3 million dollars worth of phonograph

Do you want to see what 3 million dollars' worth of phonograph looks like?—what three million dollars' worth of phonograph sounds like?—why anyone would put this staggering amount into one single solitary phonograph?
Come into our store and let us show you an exact duplicate of the Original Official Laboratory Model of

The NEW EDISON "The Phonograph with a Soul!"

The Original Official Laboratory Model! That's a name to conjure with. That's the phonograph which cost 3 million dollars.

Remember the 7 long years during which Mr. Edison experimented night and day. Remember the marvelous result he achieved.

Remember the countless times that exact duplicates of the Official Laboratory Model have matched their art directly against living artists,—and have proved that there is no difference between a singer's voice—or instrumentalist's performance—and its RE-CREATION by the New Edison.

We have exact duplicates of the 3 million dollar Original Official Laboratory Model. We guarantee that they will also match the living artist and equal the entire 3 million dollar musical ability of its famous prototype.

Our Budget Plan! The ideas of common-sense Americans, from Ben Franklin to Thos. A. Edison, applied to the purchase of a New Edison. Do you know about it?
