COUNTY SUPERINTENDENT

ESTELLE E. DUCKER

Candidate for Second Term

TO THE VOTERS OF WEBSTER COUNTY:

I am asking for a second term in the office of County Superintendent knowing that it is a time honored principle of American politics to endorse faithful and efficient service in public office by the giving of a second term.

During my present term of office, realizing the present heavy burden of taxation. I have practiced the most rigid Under the law I am allowed \$600.00 for Institute work. Of this fund I have used only \$150.00, thus saving the tax payers \$450.00, and in the buying of supplies I have saved some \$300.00, and now have on hand over \$250.00 to carry on institute work next year. Thus I have on these two items alone accomplished a saving of appropriation and have created a surplus on hand in spite of general high costs. I stand for the best of teachers at reasonable salaries. Poor teaching is a crime against the children. School boards are responsible for their wage contracts with teachers.

I have stood firmly and uniformly for an absolutely impartial, equitable and courteous administration of the affairs of my office.

I have stood for what is highest and best in education, realizing that we must look to education for the solution of our present pressing problems.

Let me say in conclusion that I was reared in Webster County. After graduating from the State University I spent many years teaching in the schools of this county, and am familiar with their history and development. I have frequently attended the University summer school sessions to keep abreast with progress in education.

I know from experience in the one term I have had that I can render better service to the county during a second term, and if elected I will give the same undivided attention to my duties, and the same careful consideration to the publie that it has been my pleasure to extend in the past, Wishing the best for Webster County, I am.

BETELLE E. DUCKER. Candidate for Second Term.
