LEGION FOR AMERICANISM

The Nebraska American legion has adopted an extensive program of Americanism for the coming year, which will be put into operation thru the 300 posts and 20,000 members of the organization. The legion will seek to inculcate a love and respect for American institutions and principles. It will impress upon all citizens and residents that the declaration of independence and the constitution are the foundation of the best government on earth, and that faults should be corrected thru an orderly process and not by a disregard for the laws and the courts.

The school children will receive special attention, though all citizens and aliens will be reached according to the legion program. Agencies thru which the program will be worked out include the schools, pulpit and platform, all social, fraternal and commercial organizations and the public press. Prize contests will be conducted in the schools with special emphasis on the growth and value of American institutions. The period between Lincoln's and Washington's birthdays has been proclaimed "Respect the Flag Week" by the Nebraska legion.

In the press the American legion will seek to encourage patriotic utterances and editorials, secure publicity for the Americanization program and discourage the advertising of criminals as ex-service men. Advocates for the veterans program will be sought among prominent speakers, in pulpit and platform.

For the citizens the legion will attempt to "inculcate a sense of individual obligation to the community, state and nation," teach the obligation to jury duty, the ballot and other public service. It will emphasize the importance of aiding allies to become good citizens by proper instruction and by appropriate ceremonies on the day they are admitted to citizenship.—State Journal.
