Capital and Surplus  
\$35,000.00

Interest Paid on  
Time Deposits

THE RELATION BETWEEN A BANK and its depositors is different from that between other lines of business and their customers. And a bank can be useful to its clients beyond the mere depositing, paying and lending of money. A bank stands in confidential relation to its depositors. It has opportunities to help them and opportunities to take advantage of them. It becomes familiar with their financial transactions. It knows what deals they are planning and making. Not only their money but their business secrets are in its hands for safekeeping. Further, the bank is the support behind the man, upon which he can call for help.

Your bank, to be really useful, should be honorable, strong enough to furnish help when needed.

County Judge A. D. Ranney issued a marriage license Friday to Ovid E. Doughman and Miss Maria L. Spiker, both of Cowles, and Saturday he issued a license to Carl G. Waechter and Miss Goldie E. Robinson, both of Bladen.

H. C. Stephenson of Concordia, Kan., arrived in the city Friday and immediately assumed his duties of superintendent of the municipal power plant.

Mr. Stephenson has, for some time past, held a similar position at Mankato, Kan., and has been recommended as capable of filling the position he has accepted here. With the new man in charge and the new power unit—which has been ordered—installed the mayor and council are looking forward to a brighter future.

Tuesday evening the regular meeting of the Red Cloud Local of the Farmers' Union was held in the I. O. O. F. Hall. After the regular routine of business had been transacted a large number of new members signed the roll.

The important present-day topic, "Consolidation of Schools" was brought up for consideration. It was discussed, pro and con by Rev. Wagoner and Daniel Garber. Being two able speakers, well versed on important matters, they gave the audience considerable valuable information on the subject.

Franklin and Webster counties may contain the most promising oil fields on the American continent but if Nebraska merits such a rating, Secretary of State Amsberry wants the information from some source other than a promoting company. Jesse E. Griffith of Alma, recipient of literature from a Chicago oil company, has turned the alluring offer over to the secretary of state with request for an investigation.

Mr. Amsberry will first ascertain whether or not the concern has authority to sell the stock within this state. The company claims to be capitalized for \$3,000,000. Its principal holdings appear to be 14,167 acres of land in Franklin and Webster counties.—Wednesday's State Journal.

Below we give a brief description of a few of our choice bargains in farms and ranches. All these farms are underlaid with an abundance of sheet water, which is of the best quality, pure, clear and free from alkali. The soil is a rich black loam, as productive as the Nile Valley. We have no hays, no rocks nor stamps to harass the farmer in tilling the soil.

Our climate is healthful. The air is pure, the nights are cool in summer, most of the winters are open and mild, we have more days of sunshine in this section than in any other spot in the United States.

The wheat sown on many of these farms will, if the yield is good, and the prospects never looked better, pay for the land.

If in the market for land you can't afford to neglect to investigate the propositions we have to offer. We have resided in this territory for over twenty years and when you deal with us you deal with an old reliable firm. Agents will find us on the square and willing to cooperate in helping them sell to their clients and will find our commissions and our business methods satisfactory. We solicit their business.
