves 32,000 acres ready for the plow today. Farmers who want more land or renters who want a place of their own, with good land and plenty of water for irrigation, close to market, schools, churches and all modern conveniences, where they can grow Alfalfa, Wheat, Oats, Barley, Sugar Beets, Potatoes, all kinds of Garden Truck and Fruit, where the dairy business pays, at from \$85 to \$110 per acre, including both land and water, can take advantage of this liberal offer now while the price of land is low and the payments are arranged so the farmer can practically pay for the land from the crops before the second payment is due.

Come to our office, get some literature on this tract, study it over, and make arrangements to join us on one of our trips to see this land. The expense is small, for after we get to Denver, the Company will take us free of charge in automobiles to see this land, which is only about from one to two hours drive from Denver, and in case it suits you, and you buy, the Company will refund your R. R. fare. Reports of this year's crop of wheat went from 25 to 40 bushels to the acre. Come and make a trip with us and see if this is so.

By permission we refer you to H. E. Grice, of the H. E. Grice Drug Co., of Red Cloud, who has been in touch with this proposition for a number of years, in fact, since before the water was on the land. He owns several 80 acre tracts of this land and it is not for sale. He has just recently returned from a trip over this land, inspecting his holdings, and collecting rent. Have a talk with him about the crops and general conditions of this land, then make arrangements with us to go and see for yourself.
