### NOT AN UNNATURAL ERROR

Inquirer Might Be Excused for Thinking Old Lady Was Gone Beyond Recall.

Concerning the cheese that made Limburg famous, a bulletin of the National Geographic society quotes a communication from William Wisner Chapin as follows:

"Limburg is sometimes called the garden of Holland. Of the celebrated relish known as Limburger cheese it has long been a query how an article of food made from delicious material and considered such a delicacy can possess so obnoxious an odor and still retain its self-respect. This peculiarity has made Limburger cheese responsible for many amusing incidents.

"A Dutch-American rural citizen once went to town to make some purchases, among which was some of this odoriferous commodity. For convenience he placed it in a long box in the wagon behind the seat. Happening to stop on the road, an inquisitive acquaintance approached and asked what the box contained.

"In answer he raised the lid and replied, 'I have my grandmother.'

"Well," rejoined the inquirer, as he caught a whiff of the contents, 'she's not in a trance.'

### FUNERAL A PICNIC FOR DOG

Rover Had Quite a Good Time While on His Way to His Last Resting Place.

A big picnic was planned and I was slated to transport the refreshments and a crowd of relatives to the picnic grounds, writes a correspondent of the Chicago Tribune. I placed the boxes and baskets containing the sandwiches, cake, fried chicken, etc., in a trailer, hitched the trailer to my car, already filled to overflowing, and started gayly on my way.

A huge dog belonging to my aunt accompanied us, and I had the misfortune to run the heavily loaded machine over him, killing him instantly, as we all thought. My aunt was deeply affected and insisted that I take Rover's body along and bury it beside the river. I loaded the dog's carcass into the trailer and started on again, but not so gayly.

When we reached the picnic grounds and I reconnoitered in my trailer I beheld Rover sitting up licking his chops, as large as life, or larger. I should say, for he had devoured all our provisions.

Pity the misguided amateur gardener who tries to live on the vegetables he raises.

### The Difficulty.

"I would like to take you apart, sir." "You can't. I'm no human puzzle."

## CHARGED WITH 12 MURDERS

French Detectives Are Unraveling the Past of Modern Bluebeard.

### VICTIMS ARE BURNED

Escaped Lover, Destined to Become Thirteenth Victim, Is Expected to Give Startling Testimony at Trial.

Paris.—French detectives continue the investigations into the strange case of Henry Landru, under arrest charged with the murder of 11 women and one boy. Landru is being detained in prison while the police are completing the net of evidence which they assert will show this modern Bluebeard to be the arch-criminal of modern times. The police have also taken into custody Mile. Fernade Segout, who was with Landru at the time of his arrest. She is believed to know much of Landru's past affairs and, according to the police, was destined to be his thirteenth victim. Paris is said to be impatient for the trial, which is expected to reveal a tale of shocking and frightful inhumanity.

**Bones and Ashes of Victims.**  
It is believed by the police that most of the victims of Landru disappeared at his secluded country home, Villa Gambais. There detectives have discovered charred bits of women's clothing, burned bones of human beings, ribs and pieces of ribs, arm bones, shin bones and human teeth. In numerous ash piles, believed to contain the remains of some of the victims, detectives have discovered bits of melted glass, hairpins and teeth.

In the kitchen of the home were found meat saws, such as only a butcher keeps, and a kitchen stove which in the opinion of the police, served to burn the bodies. In the cellar great stains of blood were found, covered with sand. Discovery of a large can filled with tar has led the police to the

Seized and Handcuffed Landru.

theory that Landru used tar with coal to create a fire sufficiently hot to consume bodies.

**Sensational Arrest of Bluebeard.**  
Landru was arrested in Paris, where he was living under the name of Gullet. Two detectives entered his home on pretense of being eager to purchase his automobile. Once they were inside, they seized and handcuffed Landru and told him he was under arrest. Shouting and screaming and trying to tear off the handcuffs, he protested against the arrest.

### LOVERS REFUSE TO PART

Pennsylvania Girl Burns Self to Death as Sweetheart Dies by Bullet.

Northampton, Pa.—Two lovers, Nava Newhard, sixteen years old, and Palmer Lilly, nineteen years old of Northampton, Pa., died in a tragic manner as the result, it is asserted, of a suicide pact. The parents of the girl had refused to permit her to accept the attention of Lilly.

The young people walked to Hometown, a mile away from their home, where they sat down by the roadside and ended their lives. The girl, with the assistance of her lover, it is thought, set fire to her dress and was burned to death. Then young Lilly, according to the theory of the coroner, shot himself several times through the head, dying a few minutes later.

The pair left a note on the ground in which they told of their purpose to die, as they could not live apart.

**Found Lost Safe and \$25,000.**  
San Francisco.—Ten years ago E. O. McCormick of this city lost his office safe, containing between \$25,000 and \$30,000 in bonds. The safe failed to follow him when he moved. Recently an attorney came upon a strong box that no key would fit. A locksmith opened it and revealed the missing bonds.

### In the Mazy Whirl.

Eleanor, five, had seen her first dance. She was frankly delighted watching the dancers, but had little to say when she got home that evening.

The next morning mamma told her to tell daddy about the dance, as if daddy had never seen a dance. She explained it thus to daddy:

"Well, you see, daddy, they sort of cuddle up with their hands out this way on one side and hug with the other hands and then they scrape their feet on the floor and sort of run up one side of the floor, scraping their feet, and down the other side."

### Putting It Up to Grandpa.

Howard had not had his breakfast one morning when his grandfather drove up in his car. Howard wanted very much to go along, but his mother said: "But you haven't had your breakfast yet, and grandpa doesn't want to wait."

Howard studied a moment and then replied: "Well if I was a grandpa and had a little boy, I'd say, 'Go on and eat your breakfast and I'll wait for you.'"

## IF THIN AND NERVOUS, TRY PHOSPHATE

Nothing Like Plain Nitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

When one stops to consider the host of thin people who are searching continually for some method by which they may increase their flesh to normal proportions by the use of such a well-known fact as the fact that the amount of phosphorus in the human system is very largely responsible for this condition. Experiments on humans and animals by many noted authorities and professors in his book, "Chemistry and Food Nutrition," published in 1918, says: "It is a fact that the amount of phosphorus required for the normal nutrition of man is seriously underestimated in many of our standard text books."

It seems to be well established that this deficiency in phosphorus may now be met by the use of an organic phosphate known throughout English speaking countries as Nitro-Phosphate. Through the assimilation of this phosphate by the nerve tissue the phosphoric content when absorbed in the amount normally required by nature soon produces a welcome change in our body and mind. Nerve tension disappears, vigor and strength replace weakness and lack of energy, and the whole body soon loses its ugly hollow and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing.

**CAUTION:**—While Nitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

Alice does not reply.

Teacher—How many fingers have you altogether?  
Alice—Ten.

### Profitable Trip.

An interesting and profitable trip that every motorist should take but very few think of is a trip under the car to see the condition of things there.

Poverty brings many strong landlords.

### Safeguarding a Jewel.

"Could you arrange to have the letter carrier call only once a week at my house?" asked Mr. Crosslots.

"What's the idea?" inquired the man at the post office window.

"My wife's afraid the new cook will think he's company coming to dinner and leave before we can explain."

## Don't Poison Baby.

**FORTY YEARS AGO** almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and a FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. **CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.** Genuine Castoria always bears the signature of *Chas. H. Fletcher*

### SAVED TWO FAMOUS PICTURES

Old Masters Taken by British Officer From the Ruins of Ypres Cathedral.

The king of the Belgians will shortly have returned to him two famous pictures which were rescued, four years ago, from Ypres cathedral. It appears that during the bombardment of Ypres in 1915 a young British artillery officer noticed inside the cathedral, which was being heavily shelled, that the only things not shattered by German fire were two large Flemish masters, dated 1600, hanging some 20 feet high on the walls. How to get them and save them for Belgium was the question which immediately presented itself. The officer called two private soldiers to help him, and with the aid of some long gas pipes which had been blown down by the German fire, and two large hooks, the pictures were lowered to the ground. The officer, Lieutenant Daniels, R. A., then cut the pictures out of their frames and put them in a large sack, which he used for a time as a bed. In the end he took them to London, where, with the approval of the Belgian minister, they have been placed on exhibition prior to being returned to King Albert at Brussels.

### Courage.

"Aren't you afraid to wear a bathing suit like that?"  
"Afraid of what?" asked the girl.  
"Sunburn."

### Perhaps He Had Repented.

A funny one happened the other day in the office of a justice of the peace. A young couple were being married, surrounded by several friends. As usual, the ritual came to that place where the justice said:

"Does anyone present know of any reason why this couple should not become man and wife?"

And to everybody's amazement, the groom spoke up, "I do."

As he said afterwards, "that's what comes of too many rehearsals."

### A Lady of Distinction.
