

# TELL 'EM TO SEE ME, SAYS TOWNS

Every Time I Sit Down to a Juicy Steak Now I Give Thanks to Tanlac, He Declares.

"Every time I sit down to a juicy steak now I give thanks to Tanlac for taking me off that milk and mush diet I had to live on for a year," said Joseph R. Towns, the well-known and popular proprietor of the Sanitary Meat Market, of Marshall, Mich. "I had stomach trouble of the worst sort and was going down hill so fast I thought I would have to give up my business. I was so nervous and worried I dreaded to see night come, as it meant little for me and then in the morning I was so fugged out I dreaded to go to my market. "The money I spent for Tanlac was the best investment I ever made. I never dreamed a medicine could do the work it did for me. Three bottles was all I needed to make me as sound as a dollar. I never felt better or more like working in my life than I do right now. I eat anything I want, my stomach is in good shape and I am brimful of energy. I sleep all night without turning over and get up in the morning as happy as a boy. "Not only has Tanlac made me feel fit and fine, but I have also gained twenty-five pounds in weight. If anybody wants to know more about what I think of Tanlac let them come to me and I will be glad to tell them. Tanlac is sold by leading druggists everywhere.—Advertisement.

### Inquisitive Lillian.

Lillian, four years old, has attended Sunday school and heard some things she does not understand. Lillian said: "Mother, what is the soul?" Mother replied: "Child, the soul is the mind, the part of you that thinks." There was silence for a little bit and then Lillian said: "Mother, how will God get things fastened on to the mind?" Mother did not answer. After a short silence Lillian said: "Mother, is God and central the same?" By this time father had begun to take notice and answered: "Not in our town."

## WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do. Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends. Be sure to get Swamp-Root and start treatment at once. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.

### Got Them, Anyway.

The eccentricities of scientists are like those of artists, says Dr. Charles F. Baldwin of the United States public health service. There is, for instance, the classic example of Dr. Elie Metchnikoff of the Pasteur Institute, who became famous for the discovery of the so-called bacillus of long life, the microbe which makes buttermilk sour. "The doctor was, quite naturally, very particular about grapes and he was so careful that he washed each grape separately in his water glass. Then he drank the water in which he had washed them.—Philadelphia Ledger.

**Important to Mothers**  
Examine carefully every bottle of CASTORIA. That famous old remedy for infants and children, and see that it bears the signature of *Dr. J. C. Fletcher* in use for over 30 years. Children Cry for Fletcher's Castoria.

### The Connecting Link.

One of the instructors in a preparatory school which professes to tutor youths desirous of entering college recently had an interesting time with a lad who was tackling biology. "What," asked the tutor, "is the connecting link, if any, between the animal and the vegetable kingdoms?" "I think I know," said the boy. "It's fish!"

### A Lady of Distinction

As recognized by the delicate fascinating influence of the perfume she uses. A bath with Cuticura Soap and hot water to thoroughly cleanse the pores, followed by a dusting with Cuticura Talcum powder usually means a clear, sweet, healthy skin.

### A Mixed Metaphor.

Speaking of mixed metaphors—an ex-doughboy was relating his experience somewhere over there. "I'll say it was some battle. I was up in the air for the time being with my back against the wall, but I resolved to die in the ditch rather than yield an inch, so I continued to advance regardless of the Jerries who were pressing me from the rear."—Hartford Times.

## WEIGHTY POINTS ON ALFALFA HAY

Some Important Factors Cited That Help to Determine Market Prices of Product.

### SIZE AND WEIGHT OF BALES

Inspection Service Varies Considerably at Different Centers—Few Bales of Off-Grade Hay Will Hurt Grade of Car.

(Prepared by the United States Department of Agriculture.)

Probably the greatest gathering of boys in the history of club work will take place at Atlanta, Ga., October 19 to 21, 1921, when club boys representing practically every section of the United States will take part in an international club judging contest. The seven winners in this contest will be given a trip to the English royal stock show, and hundreds of dollars will be distributed as additional prizes. This contest is under the supervision of club leaders representing the state

**Size and Weight of Bale.**  
The preference for bales of a certain size and weight is so marked in some of the important markets that premiums ranging from 50 cents to \$2 per ton are paid for bales of the size and weight desired. Bales may be roughly classed as small, medium and large in size. The small and medium sizes are sometimes designated as one-quarter and one-third bales. The small bales are made in a perpetual press and are 14 or 16 by 18 inches, variable in length but usually about 30 inches long. Medium bales are also made in a perpetual press and are 17 or 18 by 22 inches and about 30 inches long. Large bales are usually made in box presses and are about 19 by 23 by 46 inches.

The weight varies considerably, even though the bales are of the same size, as hay is pressed under varying conditions and by balers having a wide range in tension. According to the department's marketing specialists hay should be pressed sufficiently tight that the wires will hold well, and so that the required weights can be loaded into cars. Difficulty is experienced in some sections in loading cars to the minimum weight, because the hay is pressed too loosely.

The character of the inspection service varies considerably in different markets. Besides the various

agricultural colleges and the United States Department of Agriculture. Many club leaders and members are showing an interest in the contest and have expressed their willingness to send judging teams. The team from Texas, which defeated the entire field last year, is now completing preparations for the trip to Europe. That state will be represented again at the contest in Atlanta, but this year there will be more competition, for teams from Mississippi, Louisiana, Virginia, Oklahoma, Florida, Arkansas, Alabama, Kentucky, North Carolina and South Carolina are preparing to enter. Several other states in the North and West have signified their willingness to send teams to the contest if suitable arrangements can be made.

**VALUE OF DOCKAGE IN WHEAT**  
Material Sometimes Contains Quantities of Nutritious Grain, Good for Farm Use.

Dockage found in wheat in some instances is of real value, while in others it not only may have no value but often may contain ingredients that are positively harmful if ground with the wheat, say specialists of the United States Department of Agriculture. The value of dockage, therefore, depends on the value of the material separated from the wheat. Dockage frequently contains quantities of nutritious grain and weed seeds, as flaxseed, wild oats, or other cereal grains. Much of this material can be used to good advantage as poultry or stock feed. Wild mustard and flaxseed can be removed from the dockage in practically a pure state by the use of special cleaning machinery, such as is sometimes found in terminal elevators and the larger flour mills, but even then the cost of cleaning will be considerable, and when so separated will ordinarily command a fair price.

Under the dockage system of the federal standards, the amount of foreign material separated and considered as dockage is deducted from the weight of the wheat purchased and, in any event, does not affect the grade of the clean wheat. This results in a higher grade and the price paid is on the basis of this grade for the dockage-free wheat.

**CULLING OF CHICKEN FLOCKS**  
One Virginia Farmer Reports Selling Fowls to Amount of \$70 Without Lessening Eggs.

Good reports continue to come into the county agent at Smyth county, Va., from those who have taken advantage of the poultry-culling work given by him. There is still a great demand for information concerning the culling of flocks. One farmer reports that he sold chickens amounting to \$70 without reducing his egg production at all. Another reports that he sold poultry amounting to \$72.50 and is now getting just as many eggs as before.

### LESSON FOR AUGUST 14

PAUL IN ICONIUM AND LYSTRA.

LESSON TEXT—Acts 14:1-23. GOLDEN TEXT—Thou shalt worship the Lord thy God, and Him only shalt thou serve.—Matt. 4:10. REFERENCE MATERIAL—Matthew 30:16-18. PRIMARY TOPIC—Paul Heals a Cripple. JUNIOR TOPIC—Paul's Narrow Escape at Lystra. INTERMEDIATE AND SENIOR TOPIC—Early Adventures in Asia Minor. YOUNG PEOPLE AND ADULT TOPIC—Examples of Paul's Missionary Methods.

### I. Paul and Barnabas Preaching at Iconium (vv. 1-7).

As to their work in Iconium observe: 1. Their manner of preaching. This is suggested by the little word "so" in verse 1. They "so" spoke that a great multitude believed. They were true preachers. Only that which brings conviction of sin and induces decision for Christ can be truly said to be preaching in the biblical sense. The same is true of the Sunday school teacher. Let every Sunday school teacher at all times have as his supreme aim to bear the gospel of Christ so as to induce decision for Christ.

2. Their attitude toward opposition. This is suggested by the word "therefore" in verse 3. "Long time therefore they tarried." The opposition did not prevent their preaching, but incited them to continue preaching. Christian workers should learn not to give up work because of opposition.

3. The Lord accompanied their preaching with miracles (v. 3). Since the opposition was so fierce, special help of the Lord was needed. 4. The effect of their preaching (v. 4). The multitude of the city was divided. Where men faithfully preach the gospel there will be division.

### II. Attempt to Worship Paul and Barnabas as Gods (vv. 8-18).

1. The occasion (vv. 8-10)—the healing of the lame man. God's gracious power exhibited in healing this lame man occasioned a new difficulty. That which ought to have been a help was turned into a hindrance. The man was a confirmed cripple. He had never walked. He heard Paul's preaching, which caused faith to be born in his heart (Rom. 10:17). When Paul perceived that he trusted Christ, he called with a loud voice that all could hear for the man to stand upright. The cure was instant, for he leaped up and walked (v. 10). There was no magnetic touch, no treatment, only the command, and the naturally impossible became the possible and the real.

2. The method (vv. 11-13). They called Barnabas Jupiter and Paul Mercury, because he was the chief speaker. The priest of Jupiter brought oxen and garlands ready to offer sacrifices unto those men (v. 11). If they had only known, in the person of Jesus Christ God had actually appeared to men (John 1:14; Phil. 2:7, 8).

3. Their efforts frustrated (vv. 14-18). This foolish act was happily averted by the tact of the apostles, as exhibited in the address of the occasion. (1) They deny that they are divine beings and declare that to worship beings with like passion to themselves is criminal. (2) They direct them to turn away from these vain things unto the living God who made heaven and earth and has ever left witness of Himself in that He has always done good, giving rain and fruitful seasons, filling their hearts with gladness.

III. The Stoning of Paul (vv. 19-22). Wicked Jews from Antioch and Iconium pursued Paul with relentless hate to this place, where they stirred up the very people who were willing to worship them a little while ago. This shows that satanic worship can soon be turned into satanic hate. This hatred took form in stoning Paul and dragging him out of the city for dead. God raised him up, and with undaunted courage he pressed on with his duties as a missionary bearing the good tidings to the lost.

Soon after this Paul turned back and revisited the places where he had preached, telling them that through great tribulation they must enter into the kingdom of God. IV. The Organization of Churches in the Field (vv. 23-28). Evangelization with Paul did not mean a hasty and superficial preaching of the gospel but the establishment of a permanent work. Elders were appointed in every church. The work of the missionary is not done until there are established on the field self-governing and self-propagating churches.

What is Man? What is man that thou shouldst magnify him? and that thou shouldst set thine heart upon him? and that thou shouldst visit him every morning, and try him every moment?—Job 7:17, 18.

The Dwelling Place of the Lord. Then said Solomon, the Lord hath said that he would dwell in the thick darkness. But I have built a house of habitation for thee, and a place for thy dwelling forever.—II Chronicles 4:1, 2.
