

Geo. Trine

RED CLOUD

We believe that it pays to give our customers service and satisfaction; that is why we want to sell you a

DE LAVAL CREAM SEPARATOR

With a single tool—the combination wrench and screw driver shown in the illustration below, and a part of the De Laval equipment—you can take apart a NEW De Laval and set it up again in a few minutes.

Could anything be easier or simpler?

There are no complicated parts—no chain drives, no cog wheel puzzles, no ball bearings to get flattened or broken. Every adjustment can be made quickly by the man on the farm with no special understanding about machinery.

Such simple construction makes the NEW De Laval the easiest separator to clean.

We will sell you a NEW De Laval on terms that can't help selling you. Come in and examine the machine; let us show you what it will do.

The only tool required with a NEW De Laval.

THE ONLY DEMOCRATIC PAPER IN WEBSTER COUNTY

Speaking of the blizzard and the big snowdrifts wouldn't it be a humane idea to institute a search for that poor little groundhog?

Drop a contribution into the Armenian Relief fund and thereby aid a homeless hungry people to live and start on the road that leads to comfort and happiness.

The Woman Suffrage bill failed to pass the senate by one vote, and Senator Hitchcock from this state voted against it after having been instructed by the legislature of the state to vote for it. This will not make the senator any friends in this state.—Bloomington Advocate.

President Wilson is on the way home. He comes back, as he went away, a "top-notch" in world-affairs. We do not recall any one man in history who has accomplished as much or risen as high in so short a time. He has left at Paris the basic outlines of a new Declaration of Independence. He has laid the cornerstone of a structure which will make the world more safe, sane and sociable.

If you have read enough to know what dreadful sufferings the Armenians underwent because of their steadfast Christianity, and of their destitute condition at the present time you will not hesitate to aid in the relief movement under way here in Red Cloud this week. The total sum desired is but a small amount as compared with war funds and Red Cloud's quota ought to be over-subscribed with very little effort on the part of the committee in charge.

We were just about to say. There is going to be a lot of work to do in 1920 and the time for us democrats to start at it is right now. If a tree is to bear fruit it must be cultivated ahead of time. Politically its simply a question of getting together and sticking together. A "you boost for me and I'll boost for you" principle. Don't scatter forces, conserve them in their legitimate channels and thereby build up power that will make itself felt in the work that lies ahead.

The older people will easily recall the several periods in American history when wages were low, employment scarce, tramps a-plenty, "bread lines" and soup kitchens quite the style. The world is in a very similar condition today. For years it has been sweeping onward in the throes of a fierce warfare. Every energy has been conserved and exploited in the attainment of a single objective. The sudden cessation of this enterprise causes as much upset and disorder as did the entry therein. Lack of employment, hunger, unsettled conditions, are the inevitable results in sudden and radical changes. The older and smaller instances were known as "economic disturbances," "hard times," panics. Today's world-hunger, unemployment, discontent, is termed Bolshevism. It is the same old wine in a new bottle.

The trend of the times is toward co-operation. If a farmer were to harness each of his horses or mules to a small plough and hire a driver for each outfit he would become the laughing stock of his neighbors. He works them in teams of twos or threes or fours and gets the benefits of organized efforts. Or perhaps discards this primary form of animal energy and uses the tractor which is a combination of many horse power. Individual effort is giving way to organized force—to co operation. A body of men organized with definite purposes in view will get far on in practical work where scattered efforts of individuals accomplish but little or are perhaps wasted. The Commercial Club of Red Cloud offers an opportunity for organized effort that should not be overlooked by any person having community benefit at heart. It is not for any particular person or set of persons.

It is for the farmer as well as the business man. For the country as well as the city. For anything and everything that goes toward the upbuilding of community interests. Get in touch with it. Become a member thereof and boost. The community, town or city that does not possess the co-operative spirit will not make very much progress.

H. R. No. 355 is one of those innocent little trouble makers that bob up from time to time. As to its sponsors and their motives, we willingly concede intentions such as are said to form pavement for a very undesirable place of residence located in the hereafter. But, in our opinion, to attempt the enforcement of ethical conditions by means of physical or man-made law is a waste of time and energy. By enactment and enforcement of law a man may be compelled to attend church on Sunday but if he hath not the spirit of righteousness in his heart he will never become a Christian. Apt illustration of the fallibility of censorship boards is seen where in one locality Griffith's great story of "The Birth of a Nation" was prohibited and in another the schoolchildren were urged to take a day without being marked "absent" to go and see it. In one case "Sappho," which is a story with a high moral and a warning, was prohibited and "Three Weeks" which under a veneer of smooth English and adherence to known facts is grossly immoral, was permitted. Leaving aside all argument as to the right or ability of one man, or a set of men, to decide what is good and what is not good in the ethics of art, we are opposed to the censorship bill because it puts in the hands of a few a power the misuse of which is too great a temptation for resistance.

The Other Side

Mr. L. F. Swift, president of Swift & Company, comments with regard to Mr. Hoover's letter to the President on the packing industry, saying in part:

Since there is no monopoly, the facts do not justify the statement that as time goes on this efficiency cannot fail to diminish, and, like all monopolies, begin to defend itself by repression rather than by efficiency. As long as the large packers have to use their utmost efforts in competition with each other and with hundreds of smaller concerns to earn their profit of only two or three cents on each dollar of sales, there is no room for falling-off in efficiency.

However, I welcome such sincere and disinterested views as those expressed by Mr. Hoover. The public and our legislators need to understand our business more thoroughly than they do now, before they are in position to undertake restrictive legislation. Swift & Company has voluntarily appeared before Congressional Committees to give such information as is desired. We have nothing to conceal. All we want is an opportunity to get the facts before the public, and when this has been accomplished, we shall rely on the sense of fair play of the American people, and shall abide by their verdict.

Everything a Man or Boy Wears

Red Cloud Nebraska

A PATRIOTIC DUTY

Almost as vital as that of protecting the honor of flag and country, is the duty of protecting and safe-guarding health. When strength is well-nigh exhausted and the resistive powers are reduced, then is the time disease germs are the most potent and when

SCOTT'S EMULSION

affords splendid and effectual means of offsetting the tendency toward weakness and protecting strength. The abundant tonic and unique nourishing properties of Scott's Emulsion make it a dependable agent that may be used everyday, by anyone, to protect strength.

PUBLIC SALE

As I am moving to Colorado, I will sell at Public Auction on my place 4 miles west of Red Cloud and 3 miles east of Inavale, on

Saturday, Feb. 22, 1919
