Farm Bureau Notes

WEBSTER COUNTY CALF CLUB

Boy and girls who wish to become members of the Webster County Calf Club of 1922 are urged to attend the organization meeting to be held Saturday afternoon, April 29th at 2 p. m. in the Farm Bureau office.

Rules—Members must be over 10 years and not more than 18 years on January 1, 1922. Each member must care for one or more calves. Records to start June 1st and close October 1st. Calves must be 8 months and under 20 months.

HEREFORD AND SHORTHORN HEIFERS

There is a great need in this county for the improvement of the cattle industry. The farmer has not profits at the end of the year. By becoming a member of the Calf Club with a Hereford or Shorthorn heifer you will learn methods of feeding, showing, etc.

DAIRY CALF

The Dairy cow is a manufacturing plant and all her milk can be manufactured into other products. Join the Calf Club with a Holstein heifer.

BABY BEEF

Feeding of baby beef has been more profitable than the feeding of older cattle. Join the Calf Club and feed a baby beef. Learn feeding methods and balance rations.

PRIZES OFFERED BY COUNTY FAIR AND FARMER'S INSTITUTE

Each breed and baby beef 1st \$5.00, 2nd \$3.00 and 3rd \$2.00, besides specials and prizes in open classes.

STATE FAIR

Each Breed—1st \$25.00, 2nd \$15.00 and 3rd \$10.00. Baby Beef—\$35.00—\$30.00—\$25.00—\$20.00—\$15.00—\$10.00—\$10.00—\$5.00—\$5.00 Hereford and Shorthorn State Associations are putting up \$50.00 each as specials on baby beef. Members of Calf Club can try out for Stock judging and demonstration teams.

LIVE STOCK IMPROVEMENT

The county as a whole needs a type of live stock which will net greater returns to the producer for his feeds and labor. With the present price of land, labor and feed, it is not possible to realize a profit on scrub live stock.

If the boys and girls are to be interested in live stock they must be allowed to work with animals that respond to kindness and care. Any business, in order to be popular and

substantial must be a paying business. Righteous living, culture and general education make the most progress in communities where an intelligent system of high standard live stock production is carried on. People in order to make good citizens must be engaged in a profitable as well as a pleasant enterprise. Any live stock community will be strengthened materially by aiding in the banishment of the scrub.

GRANT CHRISTY

First to establish the
\$10.90 price—"Usco"

THE makers of U. S. Tires made this announcement last November—

"Hereafter the price of the 30x3 1/2 'Usco' is \$10.90." The lowest price ever quoted on a tire of quality reputation and standard performance.

And now, with the opening of Spring, there seem to be quite a number of "New and Special tires" coming into the market in the \$10.90 price range.

Perhaps you are wondering just what there can be either "new" or "special" about these tires.

It can't be the \$10.90 price—"Usco" established that five months ago.

Nor quality reputation and standard performance—for it takes more than one full season for any new tire to demonstrate where it stands in quality and value

With so many tires rushing into this \$10.90 price

field (now that the season promises business from the American car-owner), it is worth remembering that "Usco" showed its good faith by announcing this price last fall.

The same intent to serve that has made "Usco" a standard value for years.

The "Usco" Tire was never better than it is today—with its established quality, its time-tested performance, and its price closely figured in tune with the times.
