

Geo. Trine

RED CLOUD

We believe that it pays to give our customers service and satisfaction; that is why we want to sell you a

DE LAVAL CREAM SEPARATOR

Here's why the De Laval is the cheapest machine to buy:

It will pay you in cream saved from \$3 to \$5 a cow every year over an inferior or half-worn-out cream separator.

It will pay you in cream saved from \$10 to \$15 a cow every year over gravity skimming.

It will give you a heavier and better cream, the kind the creamery-man wants, the kind that gives you more skim-milk for your stock.

It will last two to ten times as long as other cream separators. Figure it out for yourself and you will see why the De Laval is the most economical.

And added to it all is the immeasurable satisfaction of owning a machine that "works like a charm" 365 days in the year.

We know that when we sell you a De Laval we sell you a machine you'll be proud to own. We sell them on liberal terms. Come in and talk it over.

THE ONLY DEMOCRATIC PAPER IN WEBSTER COUNTY

It is less expensive and far more pleasant to be a booster than a knocker.

Doing unnecessary things is a prolific source of trouble. So much time and effort are wasted in absolute non-essentials of both work and play that a large percentage of result never sees daylight.

Present methods as regards censorship of moving pictures seem amply adequate when applied. Recall how quickly the "fight films" disappeared when it was decided they should be prohibited.

Whatever else may be said of President Wilson's part in the peace conference, it must be admitted that he has attained world-wide popularity unexceeded by any other man of modern times.

There is but little ground for apprehension that Germany may again "start something." Germany is bound to bluster and bluff to "the end of the limit," with the sole object of getting the best she possibly can out of an obviously bad bargain.

Talk begins to drift out, as to possibility of Woodrow Wilson as a candidate for re-nomination in 1920. Perhaps this explains why certain republican senators are so persistent in their opposition to the man of the hour. Forget it, gentlemen! This settlement of the world-war is not a game of politics.

Those who oppose the League of Nations on the ground that some of its features and possibilities are contrary to precedent, are respectfully referred to a galaxy of historical stars—Galileo, Columbus, Luther, Washington, Lincoln, et al—whose successful efforts in the uplift of humanity were based upon a wise disregard of precedents.

The word "garb" as defined by Webster, means "the complete dress of a person." We are shocked by the sedate State Journal which in recording legislative proceedings uses the glaring headline, "No Garb in Schools." Just imagine—but the pen filters. We positively decline to imagine. It is, however, but another evidence of how a sensational story may originate from innocent words or acts.

There are two sides to every story. Particularly is this true in questions up for legislative action. The censoring of moving pictures comes within this class. Personally we believe public opinion the best, safest and most efficient censor. We do not object to legislative censorship if it follow the lines of public sentiment. Picture exhibitors do not oppose this. Per contra it is with them a continual striving to obtain and exhibit films which are pleasing to the public. What is objected to is the formation of boards of censorship in the various states, each necessarily working out differing standards and thereby creating delay, expense and uncertainty, fatal to the interests of exhibitors. A central board to pass upon films before they leave the producer would probably meet little or no opposition. However, we reiterate, leave the question to the public. Local managers learn mighty quick whether they are on the right road.

Without comment we quote a few lines from President Wilson's reply to the welcome given him at Boston. They are worthy of memorizing as a summary of the world-peace action:

We set this nation up to make men free and we did not confine our conception and purpose to America, and now we will make men free. If we did not do that all the fame of America would be gone, and all her power... Think of the picture, think of the utter blackness that would fall on the world. America has failed. America made a little essay at generosity, then withdrew. America said "We are your friend," but it was only for today, not for tomorrow. America said "Here is our power to indicate right," and then the next day said "Let right take care of itself and we will take care of our selves." Think of the world we would leave. Do you realize how many nations are going to be set up in the

presence of old and powerful nations in Europe and left there, if left by us, without a disinterested friend? The arrangement of the present peace cannot stand a generation unless guaranteed by the united power of the civilized world. And if we do not guarantee them can you not see the picture? ... When I think of the homes upon which dull despair would settle if this great hope is disappointed, I should wish for my part never to have had America play any part whatever in this attempt to emancipate the world.

Ex-president Taft gets before the spotlight by opposition to the opinions of several well-known republican senators. The League of Nations being the rock upon which said opinions split. Is it a possibility that Mr. Taft is sowing seed from which to reap a harvest of presidential boomlets?

Farm Bureau Notes

Jim Barkley arrived in the city Tuesday evening from Minden to visit his brother, John Barkley and other relatives.

Mrs. J. E. Butler spent Monday in Blue Hill, the guest of Mr. and Mrs. Ed Koon.

Mrs. Paul Pope went down to Superior Wednesday for a short visit with her parents.

FARM BUREAU MEETING On account of the storm and the impassable roads the annual meeting of the Farm Bureau has been indefinitely postponed. It will be held when the roads get better and when we are able to secure Mr. Gilmore and Mr. Gaines, as they are both able speakers.

One of the changes in the constitution and by-laws to be voted on is to change the annual meeting from February to December as the roads are better at that time and the fiscal year of the County Agent work is December 1st. Watch for the announcement of the Annual meeting in the Farm Bureau notes.

SHORT COURSE AT COWLES

The Short Course was held the past week at Cowles. In spite of the bad roads the attendance was good, and what it lacked in attendance of former years was more than made up by the good interest that was shown by those who did attend. The value of a Farmers' Institute or a Short Course is hard to estimate from the dollars and cents standpoint. Suggestions and experiences are given out by the Extension Speakers. One suggestion may mean the value equal to the entire short course to one individual.

ATTEND JOHNSON'S DUREC-JERSEY BRED SOW SALE AT RED CLOUD, SATURDAY, MARCH 1.

VALUE OF A FARM BUREAU EXCHANGE During the month of January the County Agent placed to the farmers in Webster County 3380 lbs. of Sudan Grass. This seed was secured through the County Agent from Washington County at 10 cents per lb. and we could have placed 1000 lbs. more, if we could have found the seed at that price.

Sudan Grass seed at this price was a saving to the farmers of 10 cents per lb. or a total saving of \$338. And still some people are at a loss to know of what benefit the County Agent can be to the farmers during the winter months. This is only one item of work for the month of January.

HENRY R. FAUSCH, County Agricultural Agent.
