Campbell and Ira Wagoner, Membership Com-

Eugene Sullivan of the State Federation gave one of his good talks on Farm Bureau and assisted with the organization.

HENRY R. FAUSH, County Agricultural Agent

NEBRASKA FARM BUREAU

NEWS NOTES A government veterinarian has been placed at Aurora, Neb. through the action of the farm bureau. His territory will be Hamilton, York and Polk counties at present. If enough farmers sign up to have their herds tested he will be retained permanently. Over 100 head of cattle have already been listed and 15 applications are still in the hands of the farmers. It is thought that a total of 200 or 300 head will be reached. The cattle are tested for tuberculosis free of charge, no matter whether the farmer owns one head or 100 head.'

At the sixth annual meeting of the Illinois farm bureau a membership of 106,000 was reported. Each member signs up for three years and pays \$15 a year dues, \$10 of which goes to the county and \$5 to the state. D. O. Thompson, secretary, reported that in order to make the work of the federation more effective it has been necessary to create several working departments as follows: organization, executive, publicity, finance, general office, claim and service, legal, phosphate-limestone, live stock, mar- to serve. keting, crops, and dairy and vegetable marketing.

Sam Guard, associate editor of the Breeders Gazette, has joined the forces of the American Farm Bureau federation, as director of the publicity and educational departments. R. C. Pollock, formerly with the extension department of the national Holstein-Friesian association, has accepted an appointment in the organization department and has left for Arizona, where he will be in charge of an intensive membership campaign. Mr. Pollock graduated from the agricultural college at Ames, Iowa, and was associated in county agent work the Holstein association.

C. A. Eiker, president of the Keith county farm bureau, has the distinction of being the "bee king" of Nebraska. At present he has thirty miles of bee stands distributed up and down the South Platte river, Last year he secured something over 20,-000 pounds of honey and hopes to exceed this amount the coming sea-son due to favorable conditions. The honey is brought from the different points along the river to the Eiker refinery where it is strained and made ready for shipment. The work is done by machinery run by electric-

According to announcement made this week by J. A. Crawford, manaties canvassed to date will exceed 20,000 with several precincts yet to be completed. Work during the past month has been handicapped by impassable roads but the work has been continued with a full number of soicitors in the field. The schedule has been made out until the first of having expressed a desire to carry on a campaign.

the American Farm Bureau Federa-tion to investigate livestock marketing conditions, will meet in Chicago February 25. The will be the initial meeting of this committee and will Js Your Subscription Paid to Date?

HIGH SPEED FREIGHT ENGINES FOR THE BURLINGTON

Sixteen Mikado-type 2-8-2 (socalled) locomotives, especially designed for fast freight service have been delivered to the C. B. & Q. R. R. by the Baldwin Locomotive Works. Philadelphia, Pa.

Weighing upwards of 240 tons each, ready for road duty and standing 78 feet, 4 inches long overall, these engines were built to "deliver" live stock, fruit and perishable freight in record-breaking fashion.

An unusual idea introduced into their construction is that some of these locomotives are built to burn bituminous coal and others are designed to use lignite coal. Burlington experts having found it cheaper to do this than to haul other coal from foreign fields, these engines have been built to suit the coal found on the particular divisions on which they are

The high cost of engines at once comes home to one, when it is learned that each of the "speed boys" cost the pretty sum of \$68,750, as against the pre-war price of \$20,000 for similar engines.

Amendment to the Constitution of the Farmers Union Co-Operative Assoclation of Red Cloud, Nebraska.

Article 6. Dividends:

(a) Out of the net earnings of the Association Ten (10) per cent shall be set aside as a sinking fund and that this money shall not be used for buying stock, and shall not exbefore taking up his activities with ceed to percent of the paid up Capital and eight (8) per cent shall be paid on the paid up capital stock; the remainder of the net earnings shall be divided pro rata among earnings shall be divided pro rata among those customers who are Union members, in proportion to their patronage, upon the basis of products sold to and goods bought from the Association.

(4) Dividends shall be declared in the following classes: First, upon goods purchased by a Union member and his family; Second, upon products sold to the Association by such classes of persons; Third, dividends aris' ing out of collective operations. (c) Dividends shall be paid annually.

(d) The dividends of non-stockholders eligible for membership and stockholders who have not fully paid for at least Ten shares of stock shall be held by the Association as a payment on the shares of stock until Ten shares are fully paid. If such nonstockholders shall neglect to comply with the requirements for membership within ger of the membership campaign in Nebraska, the total in the 29 coundividend, such dividends shall revert to the surplus fund of the Association. Passed January 20, 1921.

H. H Crowell, President. John M. Ryan, Secretary.

Early Savinge Banks, The first savings bank in America was opened in Boston 104 years ago, the month with several other counties December 13, 1816. In the same year an institution called the Philadelphia Savings Fund society was established. The third institution of this kind in The Committee of 15, appointed by America was founded in New York in 1819. The first regular savings bank was established in Hamburg in 1778 and the second at Berne, Switzerland, in 1787. The oldest savings bank in the world is in Zurich, Switzeropened in Edinburgh 107 years ago.
