If the local news sections of the Chief strike you as somewhat brief this week please consider politics as responsible. Lee DeTour, who is a candidate for Commissioner of the 5th District, was in Red Cloud the last of the week looking over the political ground and shaking hands with many friends. His life has been mainly devoted to agricultural interests, though he was at one time in the official circle, as county clerk. He is democratic and American, and qualified to fill the office he seeks. For many years he has resided at Guide Rock, and has a large circle of friends who would rejoice to see him win at the primaries next Tuesday.

TO THE REPUBLICAN VOTERS OF WEBSTER COUNTY:
Just as I had completed arrangements to make a personal campaign over the county, to meet you face to face and to tell you that I would appreciate your support at the coming primaries for the nomination as County Clerk, I received an urgent business call and must leave at once so will not be able to see you at the present time. On this account I trust that you will not censure me for not making the rounds and paying you a friendly call.

To those of you who are unacquainted with me I wish to say that I was born in this county and have spent my entire life here. I have never held public office but I have always been actively interested in the affairs of county, state and nation. I received my education in the Red Cloud public schools, afterwards I took a course at a business college and am equipped with a success in the handling of a large area of land and the handling of thousands of dollars.

Anyone of my acquaintances will testify to the fact that I am thoroughly qualified for the office of County Clerk.
In conclusion I would like to say again that I will appreciate your support at the Primaries August 20.

Very truly yours,
H. A. ROANE,
Republican candidate for County Clerk of Webster County.

Many young ladies graduates of the well known Grand Island Business College of Grand Island, Nebraska, are now holding positions with Banks, Lumber Companies and other business firms in Nebraska, Kansas, Colorado, South Dakota, Wyoming and Montana, drawing salaries of \$100 per month—\$1,200 per year. Do you know why they are able to draw such salaries? It is because they had a desire to be of service in the world, and possessed the courage and energy to equip themselves with a business training above the average. The Telephone Builds Business

The first requisite for doing business is to be able to get a customer. The more customers you can readily get the more business you can do.

As it is "the mind that does business" and "the telephone gives the mind wings" you can do more business by telephone than any other way, because you can reach more customers—and you reach them in a personal, voice-to-voice manner that builds business.
