

'Bread Winner' Children's Playclothes

### Standing the strain

WHEN you give the playclothes problem the careful consideration it deserves—you invariably buy only such garments you believe will stand the strain of strenuous play. At each step in the making of "Bread Winner" playclothes this strain is considered. Each garment is reinforced where there is any considerable strain upon it, each garment is finished to the last detail of buttons, buttonholes and seams with the necessary care to withstand this strain. You can buy our playclothes bearing the label "Bread Winner" with the positive assurance that you have purchased a garment that will absolutely satisfy. Made under the most sanitary conditions, for tiny tots in creepers up to boys of eight and girls of six.

Come into our children's washwear department and let us show you our full line of sturdy garments.

**Mrs. Barbara Phares**

Precipitation: Total 2.19 inches.  
Number of days—clear 5, partly cloudy 8, cloudy 18.  
No frost in May.  
Thunderstorms—9, 11, 12, 19, 31st.  
Rainfall since Jan. 1, 8.04 inches.  
Chas. S. Ludlow, Observer

Mr. and Mrs. Chas. Dickerson and Mr. and Mrs. Ralph Shepherson left Wednesday via automobile for Alabama, where they will visit relatives. The concert given by the Mandolin Orchestra at the opera house last Friday night shows that we have just as good, if not better, musical talent than the average Chautauqua company that visits this place.—Franklin County News.

Drawn from actual photograph taken March 10th, 1920, in Carnegie Hall, New York.

### Hear the phonograph that baffled James Montgomery Flagg

Come in and test its marvelous realism for yourself

An audience of 2800 New Yorkers completely baffled! An Official Laboratory Model did it—actually rivalled Anna Case, one of the world's most brilliant sopranos, in a startling test at Carnegie Hall, on March 10th, 1920.

In our store, you can hear an instrument exactly like this famous Official Laboratory Model. You can test it for yourself—and see what a truly perfect realism it attains. We have equipped ourselves to give Mr. Edison's unique Realism Test.

## The NEW EDISON

"The Phonograph with a Soul"

The instrument used on March 10th, 1920, in Carnegie Hall, New York, was an exact duplicate of the original Official Laboratory Model on which Mr. Edison spent three million dollars in research work.

We, too, have an exact duplicate of this three million dollar original. We guarantee that it is capable of sustaining precisely the same test made on March 10th, in Carnegie Hall, New York City.

This guarantee will be given in writing,—if you wish.

Our Budget Plan puts this guaranteed Official Laboratory Model within your reach. It's a thrifty way of buying. Ask about it when you come to hear the Realism Test.

### E. H. NEWHOUSE

Authorized Edison Dealer Red Cloud, Nebraska

#### Mr. Flagg's Story

of the Miraculous Proof given at Carnegie Hall, New York, on March 10th, 1920.

"Miss Case draped her beautiful self against the phonograph. One of her song recordings was put on the instrument, and they, Miss Case and the phonograph, sang together. Then she stopped, and her other self continued. Then together again.

"I looked away and then back again,—and it puzzled me to determine which was at the bit.

#### The Pianist

"Then the tallest pianist in the civilized world played a charming thing, accompanied by himself via the phonograph,—lifting his fingers away from the keys now and again. I could see him stop playing,—but I couldn't hear him stop.

#### The Dark Scene

"Then the big stunt of the recital.  
"Miss Case began singing with the phonograph. At a certain stanza the house was suddenly darkened. The song went on. I was shooting my eyes out like periscopes to detect the second when she would stop. I was sure I got it. Then she seemed to be back again. The flood of lights came on,—but no Anna! Only the phonograph singing away.

It was quite wonderful,—and the audience applauded and laughed. Two girls behind me said 'Googracious!'

Read what the New York papers say:  
"The twin-ship between Miss Case's singing, and the reproduction thereof, proved so close as to be often indistinguishable."  
—New York Globe.

"When the lights were lowered, it was impossible to tell when it was Anna Case, and when it was only her voice that was singing."  
—New York Evening Sun.

"The voice in the fluffy pink draperies and the voice in the mahogany box seemed one and the same."  
—New York Evening Mail.
