

On Their Way to Nebraska's Victory State Fair, Lincoln, Aug. 31 to Sept. 5, 1919.

**Salvation Army Notes
Concerning State Drive**

Former District Judge A. L. Sutton has accepted the chairmanship for the Salvation Army reconstruction home service campaign drive in Nebraska. Colonel Fred A. Grant, United States army officer, retired, is vice chairman and John L. Kennedy, vice president of the United States National bank, is treasurer. The state committee will have more than six prominent Nebraska men.

The drive which will be made during the week of September 21 to 27 will be to raise the Nebraska quota in the national Salvation Army home service budget. The amount provides for a new maternity and rescue home; a state headquarters building; corps buildings in places throughout the state where needed and in strengthening corps and relief work.

District workers for the drive have been appointed and are at work in their fields. They will keep their districts acquainted with the campaign through the press in that district.

Warning: Give no money to persons calling themselves agents for the Salvation Army. No solicitations are made except by persons authorized by local committee. Reports have reached headquarters that imposters are at work.

Coming

Col. Geo. W. Hall shows in all their majestic beauty and imperial splendor, matchless in all that make it mighty, positively handsomest and most highly educated collection of trained wild and domestic animals on tour. For intelligence, sagacity, and animal cuteness their equal does not exist and the very best of performers, with a big lot of funny clowns make this show one of the very best. A grand street performance and review and free exhibition on the show grounds at one p. m. Two performances daily—at two and eight p. m. at Red Cloud, Saturday, Aug. 30th. adv

Joe Hewitt spent Wednesday with his wife at Hastings. Mrs. John Wolfe of Sutton returned to this city from Riverton Friday where she had been visiting Mrs. Fred Taylor and family.

Says Court is Lawmaker

The Supreme Court is alleged, by Frank J. Munday and L. H. Blackledge, to have judicially amended the statutes in the recent decision which went against the clients of the lawyers named. The case was one where some property owners sought to invalidate the paving assessments against their holdings in Red Cloud.

They claimed that the city engineer could only approve estimates and, that as he hadn't done so in this case, assessments do not hold. The court held that where it is shown that a city engineer is not competent, it is proper for the council to call in other engineers who can handle it.

This decision so shocked the objectors, that now they come with a motion for a rehearing in which they allege that the court has always heretofore held that an estimate by the city engineer was a jurisdictional prerequisite, and that, therefore it was bound by these decisions. The statute, very plainly, so they say, requires the estimate by the city engineer, and when the court makes an exception it is amending the law in a way the legislature did not see fit to.

Besides this the court, the lawyers say, erroneously read the evidence. The court, in its decision, says the testimony shows the engineer was not qualified and that he recommended the employment of the ones who were employed to make the estimate. There is no warrant, in the testimony, they assert, for such a statement.

Only the voters anyway, they claim, can say whether a public officer is incompetent, where he holds by election. The voters of Red Cloud had passed upon this man's competency by electing him engineer for twelve years, and they are the only competent authority to say whether he fills the bill. A portion of the sovereignty of the state was given the engineer on his selection, and he has no power to delegate his authority to another or substitute someone for himself and neither the council nor the courts have such power.—Tuesday's State Journal.

Ak-Sar-Ben Festivities

September 24 to October 4

The Board of Governors of Ak-Sar-Ben announce September 21 to October 4 as the date for the annual fall carnival and parades. The grand electrical parade will take place on the night of October 12 flower parade, afternoon of October 2, and the grand ball and procession, the night of October 3. No expense is being spared in the preparation of floats for the electrical parade, and it is expected this parade will eclipse all previous ones.

"THE NEW-NEBRASKA FEDERATION"

You are solicited and urged to become a member of the Federation:

WHY?

Because it is the only body of men in the state standing together in defense of all the people—high or low—and of ALL PROPERTY—big and little—and against all "class" legislation and all state socialism, in the framing of a NEW CONSTITUTION for Nebraska.

AND—

Because it must be supported by the interest and contributions of the every-day plain people to live and continue the battle. It has no "endowment" on which to rely. Numbers have already shown their appreciation of the work the Federation has undertaken by taking a membership and contributing.

WHY NOT YOU?

Whether you have a home, a farm, a job, a shop, a store or a profession, you are vitally interested in a square deal for all as against advantage to be given to any "class" of the people.

MEMBERSHIP—3 CLASSES:

Member \$ 1.00
Contributing Member 5.00
Sustaining Member 25.00

MAIL THE COUPON TODAY!

**A Dwarf in Size
A Giant in Power**

**Only 40 to 60 lbs. per H. P.
Yet Plenty of Surplus Power**

Compared to ordinary farm engines, Cushman Engines are very light for the power they develop. They weigh only about one-fourth as much as other farm engines.

However, when compared with high grade engines used for other purposes, Cushman Engines are not regarded as unusually light in weight. For instance, they weigh several times as much, per horsepower, as automobile engines.

Light weight power is much easier to handle for all ordinary jobs like grinding, etc.

**CUSHMAN
Light Weight Farm Motors**

Easy to Move From Job to Job
They do many jobs in many places instead of one job in one place.

Weight only one-fourth as much as ordinary farm engines. Light weight and higher speed mean more jobs, easier handling, less waste of material and fuel and steadier running. Cushman Engines are the standard light weight engines of the world.

Cushman Engines are high grade engines built for farm work—made as heavy as they need to be, but no heavier. They are balanced so carefully and governed so accurately that they do not need such heavy construction.

Even with their lighter weight, Cushman Engines run much more steadily and quietly than ordinary farm engines weighing several times as much. They are also the most durable farm engines in the world, on account of improved design and better material and construction.

Sizes 4 to 20 Horsepower
Cushman Engines stand up and do not wear unevenly and lose compression. Every running part enclosed free from dust and properly lubricated. Equipped with Throttling Governor, Carburetor, Friction Clutch Pulley and Water Circulating Pump.

PRIVATE MONEY TO LOAN
I have \$8,000.00, belonging to private parties, to loan on real estate, security 6 per cent, good options, time to suit borrower. See me if you need a loan, and have your mortgage handled where interest and principal are both payable to the banks of Red Cloud.

LIST YOUR LAND FREE OF CHARGE
I have a customer for a quarter section of land, also one for a half section. If you want to sell come in and list your land. This will cost you nothing unless a sale is made.

CHEAP CORN AND WHEAT LAND
Come in and have a talk with me about Colorado land, as I have just formed a connection with the Wayne Investment Company of Cheyenne Wells, Colorado, who own the land they sell. They own several thousand acres of land near Cheyenne Wells, also a bank at Cheyenne Wells, and one at Arapahoe, Cheyenne county, Colorado. This will assure you of buying land at a reasonable price, and not allowing some agent to tack on five or ten dollars more per acre than the land can be bought for. They have just harvested 25 to 30 bushels of wheat. This is the fourth year of good crops. Prices range from twenty to forty dollars per acre, according to location. Titles approved and abstracts up to date on all land owned by this company.

OWN YOUR OWN HOME
Have just listed a good house, six rooms with bath, all modern except heat, full basement and chimney to bottom of cellar arranged for furnace. Price, \$1,900.00 Terms, \$500.00 cash, and balance in monthly payments.
