## SIGHT IS PRICELESS

Protect and save it by having us examine and advise anyone who is suffering from a form of eye trouble. The most prominent symptoms of this are headaches, pains in or around the eyes, inability to see so well as others, being unable to read or do close work by artificial light.

Twenty-three years' experience in the scientific fitting and care of thousands of eyes, using strictly up-to-date methods, always caring for the patient's eyes as tho' they were our own, has fitted us for this.

You can make someone happy and do a world of good by making someone a gift of properly fitted glasses.
