CROWDS FORGET HEAT WHILE SKYLARK SINGS

The following is an extract from the Des Moines Register of Tuesday morning, June 16th., reporting Madame Yaw's appearance before the big Shrine Conclave.

"With a group of old favorites in addition to her favorite Skylark song, Madame Ellen Beach Yaw led her audience at the Arabian Way yesterday afternoon to forgetfulness of the glaring, sunlight, the ninety degree heat, and even the ardor of their spirit of revelry.

"She sang 'Dixie', 'Carry Me Back to Old Virginia' and 'The Last Rose of Summer' and the audience riotously applauded. The bell song from 'Larkme' by Pellibes, and the 'Laughing Song' by Auber were sung, but last of all, of course, was the song for which she is famed—'The Skylark'. Miss Lenore Mudge played her accompaniments.

"Although many crowded close about the stand where she stood, in order to hear her, it was not necessary to be near for her clear lyric tones reached the farthest corners of the grandstand. The Skylark number, her own composition, proved all that it had been heralded, showing to the best advantage the unusual range of her voice.

"Her voice is as sweet as it is remarkable, and the ease with which she retains the high notes and juggles them in birdlike trills is perhaps the greatest of her accomplishments.

"Madame Yaw instantly won her audience by the smiling friendliness with which she greeted them. Clad in cool black and white relieved by a huge bunch of pink roses which presented the Shriner's compliments, she made an attractive picture as she mounted to the platform. She waved to her audience with the informality proper for Shriner week and they cheered her extravagantly in return.

"The sun shone with intense heat at the 1:30 hour for which the concert was scheduled, but it daunted neither the singer nor her enthusiastic audience."

THE NEW REGULATIONS ARE TO BE ENFORCED

The following regulations have been issued by the State Department of Public Works and police officials have been asked to see that they are enforced on and after July 23rd:

1. Two white lights are required on the front and one red light on the rear of every automobile used at night.
2. Spot lights may be used provided they project their light directly on the ground and at a distance not exceeding 30 feet in front of the car.
3. Diffusing lenses will not be approved by the Department and their use is prohibited. It is impossible with a lens of this type to control the light so that with a sufficient driving light, there will be no glare. Examples of diffusing lenses are: Warner, More-Light and Perfection.
4. Gas or oil lamps need not be equipped with approved lenses.
5. Electrical headlights using a bulb of more than 4 candle power must be equipped with an approved lens. No bulb shall be over 24 candle power.
6. Plain glass lenses will not be permitted, even though they are in a headlight which may be tilted by means of a lever controlled from the driver's seat.
7. Homemade devices will be prohibited. While these devices to a certain extent eliminate glare, the driving light as a rule is reduced below the required minimum. Under the law, the Department of Public Works is required to approve every lens used, and if homemade lenses were submitted for approval by every one making them, the fee for the examination of the lens would be prohibitive for those desiring to use them.

The Standard Ford Green Visor headlamp has been scientifically designed and is machine made, and in the test has passed all of the requirements.

9. Frosted bulbs are prohibited. With a lawful lens, they are not necessary.

Oliver Powell was in Hastings Monday afternoon.

Dr. R. V. Nicholson

DENTIST

Red Cloud Nebraska

See Dr. Warrick Wednesday, July 27.

Roy Tait of Lincoln was in the city today.

Sunday—Marchenico cherry ice cream for sale at Powell & Pope's. 60c a qt.

The Wild Animal Republic

--a real Democracy in Yellowstone Park

The world's greatest wild animal refuge is Yellowstone Park. There the rarest and noblest of American big game lives its old wild life. You who love the wild, see its creatures in their natural haunts.

Lordly elk roam the pasture lands; bison still graze the plains; the vanishing big horn pose against the sky; the graceful antelope may still be seen fleet—shadowy; the wise beaver plies his age old trade; the big and little bears clown and make friends with you.

To Wild Animal-land through Gardiner gateway

Nowhere else in all the world besides can you find Nature so spectacular. Geysers spurting, gem-tinted hot springs bubbling, thundering cataracts, the indescribable glory of the Grand Canyon! Fresh wonders thrill you a hundred times a day in Yellowstone.

Out Cody Road

See Cody, Wyoming, "Buffalo Bill's" home town; stupendous Shoshone Canyon and the gigantic Government dam, higher than the New York Flatiron Building. Motor over this "Most wonderful 90 miles in America"—without side trips or extra cost.

Then to Colorado; Denver—the gateway to Colorado's "Land Among the Clouds," where numerous and varied side trips await the taking (Rocky Mountain National-Estes Park—refuge of peaceful tranquility and exquisite beauty, an easy side irip).

Burlington Planned Vacations offer you the regular tour of Yellowstone plus all this—in one trip. Come in and let me tell you more about it and help you plan.
