How Did It Happen?

Well it is this way, there is a chance for every man that has any energy what ever, to get a home, come and see us. We have about fifteen (15) farms to offer as follows, Improved and unimproved ones, will take Crop payments after the first payment is made.

These farms are located in the best part of the West and we think this is a much better plan for you Mr. Renter. Buy one of these farms where you can pay out for it, the same as paying rent and you will own your own home. We know of men that have paid out for their land that way in three years, why not you try and get one the same way.

We give free transportation, for to go and see these farms, when the roads are so we can travel over them safely.

Now is the time for you to get the best proposition we ever found in land, if you are interested come in and see us and talk it over. We will sure get you a good buy if you will come and ride out with us.

We have other good buys of all kinds. Please remember the address.

The Edison Policy

THE prices of the New Edison, "The Phonograph With a Soul," have increased less than 15% since 1914. A large share of this increase is War Tax.

Edison sacrificed millions of dollars in profits, which he might have made. Why and how he did this are explained in the circular, "What Did Edison Do During the War?" Call, or write, for a copy of this interesting circular.

Should the government increase the Excise Tax on Phonographs, it will be necessary to increase the price of the New Edison. We hope that no additional tax will be placed upon music, which Napoleon said "is the art to which legislators ought to give the greatest encouragement."

Even without an additional Tax, the Edison Manufacturing Laboratories would have had to increase their selling prices, if they had not been able to maintain a full time operation in their Phonograph Works. Accordingly, they worked full force, until the close of the year, and are now shut down temporarily, while Edison dealers, such as ourselves, are preparing their orders for 1921.

Their will be no increase in Edison prices, if it can be avoided. On the other hand, we guarantee that the selling prices of the New Edison, in 1921, will not be reduced.

The manufacture of Edison Re-Creations is being increased, and a special department is being installed for the rapid manufacture of timely selections.

Ask your banker about the Edison policy, whereby you are able to buy a before-the-war value with an after-the-war dollar.

To the Citizens of Red Cloud

Do you believe an evil mind can hypnotize a good man to do a sinful deed? George Clayton believed that God's will, and not man's, was always supreme, even in a hypnotic trance.

As an experiment at the society party he allowed himself to be hypnotized.

While under spell, the hypnotist whispered in his ear, "One hour before dawn you will kill Harrison Kirke, the man who insulted the girl you love."

Strangely enough, the next morning Kirke was found killed.

What happened One Hour Before Dawn?

What part did the girl play?

Frankly, we believe it's the most startling screen sensation since "The Thirteenth Chair". It's as mysterious

as a woman's heart, and as weird as the tales of Edgar Allan Poe. It's an entrancing play, an absorbing romance, and it's fittingly and forcefully played by H. B. Warrick, that dignified star, who is ably assisted by Anna Q. Nilsson.
