WHY TAKE LAXATIVES?

Discovery by Science Has Replaced Them.

Pills and salts give temporary relief from constipation only at the expense of permanent injury, says an eminent authority.

Science has found a newer, better way—a means as simple as Nature itself.

In perfect health a natural lubricant keeps the food waste soft and moving. But when constipation exists this natural lubricant is not sufficient. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movements by Nature's own method—lubrication.

As Nujol is not a medicine or laxative, it cannot gripe and, like pure water, it is harmless and pleasant.

Nujol is used in leading hospitals. Get a bottle from your druggist today.—Advertisement.
