Bargains in Kansas Lands

We have a man who is very much interested in his neighbors and friends that wants a home where they can double their money, this he knows by experience himself. He has traveled eastern Colorado and western Nebraska, which are good places, but he has found a place much better, with better soil, and grass and good water. This land yields more wheat, corn and barley, than any place he has traveled.

We have a very large list of land, for sale, in Sheridan county, Kansas, the share of the crop goes with the place, if sold by May 1st.

We have some good grazing land in this and adjoining counties, which can be bought cheap. He has traveled over several counties, before he bought. He bought one section nine years ago at \$20.00 per acre, and resold \$60.00 per acre last July.

He has owned this section nine years now and during that time only two crops were very light. This section has paid for itself and paid for another section besides.

Now if any one wants a good home or a place to make money, come and talk with us and make arrangements to go out with us. These great bargains are only one hundred and twenty-one miles from Red Cloud, Nebraska, by railroad. We have a few farms you can have possession of in March, 1920. Price on this land runs from \$20 to \$60 per acre, except the grass land, which can be bought cheaper. Home office Red Cloud, Nebraska, over State Bank.
