**MORE THAN MERE CHAUFFEUR**

New York Merchant Has Driver Who Knows Business Methods and Aids His Employer.

"I don't believe in having too many carefully worked-out methods for preventing errors in an organization," writes L. Wertheimer in System, the magazine of business. Mr. Wertheimer is president of a concern which operates five big department stores in the northern part of New York city. He goes on to tell the plan he uses:

"One of the best checks that I get on my business is through my chauffeur. I have to keep a machine at call all the time, so that I can get from store to store without delay. My driver is not simply a driver; he is a high-grade man who knows a good deal about my ideas of merchandising—a man who conceivably may some day be manager of one of my stores."

"While he is waiting for me he does not simply sit outside in the machine. He wanders around the store, looking at displays, noticing how salesgirls deal with customers, whether our prices are by chance higher on this item or on that than they should be. Every morning his written observations are placed on my desk; from them I have time and again gleaned pieces of information that made a big difference in the profits of the store."

**United States Korean Treaty.**

It was in 1882 that the first treaty, with Korea was signed by the United States, and foreigners took up their residence with official sanction at Chemulpo, the seaport of the capital, Seoul. Even with this foothold in the new country, the unwelcome visitors pushed their way but slowly into other parts of the kingdom, and as late as 1897 only a relatively small portion had been visited by white men.—National Geographic Magazine.

**Pleased at Her Appearance.**

Jane was busy entertaining herself by looking at the photograph album. Soon she came across a picture of herself taken when she was a tiny, bald-headed baby, and in all earnestness she said: "What a tummy! homely baby!"

**Ill and Nervous.**

Nurses dislike the season of thunderstorms. "We are not afraid of lightning ourselves," a nurse in a woman's hospital told me, "but it has a harmful effect on the patients. Most sick people fear lightning. In cases of extreme weakness or nervousness a dozen flashes of blinding lightning reduce the patient to a state of utter prostration."

**WOULD BE FRIEND IN NEED**

Grateful Colored Man Promised to Go if Services Should Be Needed.

"The race riots in Chicago remind me of the same sort of excitement that ran around Atlanta when I was living there as a young man," said George McDaniel of Metro, Cal., recently.

"My brother and I were both medical—owners of smooth and virgin sheepskins. We shared the same office and lunched at the same counter. In the midst of wild confusion, one day, a wounded negro rushed into our office and begged for protection. This was freely granted, for we had no race prejudices, in spite of our Southern upbringing. We also poured salve on the negro's bruises.

"'Yo' shun been good to me,' said the grateful darkey, turning to my brother—who, by the way, is now practicing in Los Angeles—'an' I'll member it, doc. Say, if yo' ever kills anybody mah friends and I'll get you out if we have to bust the jail to do it.'"
