

DANGER!

LOOK OUT FOR

The Whirlwind

She is due to hit Red Cloud Thursday evening, June 17.

Here's a picture with a bunch of thrills and spills longer than the Wabash Railroad.

This is a regular entertainment, brother—a serial with more thrills than Carter has pills.

If you crave excitement just annex yourself to one of our cushion seats with the soft wood backs and see the picture that knocks them all cuckoo.

In the most thrilling serial ever filmed

THE ONLY DEMOCRATIC PAPER IN WEBSTER COUNTY

PRAIRIE DOGS

Mr. W. D. Perry, Extension Specialist on Prairie Dog eradication, will be in the County, on Wednesday June 23. Two field demonstrations on poisoning prairie dogs, will be held. 10 a. m.—1 mile north of Inavale on the Cloud farm.

1:30 p. m.—4 miles east of Cowles, or 1 mile west of Eckley school, on the farm of Allen Vance.

Farmers having prairie dogs should plan to attend the demonstration near out them, and if all farmers having prairie dogs, do their part, Webster county will be free from the pesky dogs.

GRASSHOPPERS

Inquiries are coming in for the "Poison Bran Mash," used as bait for grasshoppers.

Follow directions carefully in mixing the following:

Take 100 lbs. of Bran, four lbs. of Paris Green or White Arsenic. Shovel over and over until some poison sticks to every flake of Bran.

Mix four lbs. of coarse salt with 15 gal. of water. Grind 1 doz. lemons with food chopper, stir into salt water. Next add 2 gal. of black molasses and stir well.

This mixture should be poured over the poisoned bran slowly, while shoveling the bran. Mix until there is no lumps left in the mash.

Scatter in strips across field in the evening. The above mixture is sufficient for 20 to 25 acres.

HENRY R. FAUSCH,

Service! Please?

There comes a time in life, sooner or later, when patience ceases to be a virtue, and we feel that the time is at hand with most of the people who are depending on the local power plant for light and power. We dislike very much to find fault with the plant or the administration, but the service that is being "dished out" to the public during the past year is such that we feel justified in saying that the said service is just a trifle short of "rotten." If the printer, grocer or clothier was to hand his patrons the same service that the city plant has been giving its patrons the public would hoot him out of town. Still the taxpayer puts up his money cheerfully and pays his light bills promptly, and continues to content himself with a kerosene lamp or candle from one to twenty-nine evenings each month—and if he should require power he must resort to his old gas engine. If he dares to complain on this excellent service he is immediately classed as a knocker.

If the installation of a new oil engine every year, ranging from \$5000 to \$15000 will not develop enough current why continue the oil engine route—why not purchase a steam turbine and generator and have the purchasing agony over with? If the administration cannot successfully operate the plant why not sell it to an individual or a corporation who makes a business of manufacturing electricity and marketing his product? Any thing would be acceptable. What we want is service—and let us have it.

Mrs. M. C. Sherman, accompanied by her daughter, Mrs. McNeny and sister, Mrs. Hogenbone, went to Hastings Saturday morning where Mrs. Sherman had her eyes treated. She is getting along better than was hoped for at first and will soon be well again.

SEWING MACHINE Specials!!

FREE CABINET WHITE ROTARY

You can get your choice of a White or Free Sewing Machine This Week at Extremely LOW PRICES. Be sure to call and see these fine Sewing Machines priced on COSTS of over a year ago. We allow a FAIR TRADE on your OLD MACHINE in exchange on a new one.

Caston Service Protects You

George Wolfe and family and Eli Houchin and family of St. Francis, Kansas, are visiting relatives and friends in this community.

Mr. and Mrs. Curt Evans and daughter, Myra, left Thursday evening for Los Angeles, California, where they will visit their daughter, Mrs. Marvin Emigh.

Mr. and Mrs. O. C. Teel will leave this evening for Los Angeles, California, where they will visit their son, Roy and wife.

Mrs. C. C. Goeshe of Council Bluffs, Iowa, Mrs. John Lane of Omaha and Miss Florence Harwood of Chicago, arrived in the city Monday to visit Mrs. V. Harwood.

In our store, you can hear the phonograph that substituted for Anna Case—

and astonished all New York in the audacious "Dark-Scene" Test.

Read below what the New York newspapers said of the test. Remember—the marvelous instrument used in New York City was an exact duplicate of the original Official Laboratory Model, which cost Mr. Edison three million dollars in research work. We, too, have an exact duplicate of the famous three million dollar original. We guarantee that it is capable of sustaining all the astonishing tests made on March 10th, at Carnegie Hall, New York City.

Come in and hear this guaranteed Official Laboratory Model. Experience its marvelous realism for yourself. We give Mr. Edison's unique Realism Test.

The NEW EDISON

"A portion of the demonstration was even carried on without the lights, so that no one could see whether Miss Case's lips moved or not. It was all genuinely instructive, and the twinship between Miss Case's singing, and the reproduction thereof, proved so close as to be often indistinguishable."—*New York Globe.*

"When you see and hear Miss Case sing, you can scarcely believe that an art so essentially individual and personal as hers could ever be reproduced mechanically, yet the New Edison has succeeded to the point where the voice in the fluffy pink draperies and the voice in the mahogany box seemed one and the same."—*New York Evening Mail.*

"When the lights were lowered, it was impossible to tell when it was Anna Case, and when it was only her voice that was singing."—*New York Evening Sun.*

The "dark scene" test was positively sensational in its proof of the realism of the New Edison.

Anna Case, the world-famed soprano, stood beside a dignified Chippendale cabinet. She started to sing. Her voice enthralled the audience with its colorful brilliance.

Suddenly the lights went out. Densest black swallowed stage, phonograph and singer.

When you come in, ask about our Budget Plan. It makes the dollar go farther—the New Edison come easier.

"The Phonograph with a Soul"

But Miss Case's voice went smoothly on. It rose to the very heights of its superb artistry.

Then, the lights flashed on!

The audience gasped with astonishment. Case was gone! Her voice had been coming from the New Edison.

Under cover of the darkness, Miss Case had stolen from the platform, leaving the New Edison to continue her song alone. The audience never knew she had gone, till the lights went up.

The exact duplicate of this instrument is here in our store,—waiting to prove its perfect realism to you.
