**Meatless Day is Off During Month of April**  
 The county food administrator has received the following letter from the state food administrator, G. W. Wattles:  
 I have just been advised by Mr. Hoover that meatless day would be suspended entirely for thirty days, beginning Monday, April 1st. This is due to an unusual run of hogs and cattle and car shortage, which still continues. The storage capacity is also limited as well as overseas transportation and port facilities. The large supply of potatoes and milk and the temporary removal of the meat restrictions should facilitate increased savings in breadstuffs.  
 This announcement should not be considered by consumers as a departure from general principles of conservation of all food. The need of food on the other side and the need of economy in America is greater than ever.  
 Yours truly,  
 Gurdon W. Wattles.

**County Agent Now Located**  
 The county agent is now located in his office in the court-house at Red Cloud. Both phones are in the office so he can be reached by phone from any part of the county. He will be in his office every Saturday.  
 If you are unable to get in touch with the county agent call up the director living nearest you and let him know what you want. He in turn will get in touch with the county agent.  
 The following men are directors of the Farm Bureau:  
 Geo. Heffelbower, Red Cloud

 John Carr, Blue Hill  
 Joseph Kral, Bladen.  
 The past week the county agent has been assisting farmers with treating oats for smut and potatoes for scab. He has also been holding night meetings in the different communities, outlining the work to be taken up this year. The attendance and interest shown at these meetings has been splendid.  
**SEED CORN**—Do you know that it will grow? TEST, DON'T GUESS. Farmers should make sure that their seed corn will grow. Those that have tested the 1917 corn find it very poor: A number of farmers have left samples of corn at my office and a number of farmers have secured seed through this office. As soon as the farmers are supplied with seed I will send the list of seed for sale to other county agents in localities where seed corn is needed. The same will be done with alfalfa and cane seed. So list your surplus seed with me as soon as you can.

 Germany, Holland, Austria, Turkey, England, France, Norway, Sweden, Denmark, Italy, Switzerland, Spain and Portugal adopted the Day Light Law some time ago. Britain saved \$12,000,000 in light and gas bills in one year. Let no one oppose the Day Light Law. It means conservation.  
 The telegram sent to the State Senate urging the ratification of the Federal Prohibition Amendment, did not accomplish the desired result, but it does reveal the attitude of some Nebraska politicians on the booze question. Any hindrance to the ratification of the amendment should be remembered. All given to booze should be branded as un-American. John Barley Corn must die and every politician that helps to postpone the day of its death, should be held for aiding the Kaiser.

**VOLUNTEER ARMY TO PUT OVER LOAN**  
 Loyal Men and Women Lend Services To Their Government  
 One of the best evidences of the loyalty of the people of the United States to their Government and to the cause for which it is contending in this world war is shown in the eagerness with which a great volunteer army numbering many thousands of men, women, boys and girls is awaiting the opening of the campaign for subscriptions to the Third Liberty Loan which is to open next Saturday, April 6.  
 No finer spirit of true patriotism and determination that the just and righteous cause for which our boys are fighting "over there" shall win, can be found than that which prompts the American people to lay aside their own affairs and lend their services to their Government without pay to help finance the war. These people, banded together as workers, constitute the army at home and they are as much a part of the United States as are the boys in khaki uniforms in France and in the mobilization and training camps.  
 In connection with the Third Liberty Loan campaign it may be pointed out at this time that there is no profit in this work for the vast army of workers save for the profit that comes to all loyal American citizens with the satisfaction of having done their duty to God and to humanity, to home and to native land.  
 The bankers are to handle the Third Liberty Bonds as they did former issues of these securities without commission or pay of any kind. Many of the great publishing houses in the east are helping the cause by printing literature and posters at actual cost. The nation's greatest artists and writers are all contributing to the war literature. Newspaper—the most loyal in all the world—are giving space to patriotic news and literature far in excess of any patronage that could be expected or hoped for.  
 Truly, this is a patriotic service in which it is a privilege to engage. It is a work that calls for the best there is in a man or woman. They are doing it without thought of escaping their personal obligations for it is a matter of record that the people who are the largest subscribers for Liberty Bonds are the ones who are engaged in the work of selling bonds to others.  
 A survey of the situation just before the opening of the Third Liberty Loan campaign shows this vast army of loyal workers organized and eager to get busy at the great task of "putting over" the Third Liberty Loan. Bankers, merchants, manufacturers, professional men, farmers, artisans are ready. Women in the homes, in clubs, in business and societies and in all war activities are only awaiting the call to service. Boys of the Junior Chambers of Commerce, of the Boy Scouts, boys in school and out of school, young girls and women everywhere are ready to play the patriotic game and play it to win.  
 This is the spirit of an awakened America. It is the spirit that is going to bring victory for the Third Liberty Loan in the Tenth Federal district. It is the spirit that is going to win the war for the United States and our Allies.

**A Brassiere will Complete Your Corset**

The contour from shoulder to knee is important. There should be no break, but an easy sweep of line over the top of the corset straight down the hips.

**Warners' Brassieres**  
 insure this sweep of line and "blot out" the break one otherwise would find.

They are well-made, prettily designed and trimmed, and as strongly guaranteed as the celebrated Warner's Rustproof Corsets.
