COLLINS AND HARLAN COMING TO RED CLOUD

Collins and Harlan, America's favorite entertainers are coming to Red Cloud.

Announcement is made that those amusing singers, Collins and Harlan, are scheduled for a concert at the Besse Auditorium on the night of September 17.

Collins and Harlan have earned the reputation of being America's favorite entertainers, because of their astonishing repertoire of humorous song.

Neither Arthur Collins nor Byron G. Harlan started out to enter their present career. Mr. Collins was going to be an actor. What if his ancestors were all Quakers! That was nothing compared with the longing he had, actually to make his appearance behind the footlights.

So he left his home in Philadelphia and journeyed to New York—as they all do. And then he became a successful opera singer and got a real job with DeWolf Hopper in "Wang." Mr. Collins also appeared in "The Lion Tamer" with Francis Wilson. It was after that, that he met with Byron G. Harlan and the two decided to combine their talents.

Mr. Harlan is one of those famous people from Kansas. Nearly all the celebrities there are, come from Kansas upon a time. But Mr. Harlan's family early emigrated to South Dakota, where his boyhood was passed. Unlike Mr. Collins, Byron G. Harlan never meant to be an actor at all. But he did have a beautiful voice and so he decided to go to a great city and cultivate it. In this case the great city was Chicago. And there Mr. Harlan began his stage career with an engagement in an opera company. After that he appeared in "A Texas Steer."

Having seen the inside workings of a theatre and having also met Mr. Arthur Collins, Harlan decided he had enough of being "just an actor." So he started a company of his own and became a producer himself.

You can hear these two noted singers at the Besse Auditorium on the evening of September 17th.

May Shed Its Arm at Will

A starfish may jerk off each of its five arms set in succession; it may cast off an injured or parasitized arm; in rare cases there is multiplication by division. Sea cucumbers discharge their viscera in the spasms of capture and may thus escape from an astonished foe. The replacement of the food canal is sometimes accomplished in ten days, though it may take as many weeks.

Great American.

On the 20th of January, in 1734, Robert Morris, the first great American financier, was born in England. He came to America at an early age and became an ardent patriot. During the war of the Revolution he devoted all his talents to the American cause.

Big Bill Hart and Wanda Hawley in The Border Wireless

William S. Hart, peerless portrayer of strong virile Western roles, made a distinct hit in his new Artercraft photoplay, "The Border Wireless." The picture, which was directed by Mr. Hart under the supervision of Thomas H. Ince, is intensely dramatic and of that Hart type which is bound to attract widespread and favorable comment.

Steve Ransom, a brave Westerner, becomes a bandit in revenge for the death of his aged parents who die of grief when they are deprived of their ranch through the dishonesty of a railroad corporation in Wyoming. He commits several daring robberies at railroad stations and soon is an outlaw with a price upon his head. He assumes the name of Allen and goes to Yellow Dog, near the Mexican border, where he rescues Elsa Miller, a telegraph operator, from a band of Mexican bandits, who attack her as she is delivering a message to the Magdalena Mines.

Their love is mutual. Steve is intensely patriotic and when the United States declares war against Germany, he decides to go to Fort Scott and enlist. He meets Herman Brandt and Frederick Schloss, two Hun spies, whose headquarters are located at the abandoned Magdalena Mines and when Brandt makes disparaging remarks against the United States, Steve forces him to kiss the American flag.

Brandt causes Steve's shack to be searched and evidence is found revealing Steve's identity and the fact that he is a fugitive from justice. Brandt learns that Steve has gone to Fort Scott and he telegraphs the facts to the Commandant of the fort with the request that Steve be arrested. Steve escapes and with the aid of Elsa runs down the spies, destroys the wireless plant, and for his services he is pardoned. He and Elsa then plight their troth. The support is excellent, the portrayal of Elsa by Wanda Hawley being most artistic.

Spend wisely - and own

The NEW EDISON
"The Phonograph with a Soul"

There's a way of spending money that spreads incomes over bigger "sandwiches."

Big business calls it financing.
Government calls it budget-making.
We call it the **Budget Plan**.

Would you like to own a New Edison?

Our Budget Plan will show you how to "swing" the purchase, without cutting in on your present necessary expenditures.

Now is a good time to buy. The New Edison has advanced in price less than 15% since 1914; this includes War Tax. Mr. Edison has kept prices down by absorbing increased costs out of his own pocket.
