THE ONLY DEMOCRATIC PAPER IN WEBSTER COUNTY

Under a recent ruling of the Federal Food Administration, hens and pullets cannot be shipped for food purposes or killed between Feb. 11 and May 1st. They may be shipped or sold, however, for egg production purposes.

It's a little early in the year, but Kansas has started her annual bush-wa about needing help for the wheat harvest. Nebraska harvests more wheat per capita than Kansas, but to date has never had to holler for help, especially for advertising purposes.

The Nebraska County Treasurers' Association will meet in Omaha Feb. 25-27. Geo. E. Hall, State Treasurer, and W. H. Smith, State Auditor, will deliver two of the addresses. Two theatre parties, a banquet, and a visit to the Auto Show are among the entertainment features.

Mr. McMartin of Washington member of the advisory board, visited Nebraska recently in connection with the work of the "Four Minute Men." He says that the work in Nebraska is the best organized and the most efficient of all the states. He ranks Illinois and New York next in order. Of course none of them can beat Nebraska at any sort of good work.

Speaking about records, here are a few held by Nebraska towns. Newport ships more hay than any other town in America. Antioch makes and ships more potash than all the rest of America but together. Omaha markets more butter than any other city in the world. Hastings manufactures more cigars than any other city west of the Mississippi river. Scottsbluff county produces more beet sugar than any similar area in the United States. Arnold ships more silica than any other railroad station in the United States. The largest sheep barns in the United States are at Burnham, a suburb of Lincoln. Omaha is the largest primary sheep market in the United States.

#### Wedding at Logan, Kansas

A very pretty wedding was solemnized in this neighborhood on Sunday, February 10th, the contracting parties being Miss Irene Elliot, daughter of Mr. and Mrs. David Elliot, and Mr. P. M. Calligher, eldest son of Mr. and Mrs. Maurice Calligher of Esbon, Kansas.

Immediately after divine services the wedding ceremony was performed by Rev. Father Reilly at the home of the bride's parents. The bride is one of the vicinity's most highly respected and beloved young ladies and is in every way capable of bringing sunshine and happiness into the home which the young couple will establish.

The groom is a skillful and successful young farmer possessed of a quiet and happy disposition and is in every way worthy of the young lady he has selected as his life partner.

After the ceremony relatives, friends and neighbors to the number of seventy partook of a sumptuous wedding dinner, after which the many vocal and instrumental numbers were rendered. At a late hour the guests departed, wishing the young couple many, many years of happy wedded life.

Mr. and Mrs. Harve Blair and family returned from a two weeks visit with relatives in Illinois. Nelson Rasp was in charge of the ranch during their absence.

Smallpox and measles are prevalent here the past two weeks. Our energetic physician has been successful in keeping the epidemic under control.

I understand the Kansas board of health has changed the name or term, "German" measles to "Liberty" measles. As far as my limited knowledge extends I think the former is applicable enough and just as appropriate as the later. We all know the meaning of the word, "germ," hence comes the word "German"—merely a derivative—besides these measles possess German tendencies, comes or crawls invisibly upon the unfortunate victim, giving no notice or warning, therefore I believe it should retain its original title.

We regret to hear of the resignation of our highly respected mail carrier, Mr. Will Carpenter, on route 3 from Inavale, as he always gave perfect satisfaction. Never the less his successor, Mr. Ralph Grossman will be welcomed as he has always been considered a good fellow, and suitable for the place.

### RECIPES USED BY MISS RICHERT

This column edited by the Women's County Council of Defence

A number of ladies requested that they be furnished the recipes used by Miss Richert at the demonstration Saturday. For this reason they are given here:

#### Potato Bread

Part 1.  
1 yeast cake  
1 cup water  
1 cup water  
2 cups white flour

Part 2.  
3lbs. or 10 medium potatoes, peeled and mashed  
1 tablespoon salt  
4 tablespoons sugar  
2 tablespoons fat  
8 cups white flour

Set sponge as usual, mixing part 1 thoroughly and let rise over night. In the morning cook, drain well, peel and mash potatoes, add salt, sugar and fat. Cool and add to sponge. Add white flour to make stiff dough. Let rise to double its bulk. Mold into loaves. Let rise again to double its bulk and bake in a moderate oven.

Note: Some of the mashed potato may be used in the sponge if desired and the potato water may be used also if potatoes are peeled before cooking.

#### Oatmeal Bread

Part 1  
1 yeast cake  
1 cup luke warm water  
4 cups boiling water  
1 cup white flour  
4 cups rolled oats or oatmeal

Part 2  
4 tablespoons melted fat  
7 cups bread flour  
1-3 cup brown sugar  
1 teaspoon salt

Dissolve yeast cake in luke warm water. Pour 4 cups boiling water over 4 cups rolled oats, let stand until luke warm. Add yeast then add 2 cups white flour, or enough to make a soft sponge. Let rise over night. Next morning add fat, sugar and flour, knead. Let rise again until double its bulk and bake in a moderately hot oven.

#### Corn Meal Bread

Part 1  
1 yeast cake  
1 cup luke warm water  
2 cups water  
3 cups white flour

Part 2  
2 cups milk  
1 tablespoon salt  
4 tablespoons sugar  
2 tablespoons fat  
4 cups cornmeal  
5 cups white flour

Make a sponge of Part 1 as above. Let rise over night. Scald milk in Part 2, add salt, sugar and fat. Cool, add to sponge, then add cornmeal and flour to make a dough. Knead well. Note: Cornmeal may be cooked if desired by stirring 4 cups cornmeal in to 4 cups boiling water. Let steam in double boiler 10 minutes. Cool and add to sponge, omitting the 2 cups of milk.

#### Corn Flour Bread

Part 1  
1 yeast cake  
1 cup luke warm water  
2 cups water  
3 cups white flour

Part 2  
2 cups skim milk  
2 tablespoons fat  
1 tablespoon salt  
4 tablespoons sugar  
2 cups corn flour  
7 cups plus of white flour

Make a sponge of Part 1, as above. Mix thoroughly and let rise over night. In the morning scald skim milk in Part 2, add fat, salt and sugar. Cool, add to sponge, add corn flour and then white flour to make dough. Knead, and let rise to double its bulk. Mold into loaves. Let rise again to double its bulk and bake in a moderately hot oven.

#### Spring Drive For More Food

Resolutions to concentrate on the problems of food production and conservation during the spring months were passed at the February meeting of the Executive Board of the Women's Committee of the Nebraska State Council of Defence. The serious problems of the distribution of food products will be investigated thoroughly, and all possible help secured for the producers.

Mrs. F. M. Dewese, of Dawson, recently appointed Chairman of the Food Production Committee, was delegated to confer with Nebraska's Food Administrator, Mr. Wattles, concerning the possible government solutions of the problems of labor, market and transportation. She will also seek the viewpoints of the women producers themselves as to their needs.

"This is the biggest problem before the country to-day," said Miss Hrbkova, chairman of the Women's Committee. "We are facing much the situation which Russia is combating. Russia has overproduced, yet through lack of distribution facilities, people in some parts of Russia are facing starvation. The Women's Committee hopes to find some means of establishing a marketing medium which will bring together the city women who face a shortage and the farm women who are overstocked with vegetables and dairy products."

The drive for \$10,000 with which to carry on war work has been instituted by the Women's Committee of the Nebraska State Council of Defence until the next meeting of the legislature when an appropriation will be asked for.
