Treat Your Seed For Smut  
Seed treated for smut, and sown by farmers last year, showed an increase of 2 to 6 bu. per acre. This would mean \$1.60 to \$4.80 per acre on oats, and the cost of treating is less than 5 cents per acre.

In the treatment of seed grain for smut, all farmers can be divided into classes:

Those who treat and those who do not.  
To those who treat their seed grain, we hope that their number grows until they are the only one close.

To those who do not treat the seed grain they plant, we must still continue to point out the error of their ways.

It is plain that this second class of seed grain planters, are either ignorant, shiftless, indifferent or lazy, and they all come under the same class.

To the ignorant we may say there is no excuse for such lack of knowledge, when it is a simple matter to secure the necessary information.

The shiftless or indifferent, must be considered as an old and passing type of farmer, whose days are numbered.

The lazy man has no place on the farm, and the man, who does not treat his seed because of the work or bother, is entitled to no more than the little he produces.

HENRY R. FAUSCH,  
County Agricultural Agent

## In 2000 Counties This Month

The Forces of the Church of Christ Will Gather To Face the Facts

IN 2070 counties in the United States the pastors and laymen of 30 great denominations will meet in conference this month.

It is the kind of conference that generals hold before a critical engagement; that business men hold before entering a new market. A conference of judgment, not emotion; a clear-eyed facing of the facts.

### A Survey that Business Men Must Admire

For more than a year hundreds of workers have been quietly engaged in making a scientific survey of the mission fields, and of America county by county.

The facts developed are startling. No such picture of America's religious situation has ever before been drawn.

On the basis of these surveys thirty Protestant denominations are uniting in a

### Nation Wide Cooperative Campaign

Each of the thirty denominations has its own "Forward Movement" organized and officered. The Interchurch World Movement is the clearing house for all of these.

It is the agency which the churches have created to avoid duplication, to foster cooperation and make sure that every man and dollar render the utmost service possible.

The month of April will be devoted to making the facts of the survey known to America; in the week of April 25th-May 2nd, will come a united simultaneous financial campaign.

### Whether You Are Inside the Church or Out

To every man and every woman who loves his country, these 2000 county conferences are vitally important.

For the facts developed by this great survey show vividly what forces are at work in America—and what kind of a country this country is to be.

See that the pastor of your church appoints delegates. Any pastor can tell you the conference place and date. Or write direct to the
