MORE TRUTH THAN POETRY

Some of us are famous farmers, raising stuff to beat the land, selling stock to Swift's and Armour's; blowing in our dough for land. We have studied crop rotation, fertilizers, conservation; all the questions of the nation we profess to understand, but the greatest crop we're raising is the one we most neglect—that's our crop of boys—amazing that we pause not to reflect that we can not always tarry, and that some day Tom and Harry, must our present burdens carry, carry ably, or rejecting. Are we training up our laddies so they'll love the dear old farm; will the home steads of their daddies hold for them a potent charm? Or a tendency to wander, and their precious youth to squander in the towns and cities yonder, are we viewing with alarm? Bill Jink says he never fritters any of his time in play. Just such blooming hide-bound critters help to drive the boys away. Growing lads for pleasure's hanker, be they sons of bum or banker; give them those in which no canker lurks to mar a coming day. Give them of the things you treasure, blooded calves, a bit of land; time to take a fuller measure of the joys of every land. We can keep our sons, or lose them; better ways

they'll see and choose them, if we our chances see and use them just to help them understand.—By M. C. Cornelius.

County School Notes

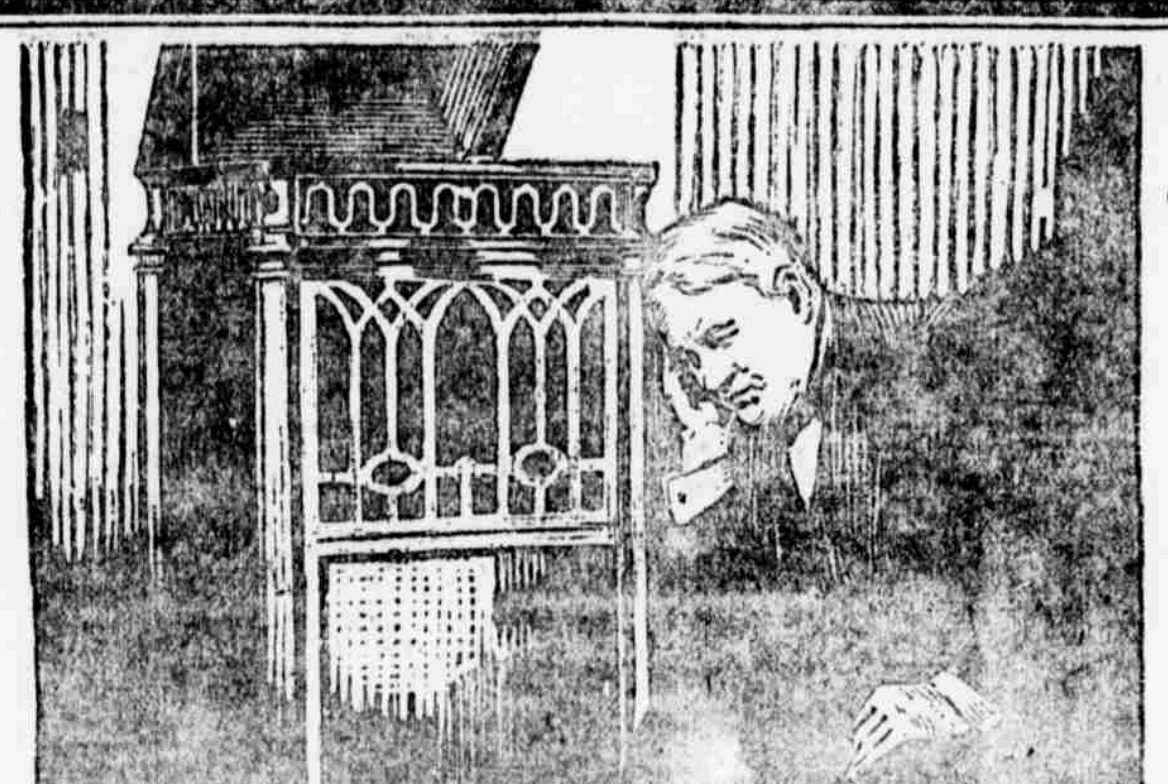

(By County Superintendent)

gency certificates at this time for the coming year and do not expect to issue any until the schools have opened next fall and then only on proper application and a showing made on a blank provided by this department that an actual emergency exists and the applicant is qualified for the position. This new law authorizes the issuance of an emergency certificate or to revoke an emergency certificate if the holder does not comply with the provisions on which it was granted. To be on the safe side we are urging teachers to put forth every effort by study at home and summer school attendance to secure the regular certificate if they desire to teach next year. It shall be our purpose to keep down the issuance of emergency certificates to the lowest minimum possible.

House Roll 102. This act determines length of term in all school districts and provides state aid for weak districts. It provides six months school in districts having less than 10 children who are 7 years old and under 16; and 9 months in districts having 10 or more children who are 7 and under 16. In districts having less than 5 children 7 years old and under 16 the school board may use funds for board, transportation and other expenses of such children while attending school in another district. Districts must levy 40 mills to be eligible to state aid and if said levy, plus the amount on hand and estimated amount to be received from school apportionment, does not amount to \$700 in districts where there are 5 and less than 10 children of the above named ages will receive as state aid the difference between \$1000 and the amount they can raise by 40 mill levy supplemented by school 10 children of these ages shall receive as state aid the difference between \$1125 for each child of said ages and the amount they can raise locally as above indicated. County superintendents are urged to immediately notify district boards desiring state aid that they must levy 40 mills, and notice of higher levy must be given in accordance with S. F. 220. It will be necessary for districts desiring state aid to levy for general school purposes an amount in dollars that shall be equal to forty mills on the last completed assessed valuation of the school district. To vote more than 35 mills for general purposes Senate File 220, now in force, provides for a twenty day notice in a newspaper and requires a sixty per cent vote. The higher levy may be voted at the annual meeting or at a special meeting called for the purpose upon proper notice. Should this be done at a special meeting it should be held in time to certify the levy to the county clerk before his books are closed.

We are very much pleased with our normal training appropriation of \$224,775 which we think will be adequate to give aid during the school years of 1921-1922 and 1922-1923 to all the schools that meet our requirements for approval. Superintendents and school officers of normal training high schools should exercise the greatest care in meeting the required regulations if they desire the aid.

Study This Picture! Know What It Means?

It means that famous vocalists and instrumentalists have compared their performances with the RE-CREATION of those performances by the New Edison. It means that there is no difference between the living performance and the RE-CREATED performance. It means that only the New Edison gives music exactly as great artists give it,—for only the New Edison sustains this test of direct comparison. (The New Edison also plays all makes of talking machine records,—and plays them better.)

"The Phonograph with a Soul"

Why the Snort.

We sat in front of them at the theater. It was during the tense minutes of the play when the heroine was about to part forever with her sweet heart: "Say," said the woman behind us to her friend: "Do you break many dishes? You know I'm awfully unlucky that way."—Detroit Free Press.

Chinese Family Relations.

There is no such species as the "old maid" in China. The lot of the concubine is not, generally speaking, hard; and the position is respectable. A concubine is ordinarily taken in default of issue from the wife. The children of concubines are legitimate. A man would not dare to brace public opinion or the wrath of his wife and her relations by taking a concubine against his wife's wishes. Father and mother are equally venerable in the eyes of the child; the father is "the stern one" and the mother "the gentle one," but both are notoriously indulgent to their children.
