

## Postmaster General's New Long Distance Telephone Classification to Become Effective at Midnight June 20th, 1919.

THE Postmaster General's long distance telephone classification and tariff establishes a new system of classifying and rating long distance telephone calls. The principal changes made are that different kinds or rates apply for different kinds of calls. The rate for a station-to-station call is generally less than the present charge and the person-to-person rate is a slight increase. The revenue produced under the new tariff will be less than was received under the old rates.

The Postmaster General's classification and rates have been in effect on interstate business since the first of this year.

The United States Supreme Court has established the Postmaster General's authority to prescribe rates and at 12:01 a. m., June 21, the new long distance rates and classifications will be placed in effect on all toll business throughout the United States.

## Decides to Appeal Phone Case to Supreme Court

A meeting of the stockholders of the Farmers Independent Telephone Company was held at the court house last Thursday afternoon. At this time it was unanimously decided to appeal from the order of the State Railway Commission to the Supreme Court.

The matter of selling to the Lincoln Telephone Company was also carefully considered by all members present.

It was estimated that it would require the expenditure of \$1500 to make the necessary changes in order to interchange service between the two companies. This was not opposed by the stockholders, as was another part of the order providing that the number of subscribers of each company on October 1, 1917 be maintained. This would mean the surrender of about one hundred of the Farmers subscribers to the Lincoln company. In time this would mean the destruction of the Farmers company, thus giving them no alternative but sell to the Lincoln company or appeal from the order.

The stockholders appeared satisfied with what progress they had made in past and did not feel as though they desired to sell out and quit business. This leaves the matter in the hands of the supreme court to decide.

A surprise party was given in honor of Olen Ireland at the home of Mr. and Mrs. Fred Hedge on Wednesday evening. Refreshments were served and a good time was had by all present.

The play ground night for the girls has been changed from Friday to Thursday and the boys' night from Monday to Tuesday evening. All those who have been taking part in the games have gained according to the lung test of last week.

The daily papers convey the information that Governor McKelvie is considering asking the legislature, at a special session to be held some time in July, to ratify the woman's suffrage bill and to re-enact his "code bill" with an emergency clause. The purpose of such action would be to defeat the will of the people. With an emergency clause, which was not attached at the regular session because the governor could not command the required two-thirds vote, the bill could not be subjected to a new referendum.

Wanted: Stenographers and Bookkeepers to accept positions with Banks, Lumber Companies and other Business Firms in Nebraska, Kansas, South Dakota, Colorado, Wyoming and Montana. If you have been thoroughly trained in a reliable Business College, we can place you in an excellent position. We have more positions than we can possibly supply with our own graduates.
