COUNTY SCHOOL NOTES
(By Superintendent)

The next eight grade examination will be May 3 and 4. Students who fail in any subject will be given a second chance at this time.

The next teachers' examination will be held May 25 and 26.

Teachers are being elected in many schools at this time. This is the time when the chances of your children are determined. A good teacher means a year of opportunity and advancement for them; a poor teacher means a year of their life wasted or perhaps worse than wasted. Make sure that your teacher has good grades and try to find what her standing is in the last community or with her High School teachers. See if she had good government. Make haste slowly and do not elect a teacher without knowing something definite about her. When you have hired or promised your school write in to the County Superintendent so that the teachers that have no place will not spend a lot of money and time trying to get positions that are already taken.

Applications for transfers should be in before June 11. Applications for free high school tuition must be in before June 11.

A great movement is in progress to

try to have trees planted in school yards and in private yards, one for each member of the family. If you don't want trees, shrubs or vines would do. A prize of ten dollars will be given to the school succeeding in making the greatest improvement in its surroundings by next year at this time, or later in May. Try to get the parents interested in your schools.

There are a great many papers looked over in the eighth grade examinations and always there are some things overlooked. This year two names were overlooked that should have been in the list of rural children that passed. They were Albert Erickson of District 11 and Robert Kudrna of District 75. Whenever it looks as if things were not right it is no favor to let the matter go. If it is not right, it can be made right and that is the way we want it, so bring in your complaints.

Gus Holmgren arrived in the city Tuesday evening to visit relatives and friends.

BRETHREN

H. A. FRANTZ, Pastor

We welcome you at the Brethren Church. This is the growing season. New life is showing everywhere, and this means fruitage in nature later on. Refreshing showers are calling forth the best in nature. There are refreshing showers awaiting those who will come into the temple of worship, where our God will feed, and warm and nourish. This also will mean fruitage that will continue an eternal increase of joy and blessing. Come let us worship together.

Sunday School at 10.
Morning worship at 11.
Christian Endeavor at 7.
Evening Worship at 7:30.

CHRISTIAN

"And Ruth said, Entreat me not to leave thee, and to return from following after thee; for whither thou goest, I will go; and where thou lodgest, I will lodge; thy people shall be my people, and thy God my God; where thou diest will I die, and there will I be buried."

Because of the rain, we missed our country people Sunday. However we are all grateful for the splendid rain of the past few days, and next Sunday we hope to raise the Sunday School attendance several degrees.

The Social Circle spent a very pleasant afternoon with Mrs. H. R. Childress Friday. The hostess was assisted by Mrs. David Delph. At the close of the afternoon a delicious luncheon was served by Nina Childress and Ellen Woodruff.

The Mission is being freshened up a bit with new paper and paint.

GARFIELD COMMUNITY

10 a. m., Sunday School. The Story of Ruth

11 a. m., Sermon by Rev. I. B. Wagoner.

7:45 p. m., Program by Young Peoples Department.

8:30 p. m., Sermon: The Laws of Life, 2 "The Law of Opportunity and Responsibility".

The Chorus will meet Saturday evening at the church for music practice and a social. The meetings are for all, not only for the young folks. The parents will enjoy the music and the good time as well as their children. A ladies chorus will be organized Saturday evening. It is desired therefore that all the soprano and alto singers of the chorus be present.

Note that Rev. I. B. Wagoner will preach Sunday morning, also that the second of the evening series of Sermons on the Laws of Life will be given Sunday evening.

In spite of the rain about a dozen of the young folks were present Sunday evening last. It was not possible, however, to give the program as planned and the same will be given Sunday evening next.

Queen Ants and Bees.

It has been contended that the queen ant has not had justice done to her by naturalists. As compared with the famous queen bee, she is regarded by some as a far more admirable creature. In fact, they are, in many respects, diametrical opposites. The queen bee is a degenerate creature, unable to nourish either herself or her young, to visit flowers, to build combs, or to store them with honey. With the queen ant quite the reverse is true. She is a perfect example and embodiment of her species and the worker ants suffer from incomplete and retarded development. The queen ant is a very industrious and intelligent worker and it is pointed out that she forms an exceedingly interesting subject for study, and has not hitherto been well understood.

End of Cromagnon Age.

About 15,000 years ago the Cromagnon age in Europe came to an abrupt end. There developed a sudden mildness to the climate, accompanied by cool rains. Heavy forests sprang up on what had been the open grass lands of wild reindeer, wild horses, and wild ibison. Glaciers pulled back up their Alpine slopes; the ice fields that were over what is now Norway and Sweden melted away. The Pleistocene age was over and the modern era was at hand. Cromagnon people all but vanished from western Europe; Cromagnon art was no more. Whether these wild chestnut-haired hunters followed the ice into what is now Russia, or whether they became extinct, no one knows. Certain it is their former lands were deserted when the next race of man appeared.
