IF your hard work and investments are not giving you the return they should —if high land prices and high rentals are blocking your road to Success—if you are beginning to see how hard it is to compete with low-priced lands that are equally fertile, you owe it to yourself and your family to get the facts about farm opportunities in Canada. Lower-priced land-lower overhead-lower taxes and operating costs—may be the solution of your problem.

Low-Priced Land–the Secret

Virgin prairie land at \$15 to \$30 an acre, with long terms, if you want them, close to railways and market towns, schools, churches, telephones, highways—these vast virgin prairies offer you the last great farm opportunity. The fortunes of the United States were built on low-priced land. Those lands are now dear—perhaps beyond your reach—but Canada's lands are still low-priced. You may have missed the first chance—don't miss the last.

Your Own Farm-Prosperity, Happiness

The opportunity that fits your particular financial and family needs awaits you in Canada, and the Canadian Government Agent will help you find it. Land of great and continuous fertility, (Western Canada's wheat crop in 1922 was the biggest in history), land suitable for stock-raising, dairying, mixed farming, fodder crops, market gardening, to suit your experience and your pocketbook. Land that will pay for itself in a few years crope; hun-freds of Canadian farms have produced crops in one year worth more than the price of the land.

Rent If You Prefer-

Pay Out of Profits

The Canadian Government has devised a means by which you can "try out" a farm for a year or two before investing, and at the same time increase your capital for the day when you are ready to buy a farm of your own. Many Canadian land owners are willing to rent a portion of their holdings; others

are already retiring and will rent on easy terms, in some cases giving an option of purchase. If you have a farm outfit, or the means of buying it, even if your other capital is small, this is your chance to try out the country for yourself. Seeing is believing. See for yourself. A year or two on a rented farm may be the road to success. If you have present holdings which you cannot sell to advantage, hold them another year or two, conditions may improve, but start in Canada at once. Lands are being taken up; nothing is gained by delay.

Taxes Fayor the Taxes Favor the Producing Farmer

Western Canada's tax system encourages farm production and the improvement of property. Taxes on an improved farm are less than on an unimproved one, and there are no taxes at all on the farmer's buildings, machinery, live stock, automobile, crops, or personal effects. Tax laws are designed to aid the farmer in building up a home of his

Indian Lodge Tales

Ford C. Frick

THE LEGEND OF FRAY JUAN DE LA CRUZ

Now it so happened that years ago, before any of us were born, and when our fathers' fathers' fathers were only boys, there came out of the Southland many white men, and all the white men were in search of the sparkling gold which lay in the mountains where it was hid from all eyes And these white men were cruel to the tribesmen and murdered them and made them slaves, and the tribe was greatly frightened.

But one day there came another white man and his name was Juan De La Cruz, and he called himself "Padre," and he was a great medicine man, who worshiped strange gods and who taught many of the tribesmen to worship his gods also. He lived with the tribe many moons and went among them in his strange garments and talked to them and taught them many

He continued to move northward out of the desert lands until he came to the Great White mountains, where dwelt the gods of rain. Then his Indian friends told him not to go farther, for the mountains were filled with great spirits, who were angry with the Redmen and who would not permit them to come within their lands. But he only laughed at their fears and told them his god was the greatest god of all, and the Indians believed him, for he was a great medicine man and his medicine was strong.

So be came to the Great White mountain and entered into the canyons, where the spirits dwelt and the Indines saw him walk unharmed. And so they followed him and the whole party entered the canyon and spent many days.

One day Juan De La Cruz found there much gold and he was very glad, And the Indians told him it was the gold of the gods and warned him not to touch it, but he laughed and said it was "The Lost Mines," and with their help he collected great bags of the gold, which he loaded on his burros to take with him. That night there was a great feast and Juan De La Cruz was very happy, and at the spot of the mine he erected two large sticks in the form of a cross, and before them he brewed great medicine.

In the was begun, he went to the top of the great hill and walked in the sunlight and said strange words to his

But as he was walking the Indians saw him stumble and fall and he plunged down the mountain side out of sight. And when they reached him he was dead and his body was broken and bruised. And the people were very much afraid,

Then the chiefs held council and when they were through they called on the medicine men of the tribe and the medicine men told them it was bad. They said the gods of the Great White mountain were stronger than the white man's god, and had caused him to be hurled over the cliff because he touched their gold.

They urged the people to return whence they came and so they went back to their homelands. But they left behind them all the gold which the padre had collected, and they would not touch it, for it belonged to the rain gods, who dwelt on the Great White mountain, and if they touched it they would die.

When they returned to their home they told other white men of the strange gods which dwett in the mountain, but the white mer, only laughed, and many there were who went forth to search for the gold, but there were none who found it, and there it is to this day, hidden in the canyon in th shadow of the Great White mountain

Whales Not Disappearing.

Can the whales multiply with sufficlent rapidity to prevent their extermination by man? The whalemen themselves are convinced that they can. They estimate that there are tens of thousands of whales in the seas, and at present the various whaling stations have been able to catch all the whales they need without going more than two hundred miles up and down the coast and out to sea. Each station has undoubtedly already taken more whales than would be natural residents of the waters in which they operate, hence the losses in that area can only be made up by other whales swimming in from other parts of the

What Is Good Lens?

A "good" lens, in the photographic sense, is one which will give a perfectly clear distinct Image, without distortion, and without "false images," when it is used with a large stop, and over a wide angle. Before, therefore, we are in a position to say whether a lens is "good" or not, we must know at what aperture it will work, and what angle it includes. It is evident, therefore, that something more than a mere capacity to give sharp pictures

Voman's Heartlessness.

"I hear tell that Gabe Gawkey is figgering on getting a divorce from his wife," said a neighbor. "What's the

matter with her, anyway?" "She's plumb heartless!" replied Gap Johnson of Rumpus Ridge, Ark. "He talked about some spring medicine and she up and told him that the best kind to suit his case was a bucksaw and an ax. That there infernal lady hain't got no more feelings than a snapping turtle!"-Kansas City Star.
