**It is EASY to wash PYREX**

Nothing can adhere to its hard, odor-proof, grease-proof surface. It is easy to keep clean for it will not chip, craze, bend, dent or discolor and always remains new.

PYREX is the original—the first transparent oven-ware and is guaranteed not to break in actual oven-use.

PYREX is made in shapes and sizes for every practical baking purpose. It is a saver of time, fuel and dishwashing drudgery.

**Peterson Implement Store at Cowles Destroyed by Fire**

On Sunday morning, about 5:30 o'clock a fire of unknown origin broke out in the old Gilford building at Cowles, which was occupied by the Peterson Implement house, completely destroying the building and contents. Horace Morse was in charge of the implement store and Mr. Peterson carried insurance on his stock, but as the books were destroyed he is unable to determine exactly the loss sustained. The blacksmith shop adjoining, which was conducted by I. V. Barnes, was also destroyed. Jim McBride owned both buildings and the blacksmith tools on which he carried insurance.

**Former Red Cloud Woman Author To Appear in Omaha**

Willis Cather, author, who, in the opinion of many critics, has no peer among writers of fiction today, will appear in Omaha before the Fine Arts society late in October.

An Omaha audience will have particular pleasure in hearing Miss Cather, for she is a Nebraska woman. She has lived in New York many years but still calls Red Cloud her Nebraska home.

It was Sinclair Lewis who prodded Omaha on Miss Cather's books. In his lecture last season before the Fine Arts society he referred in superlative terms to "Youth and the bright Medusa," "My Antonia" and other works of this gifted woman.—Omaha Sunday Bee.

**Successful County Fair**

The Webster County Fair, held at Bladen, which ended last Friday is generally conceded to have been one of the best ever held in the County. Great interest was taken in making a credible showing in the agricultural, live stock, poultry, and domestic art and science departments, and many of the exhibits were really wonderful, giving unquestionable evidence of the vast resources of the country. The fine school exhibits attracted considerable attention and reflected great credit on those interested in the educational advancement of the country who were responsible for the display.

The ball games were a pleasing attraction. Plainview and Holstein played the first day resulting in a victory for the latter of 10 to 2. The second day the Hastings Legion team was defeated by Campbell 7 to 3. Gay's Grays met Campbell the third day and defeated them to the tune of 8 to 4.

The racing events were splendid and attended with great interest. Frank Star's horse won first money each day in the harness races.

All were well pleased with the music by the bands engaged for the respective days. The Red Cloud band played the first day, Hastings the second and Guide Rock furnished music for the last day of the fair.

Free attractions amused the spectators, when some other event was not attracting attention, and the entire three days were pronounced successful by those in attendance.

**To the Public**

On account of the people leaving gates open and the stock getting on railroad and in cornfields I am compelled to lock the gates on the ranch.

**Mr. Farmer:**

We have always dealt with our patrons in a fair, square, open and above board fashion, giving you the best possible price for your produce and selling you goods at the lowest possible margin of profit.

**We believe in "putting all the cards on the table"**

Our competitors have advanced the price of cream five cents above the station price in order to attract attention to this particular item, using this as a bait to get your business coming their way after which the price can easily be adjusted to normal.

**We pay you as much as you can get any where**

By mis-leading advertisements you might be lead to believe that our competitors are paying more for your produce than the Farmers Union, but this is not true—WE POSITIVELY PAY YOU AS MUCH AS ANY BODY and what profit we make is paid back in dividends. It is a splendid idea for the farmer who has had any differences occur in his tests, to weigh his cream before he takes it to a station. It is possible for an advanced test to be given by deducting from your weight, which is very misleading to the patron.
