Tickets Can be Secured From Children Who Are Soliciting
and From the Grocery Stores.
ADULT—\$2.50 CHILDREN'S—\$1.10

DR. SUDHINDRA BOSE OF CALCUTTA, INDIA

Before House Committee on Immigra-
tion.

A short time ago Doctor Sudhinda Bose of Calcutta, India, was sent to Washington as the chairman of a Hindu delegation to speak before the House committee on immigration and naturalization. Although at first given only thirty minutes, he succeeded by the force of his argument, the breadth

and accuracy of his information in arousing such a lively interest in his subject that the committee allowed him to continue his address for over two hours. He is a man who never fails to interest and thrill an American audience and has the distinction of being the only oriental teaching political science in an American state university. His success as a Chautauqua lecturer warranted the committee in securing him for one of our lecturers. He speaks a more sympathetic understanding between the United States and the new Orient, especially India, the land of his birth.

ESSENTIAL POINTS OF ROADS

Concrete Highways Reduce Pull, In-
crease the Load and Shorten
Time of Delivery.

Concrete roads reduce the pull, in-
crease the load and shorten the time—
three essential points in modern
road construction. With the quality
of permanence added, the price paid
becomes an investment instead of a
loss.

BEST FOR MARKETING CROPS

Farmers Enabled to Haul Produce
When Prices are Highest If High-
ways are Improved.

Good roads give a wider choice of
time for marketing crops. If roads
were kept in condition to permit travel
and hauling at all times and in all
kinds of weather, farmers would not
have to rush their produce to market
in seasons of good roads, but could haul
it when prices were highest and when
their crops did not demand attention.

Sun's Imminently.
The sun, which is by no means a
large star, as stars go, could easily
contain within its boundaries the en-
tire earth and moon and the distance
between them, says the Scientific
American. In fact, three systems like
that consisting of earth and moon
could be strung out in a row through
the center of the sun, without coming
within 50,000 miles of his surface on
either side.

DR. HESS FLY- CHASER

Is Guaranteed to give satis-
factory results when used as
directed.

Spray the cows at milking time.

Spray the horses in the morning
and at noon.

The longer it is used the better
the results.

Sold only by
Chas. L. Cotting
The Druggist

The Margin of Safety

Is represented by the amount of
insurance you carry.

Don't lull yourself into a fancied
security.

Because fire has never touched you
it doesn't follow that you're immune
Tomorrow—no today, if you have
time—and you better find time—
come to the office and we'll write
a policy on your house, furniture,
store or merchandise.
