Silo Tour

The first tour under the auspices of the Webster County Farm Bureau was a success. The pit, semi-pit, and above ground silos were inspected, and the sentiment of the owners were that the pit silo is the most practical one where conditions were favorable.

Farm buildings and equipments were inspected and last but not least live stock was inspected. Webster county has as fine live stock as there is to be found in the state. The benefit received from a tip of this kind were many and those that took the time to make it felt that it was time well spent, and are ready to go again.

As the Farm Bureau Work through the County Agent becomes familiar in the county these agricultural tours are the leading events. As farmers can see what other farmers are doing, the live stock they have, methods of feeding and handling their live stock, modern farm buildings and equipments, field crops, etc., and best of all get acquainted.

Should Have Written Him

A young man from Rooks county serving in France wrote the following letter to his parents. It merely shows the way the Kaiser misrepresents things to his troops: "Two or three weeks ago one of the boys was talking to a German prisoner. The German said that American soldiers do much harm in France because the couldn't ship troops across that New York Philadelphia and Baltimore were in ruins, and that the German navy had all our ports blockaded. He also said we needed all our troops in the States to fight the big German army which had come up from Mexico. That is all news to me! Why didn't you folks write and tell me this news instead of leaving me to find it out from the German prisoner? That is the kind of stuff the Kaiser seems to be feeding his men. Another one of the boys was told that we were British dressed up in American uniforms."

Farm Exchange

We are trying to get out an exchange list during September. We have made out a mailing list of every farmer in the county and have over 1000 names on the list. This exchange sheet or exchange list will be sent to every farmer in the county free of charge, and I will continue to put out exchange lists every two months during the winter months. What we now want is for every farmer to list his surplus stock, seed, hay, etc. with the County Agent before Sept. 15. Farmers having horses, cattle, hogs, sheep, poultry, grain, seed, hay, farm machinery, farms to sell, farms to rent, etc., should send a list of it to the County Agent. Also farmers wanting to buy any of the above items should send in their wants, as a want column will also be printed. Many counties have been putting out an exchange sheet and in that way bring the buyer and seller together. We have been so busy and the farmers have been so busy that we did not attempt to put out this list this summer. In the past the farmers have listed their surplus with the agent and those wanting to buy have called at the office and in that way over \$4000.00 worth of stuff has been exchanged. Send in your list at once.

TEAM WORK.

It ain't guns, nor ammunition, Nor funds that they can pay, But the close co-operation That makes them win the day.

It ain't the individuals, Nor the army as a whole, But the everlasting team work Of every bloodied soul.

"LET US HAVE PEACE"

A monster is slowly raising its head throughout this country and it is hidden down immediately, will become the most dangerous enemy that the cause of civilization has yet been called upon to face. This evil the monster is to be found in the desire for peace at whatever cost. It is an old "peace at any price" canker raised to the 25th power.

It is easy to discuss of this, as you furrow but scarcely increasing, look for peace by pinning to it the good of German propaganda. But this will not suffice.

That the world is war weary is only too true. France and England have had this blood sickness on the part of their people to contend with for a long time. Its effect on Russia has been demonstrated.

We, in America, have but commenced our share of suffering and sacrifice. If this revolution of feeling is allowed to spread before the road is half traveled there can be no doubt as to our destination. Open hostility to England, frank sympathy with Germany, "conscientious" or other objections to war, are as nothing in their effect upon our part in the struggle and the destiny of the world—which now admittedly rests upon our shoulders—compared to this desire for the war's ending simply that peace may reign. Peace today, with Germany undefeated, would be a living menace to America as a nation and to every man, woman and child who wish to continue to be known as Americans.

Conserve Your Money

It is just as vital that the wealth of the citizens of this country be conserved as that any other necessity be conserved to aid in the winning of the War. Money is the greatest requirement of the Government; the absolutely paramount commodity; the essential thing which we can all have a part in providing.

The Capital Issues Committee Was Created to Help Conserve Money

The Capital Issues Committee has legal jurisdiction over all issues in excess of \$100,000 and has requested that all issues of \$100,000 or less be submitted to the District Committee for approval. It will be regarded as an unpatriotic act for any stock to be sold which has not received the permission of the Capital Issues Committee, and all citizens are asked to cooperate with the Committee by refusing to buy any stock which has not been submitted to the Committee and received the proper permit.

Insist Upon Seeing the Permit Before Buying Any Stock

When you are asked to buy stock or bonds in any company, insist upon seeing the permit of the Capital Issues Committee for its sale. Do not accept any statement that it is all right, that the permit is in the office of the company. DO NOT BUY ANY STOCK unless the proper permit is produced for your inspection.

Do not trade your LIBERTY BONDS for any stock, no matter if a permit for its sale has been issued or not. The boys at the front have enlisted for the duration of the War. Surely you should enlist your money without reservation.

You owe to the Government your co-operation in providing the money needed to carry on the War, and the Capital Issues Committee helps you to avoid non-essential investments.

Please do all that you can to assist the Government in this direction. ASA E. RAMSAY, Chairman, District Committee on Capital Issues, For the United Federal Reserve Board, Kansas City, Missouri.
