Mothers Advise Their Daughters to Rely upon Lydia E. Pinkham's Vegetable Compound to Keep Them in Health

A Mother's Advice Prevents Operation

Corona, N. Y.—"I had a terrible pain in my left side and had to go to bed every so often. Doctors had told me I must be operated on, but I do not believe in the knife and would rather suffer than go through it. My mother also did not believe in it and she made me take Lydia E. Pinkham's Vegetable Compound because it had helped her. It has also helped me for I am better and able to do all my work. I recommend your medicine and give you permission to use my letter as a testimonial."—Mrs. J. E. BUCHANAN, 11 S. Railroad Avenue, Corona, N. Y.

A Sickly Child

Mahoningtown, Pa.—"I would like to say a few words about Lydia E. Pinkham's Vegetable Compound. About a year ago I thought it would be necessary for me to take my daughter out of school. She was losing weight, was nervous, and when she would come home from school she would drop into a chair and cry, and say, 'Mamma, I don't believe I can go to school another day!'"

Theory and Condition.

Blossoming forth from poverty to riches, Mr. Smith bought a motor car. It wasn't much of a car, but he talked about it a lot. He always called it "my automobile." He tried many experiments with it, and was often seen reclining underneath it. This happened so frequently that Smith and his automobile became the joke of the neighborhood.

One day Smith was mowing his lawn when something went wrong with the mower. He sat down beside it to have a look at the machinery.

A wag, chancing to pass that way, paused.

"Good morning, Smith," he said; "is that your automobile again?"

"No," growled Smith. "It's my oughtermorgan—but it won't!"

Question.

"My youngest sister is engaged." "Well, girlie?" "I was just wondering." "About what?"

gave her Lydia E. Pinkham's Vegetable Compound and now she is a healthy, happy, hearty, strong girl and weighs 120 pounds. She has no difficulty in doing her 'gym' work, and she works at home every night and morning, too. I am a mother who can certainly praise your medicine, and if it will be of any benefit you may use this letter as a reference."—Mrs. GEORGE E. WHITACRE, 621 W. Madison Ave., Mahoningtown, Pa.

Every girl wants to be healthy and strong, and every mother wants her daughter to do well in school and to enjoy herself at all times.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for young girls just entering womanhood. Mothers may depend upon it. Remember it is prepared from roots and herbs, contains nothing that can injure, and tends to tone up and strengthen the organs concerned, so that they will work in a healthy and normal manner.

For nearly fifty years it has been used by women of all ages, and these women know its great value. Let it help your daughter and yourself.

One Live Topic.

They were thrown into each other's society in a country house, without common interests or the least attraction for each other.

Finally, after eating about for a fertile subject of conversation, only to fail in every attempt, he said, desperately: "Will you marry me?"

She considered long and deeply. "I think I'll say yes," she replied at last. "It will give us so much more to talk about while we're here."—Los Angeles Times.

Cologne is 200 Years Old.

The recipe for making the original eau de cologne was discovered more than two hundred years ago, and since that time it has been entrusted to only a dozen persons. The written copy of the recipe is kept in a crystal goblet, under triple locks, in a room in which the essential oils are mixed.

Knitted-in-Design Fabrics;

Bathing Suits Are Bizarre

AMONG handsome apparel dedicated to the cause of fashion this season frocks of knitted fabric stand prominently in the foreground of highest accomplishment. Like Alexander of old, who sighed for more worlds to conquer, designers of knitted fabrics have been existing about for some greater achievement in their art of production.

No doubt the stupendous vogue for all-over patterned materials gave in-

depends on one's preference and purpose. Of course if one is going in solely for the joy of water frolic and sports the simplest sort of suit warranted to withstand wind, water and weather is desirable. However, there are those who prefer to look the part rather than play the part—indeed, to add to the picture, as it were. Come to think of it what a lot of local coloring and scenic effect would be lost if bathing suits were patterned all

spiration for the creation of new knit materials of worsted with fiber silk, also all-fiber silk, elaborated with an inter-knit design of enriched color and fanciful conception. That the effort is crowned with gratifying results is evidenced in the two smart gowns in this picture. They are fashioned of "tre-quard," which is the name of a new knit material which is itself inter-knit with either gorgeous flowers, birds or conventional motifs, according to one's preference. The model to the left shows flowers in multi-color on a dark background of knit fiber silk and the side sash-tie is indicative of latest mode. The seated figure wears a perfectly styled frock of worsted

alike, restricted to utilitarian uniforms.

The younger girls are quite enthusiastic over the new chintz effects. The cotton bathing suit made its debut at Palm Beach recently and it is wonderfully effective. It consists of a sleeveless slip and is worn over Jersey knickers. Sometimes it is tied at the side with a wide taffeta sash.

Jersey suits with colored embroidery are also in promise for the coming summer and there is no limit to the field for design in this type. Sometimes a very plain jersey suit is embellished with novel accessories. Among interesting details the bandanna square of painted rubber supplies a highly

and fiber silk with a fashionable Navajo Indian pattern.

Straight one-piece frocks are a favorite type for these knitted materials. Sometimes there is an all-over inter-knit pattern on the waist only.

In the simpler models one notes all-over patterns self-colored to the background. The wide soft sash of knitted silk with fringed ends decorates many a frock. Another attractive idea is that of trimming the suit or gown of knitted fabric with bindings and applique of leather.

Two-piece models combining plain knitted in solid color with the heavily patterned knit-in-design fabric are charmingly designed with skirt and Jaquette or blouse.

decorative feature. This square is knotted about the shoulders like a huge handkerchief. With this is carried a unique bathing bag made of rubberized cloth and cut and colored to represent a toy duck.

Not even bathing suits have escaped the vogue for Egyptian design. Note the one in the picture. It is a printed silk showing an allegorical scene wherein a boat and human figure are depicted. The stunning black and white waterproof silk cape assuredly adds to the picture.

MRS. J. MILLER TELLS OF GAIN

Declares Tanlac Overcame Stomach Trouble, Restoring Health, Strength and Weight.

"I am now strong and happy and go about my household duties, so I think it is only natural that I should praise Tanlac, since that is what has given me such splendid health," declared Mrs. J. Miller, 119 Johnston Ave., Kearney, N. J.

"For a year before I started taking Tanlac I was simply in wretched health from stomach trouble and a run-down condition. My appetite left me, I was eating scarcely enough to keep going, and was often so weak I could hardly do any household work. My food often disagreed with me, and I would have suffocating spells and heart palpitation that nearly drove me frantic.

"My mother had been helped wonderfully by the Tanlac treatment, and when she advised me to take it I started right in. It has built me up five pounds, my digestion is perfect, my appetite splendid, and I am always taking Tanlac now. It is simply grand."

Tanlac is sold by all good druggists. Over 35 million bottles sold.—Advertisement.

Many Species in Kentucky.

In Kentucky, which is a center of the broad-leaved belt, there are several hundred different varieties of trees, says the school book of forestry of the American Tree association. Farther south the cone-bearing species prevail. They are followed in the march toward the Gulf of Mexico by the tropical trees of southern Florida.

Find What CANADA has to offer YOU!

If your dream of success seems like a hopeless ambition, if you are discouraged trying to get ahead on high priced land, if your present location fails to give you opportunity, there is a new deal for you, a new chance in the fertile, virgin farms of Western Canada, where wheat produces 20 to 40 bushels to the acre, where the 1922 crop was biggest in history, where oats, barley and hay and fodder crops are the basis of a great dairy industry, and a man's work brings him success and prosperity.

Low Priced Land—the Last Great West

In Western Canada you still can buy virgin prairie land at \$15 to \$20 per acre, on long terms if desired, near to town, railroads, etc.—land such as has for many years produced the world's prize winning wheat, oats, barley, flax, rye, alfalfa. Canada had no "war time" land boom; prices are not inflated—you get in on the ground floor.

Taxes Favor the Farmer as Values Increase

The tax laws of Western Canada encourage the producing farmer. The tax on land is reduced when it is brought under cultivation—while on your buildings, machinery, improvements, personal property, automobile, there is no tax at all. A single crop is often worth more, acre for acre, than the cost of the land.

Rent Now—Buy Later Pay Out of Profits

Canada welcomes the industrious settler. What you have now isn't so important. If your capital is small, or you cannot sell your present holdings to advantage, rent a fertile Canadian farm and "try it out" for a season or two. Make a good living, increase your capital, and buy later. Farms may be rented from successful settlers on easy terms; in some cases with option of purchase.

Buy on Exceptional Terms—32 Years to Pay

For the benefit of those wishing to buy land a national non-profit sharing organization—the Canada Colonization Association—has been established with head office at Winnipeg, and United States office at St. Paul. This Association offers selected land convenient to railroads—much of it at \$15 to \$20 per acre—on very small cash payment; no further payment until three years; balance extended over thirty years.
