RED CLOUD

We believe that it pays to give our customers service and satisfaction; that is why we want to sell you a

DE LAVAL CREAM SEPARATOR

No matter what anyone may tell you, there is only one speed at which you can turn a separator crank and get all the cream and cream of uniform thickness, and that's the speed indicated on the crank.

Every hand-operated cream separator has the correct number of turns of the crank handle per minute plainly indicated upon the crank handle. Every separator, of whatever make, will do better work at the proper and indicated speed than at any other.

Every one of the NEW De Laval has a Bell Speed-Indicator. When you slow down, the bell rings. It warns you every time the handle goes around too slowly. You can't be mistaken about it.

The Bell Speed-Indicator adds nothing to the price but much to the value of the NEW De Laval.

Come in and see how the Bell Speed-Indicator works.

Miss Ethel Householder, missionary to China, is expected to arrive most any day now, she having left Chengtu where she has been stationed, in December and embarked for the United States the 12th of February which has given her about time to make the overseas journey. Her many friends will be glad indeed to know that she is to visit us so soon, after her long absence in the far distant field. Miss Householder left Bladen five years ago last November. Several calls have already come to her home south of town trying to arrange for a date with her for an address at various churches over the country. We understand Miss Householder will spend a year in the United States taking a much needed vacation and will then return again to her work in China.—Bladen Enterprise.

Farm Bureau Notes

PRAIRIE DOGS

Our campaign on prairie dogs has been delayed, due to bad weather and impassable condition of the roads.

COMMUNITY CO-OPERATION
We intended to carry on this work through communities that have dogs. By getting all farmers having dogs in one neighborhood to help distribute the grain and each farmer will pay for the amount used on his farm. It does no good for one farmer to get rid of his dogs unless all farmers in the neighborhood will do the same.

METHOD OF EXTERMINATION
We have mixed up strychnine, soda, starch, syrup, glycerine, and saccharine on good heavy oats. This is to be distributed on a clear, warm day. Put about a half-teaspoonful on the hard ground near the hole. You do not need to close up the hole. One quart of the oats is enough for 75 holes.

125 FARMS IN WEBSTER COUNTY

Around 125 farms in Webster county have dogs, ranging from 1 to 200 acres on a farm. This will take some time to cover the entire county. Where only 2 or 3 farmers in the neighborhood have a few dogs and they could arrange to poison them themselves, they can call at this office and get what they want, as the sooner they are poisoned this spring before they get vegetation to eat, the more sure we will be of getting all of them the first time over. Some farmers have called and taken out the mixture, and distributed it, and they claim good results.

WE ARE GOING TO STAY ON THE TRAIL OF THE PRAIRIE DOG UNTIL WE RID WEBSTER COUNTY OF THE LAST ONE!

FARM BUREAU MEETING

The annual meeting of the Webster County Farm Bureau will be held Saturday April 12.

M. E. Centenary Work

Thousands of American fighting men are returning from France with the desire to make the flag mean more to the United States and to the world, says the Centenary Bulletin.

This interpretation of the transfigured patriotism of the "dough-boy" is made by Bishop Edwin Hughes, who has just come home from France, where almost six months he served with the Y. M. C. A., at the front in the Champagne and the Argonne, at general headquarters in Chaumont and in Paris. "Our statesmen," continued the bishop, "should take advantage of that desire, using it for the country and not merely for the party. The soldiers love their country more loyally because they have invested in it now so much of time and hardship. Some of them have given it the very bloom of their youth. And where their treasure is, their heart is also."

The sight of other lands has only increased the love for our land, and they are repeating Walter Scott's: "Lives there a man with soul so dead"

Who never to himself has said, "This is my own, my native land?" with a new emphasis.

"The Stars and Stripes have for the soldier an added luster in the red, white and blue symbolic colors. It is really 'Old Glory' made new by a great struggle."

Not alone in the realization of political ideas; according to the bishop, would the energy created by the war, still potential for the good of country and humanity, find its outlet. The soldier, he believes, can be won to lend this dynamic force of fresh and youthful courage and sacrifice to the triumph of the highest moral and religious ideas as well.

"These men are young Crusaders," he said. "It was a spiritual crusade that sent them to Europe. It rests with the Church to make them realize that the same spiritual Crusade is going on, and that it needs them just as much as it did in France. The World Program of the Methodist Episcopal Centenary is symbolic of this crusade, and asks the same qualities of courage and sacrifice. The soldier returns from a war to a war, the biggest form of war, the war which the church is waging for uniformity of ideals as a foundation to the civilization of the future."

"And in this war the soldier is given his only chance to continue that spiritual crusade which sent him to Europe."

Mrs. Ida Springer left Tuesday evening for Wellfleet, on receipt of word that her daughters, Misses Lenore and Nettie, were both very low. On Wednesday afternoon the lady wired for Mr. and Mrs. Tuck Amack to come at once and also for Dr. Mitchell. The doctor was unable to go but directed Mr. and Mrs. Amack, who left that evening, to an excellent doctor in Holdrege. No other word has been received, other than late Wednesday night another message came stating that Dr. Mitchell need not come.
