Effect of Mind on Matter.
 Exciting motion pictures and plays cause the temperatures of audiences to rise and result in the throwing off of bodily heat. Some theaters lower the heat supply as the act approaches the climax.

BUCKSHOT

What the country needs is not more government but more horse sense.

There is a lot of difference between an honest, necessary explanation and an alibi.

It is possible to be highly moral and still lack a whole lot of being a Christian.

Half the world doesn't know how the other half lives and doesn't care a whoop.

This is the season of the year when we find out what liars the makers of seed catalogs are.

Too many people have the notion that nothing is funny or artistic unless it is also indecent.

The maniac behind bars deserves sympathy. The one behind a steering wheel ought to be shot.

Who remembers the good old times when men saved tobacco tags and women joined Larkin clubs?

Twenty dollar hogs and two dollar corn are mighty fine but none of us want a war to bring them back.

A Friend young man is so timid that he proposed marriage to his favorite girl in an anonymous letter.

It is fine to be young in spirit but the biggest fool of all is the old person who tries to act like a young one.

The man who buys groceries on credit always has enough cash in reserve to buy circus tickets and gasoline.

The reason the old fashioned hell has lost its terrors is because most of us get so much of it that we no longer worry.

It is easy to cut your cost of living if you will cut out the things you don't need and would be better off without.

It is no trouble for me to take a vacation. The Boss tells me where to go and The Junior tells me what to wear.

Here is a brand new idea: Why not have the assessor and the Bradstreet reporter make their rounds together?

Alliance is putting up road markers. Here's hoping they will stick up two or three between that town and Scottsbluff.

The advertising Bob Simmons is giving western Nebraska is worth the price, even if he does nothing else as congressman.

I believe in organization but not in the kind that makes oranges sell for sixty cents a dozen that we used to buy for a quarter.

Some women save the scraps as a matter of thrift but a young woman of my acquaintance saves them to avoid washing dishes.

It isn't going to be no snap to manufacture this column of dope and spend a month taking in the National Editorial association business meetings and excursion at one and the same time.

A Wahoo small boy told his mother the other day that he had a severe pain in the interior of his exterior. Wahoo is an educational center, you know.

A radical is any person who has political ideas different from mine. A conservative, level headed chap is one who believes as I do.

Perhaps the reason Henry Ford is so much more popular than other rich men is because he can't be blamed for raising the price of anything.

If the average automobile driver were as impolite when walking as he is when driving black eyes would become a permanent decoration.

Father and son banquets are mighty fine but some father and son sessions in the woodshed, or its successor, are also needed every now and then.

Everybody believes in organization nowadays except in politics. Many people think this important function should be allowed to run wild, subject to the whims of any leaders who may appear.

When I have an argument with The Boss I am always wrong.

Some folks think every member of the legislature is a former horse thief or croquet player and that all that is necessary to get things done is to threaten them with exposure.

A Chadron man came near cashing in the other day. He made a mistake and took a drink of hooch instead of the horse liniment which he uses as a regular lubricant for his interior works.

Not much wheat in this vicinity but the barley and oats are all cut and shocked both being a heavy crop and of a good quality.

A very heavy downpour of rain fell here on the forenoon of the 4th amounting close to two inches confined to a small area about three or four square miles.

The second crop of alfalfa is making a rapid growth and in a few days will be ready for cutting. A great many say it will be as good as the first which was exceptionally heavy.

Every one that is digging potatoes says they are fine and expect a big crop. This crop got plenty of rain and sunshine besides being a good size are plentiful and I like good count too.

The farmers are making good progress in cleaning up the corn under the circumstances will be somewhat later than former years as the task is more complicated owing to the incessant rains which necessitated replanting and also was considerably retarded in being absent from work owing to the ground being too wet.

A great many of the woman folks in this neighborhood came to a heavy loss in losing a great number of chickens with some kind of an epidemic. Even the writer did not escape by getting a hard rub by the scourge or malady (the chickens I mean) besides losing several dozen of old ones, he (the writer) had poor luck in raising any young chickens.

The arrival on last Saturday of the much noted lecturer and theologian in the person of Rev. L. S. Terry of Wauweta, Nebr. gave much joy and exultation to not only the members of his church, Christ's church, but also to many others in this vicinity outside of his church who know him personally and heard him speak both here and elsewhere on the words of the Holy Scripture and the Divinity of Christ.

Morning services were held at the Pawnee Union church at 10 o'clock. A large number was present at the morning services but was considerably augmented in the afternoon when preaching took place. Many from Jewell county, Red Cloud and Hastings, Neb. were here in time for morning services. The entire congregation much appreciated the sermons both in the morning and afternoon admitted by all hand to be surpassed. The Rev. Terry then left late in the evening for his home leaving a promise to be back again for a longer stay in October.

In Germany they have carried the manipulation of the mark so far—well, it seems hardly believable, but if they did the same thing to the dollar, it would take over ten million in paper money to buy that land. The primary producer can raise his prices, but not fast enough to equalize this drop in the gold value of unsound money. That is where the catch comes in.
