Mrs. Minnie Stansbury departed Thursday morning for Creston, Iowa, where she will visit relatives.

NEBRASKA'S NEW LENS LAW

TO BE ENFORCED JULY 23 Nebraska's new lens law which was passed by the 1921 session of the Legislature has for its primary object, the elimination of the Glaring Headlight. In complying with the law, and in order to realize the primary object of the law, the State Department of Public Works has taken into consideration two main points. These are: 1.—The light must be properly controlled. 2.—The light must be sufficient for safe driving and to illuminate objects which are at least 200 feet ahead of the car. The glare of the headlight cannot be eliminated by dimmers, and these are neither required nor recommended. Focusing alone will correct this. What is focusing? It must not be confused with tilting. Focusing is a bulb in placing it in the correct position in the headlight with respect to the reflector. Tilting is the bending of the headlight itself so that the rays of light are parallel, and are inclined toward the ground at the proper angle. Unless the bulb is in the correct position in the reflector, the headlight will not give out the proper amount of light nor will the rays go in the proper direction. The all important requirement, therefore, before a legal lens has been placed on the car, is the focusing of or adjustment of the bulb. A car driven 30 miles per hour, the average speed rate in the open country, will cover 200 feet in 4 and 1/2 seconds. The driving light, therefore, to protect the driver, must be strong enough to sufficiently illuminate objects at least 200 feet ahead. The lenses thus far approved by the Department of Public Works meet these requirements, but no lens which has been approved will be legal unless the bulb is properly focused and the headlight properly tilted.

Married

Ralph Chaplin, son of Mr. and Mrs. I. J. Chaplin of Cowles, and Miss Vesta M. Hubatka, daughter of Mr. and Mrs. James Hubatka of Bladen, were united in marriage by the county judge at Franklin last week.

EDUCATION that PAYS, taught by Actual Practice from the start, in Nebraska's Oldest, Largest and Leading Business Training School. Positions guaranteed or tuition refunded. Thirty-eight years of faithful service. Send for catalogue. Grand Island Business College, Grand Island, Neb.

The enrollment in boys and girls clubs over the state now numbers more than 4,000. Eleven kinds of clubs have been formed for the purpose of interesting boys and girls in farming, stock raising and home-making. The clubs and their enrollment on June 15 follow: Calf, 167; canning, 87; cooking 584; corn, 23; garden, 241; garment, 753; pig, 1,109; potato, 15; poultry, 820; rabbit, 10; sheep, 11. Each club has a local leader to direct the work. Lessons provided by the College of Agriculture are studied and various methods discussed at the club meetings. The juniors learn in main by doing the actual work, however. At the end of the season each club member writes a story of how he or she did their work. Each club member also keeps an accurate financial record and reports on the profit or loss of the project. The purpose of the boys and girls club work is to interest the juniors in country life and better methods of farming and housekeeping.

GRACE CHURCH NOTES

7th Sunday After Trinity Sunday School at 10 a. m. Morning Service at 11 a. m. On Thursday last nearly eighty communicants and friends of the church including the Sunday School and Boys Club had a fine picnic at the farms of Mr. John B. Stanser and Mr. George Amaek. The event took place in a nice grove where our hosts had trimmed the low branches and carefully raked the ground. The Ladies' Guild looked after the refreshments and also the transportation. All arrangements were admirably handled and everybody had a good time. Mr. Hardman wishes to take this opportunity of thanking all those who helped to make the picnic so successful, most heartily.

There's No Place Like Colorado After All Colorado is as big as all New England, with Indiana added; two thirds is mountainous—100,000 square miles contain 155 peaks that are more than 13,000 feet high. Within the state there are 500 lakes—large and small; 6,000 miles of running water, born of snow and filled with fish. Mineral springs abound—no one knows how many there are. Every railroad line is an excursion line. Motor highways radiate in all directions. Obviously, in such a region, vacation possibilities are unlimited; hence the term, "The Playground of the Nation." Where to go? There are a thousand different places. In two hours from the haunts of civilization, where splendid hotels, dancing, music and golf reign supreme, back to the wildest untamed mountain fastness, where the silence is broken only by plunging waterfalls, the songs of birds or the splash of trout. When to go? Any time! This summer when seeking escape from the dust and heat, go out under that magnificent cool, blue Colorado sky. Get the tang of the mountain air in your nostrils—the fragrance of the flowers and the spicy smell of pine. How to go? Just climb aboard a Burlington limited. "There's no place like Colorado, After All!" Suppose you come in and we'll talk over your summer vacation-recreation plans.
